Study Skills 11+ - Louise Martine
2017-10-26

This book covers everything you need to know in preparing children for both pre-tests and 11+ entrance exams for admission into independent and grammar schools. It sets out ways in which children can become successful and confident learners over the years and months building up to these tests taken in Year 6. The author passionately believes that intelligence is not fixed but can be nurtured and grown with the right support. The key to putting this into action is to understand how you learn and to master the strategies for learning, retaining and recalling information effectively. This book will help parents and teachers

support children approach one of their first academic hurdles with confidence. The book begins by looking at why revision is important and how the brain works. It introduces the concept of growth mindset and how with the right support, confidence, resilience and independence can be nurtured. It provides guidance on physical and mental wellbeing (including a section on coping with stress). It moves on to cover ideas on how to gain control of studying and how to develop good organisational skills. Being healthy, feeling stress free, in control and excited about school is vital. There is a comprehensive chapter study skills and how to master them, from learning how to identify key words, using flashcards, to creating mindmaps. Examples based on the 11+ syllabus and questions or tasks to revise the skill are given throughout. The book then focuses specifically on the skills needed for

the 11+ tests. It offers wide-ranging advice on each subject (English, Maths, Verbal and Non-Verbal reasoning), how to prepare for online tests, interviews and test day tips. Current thinking and research by world-renowned social psychologists, psychologists and educators is at the heart of this book and are referenced. Tips for parents supporting their children's learning journey are given throughout.

11+ Mathematics Practice Test Papers: 2019 Edition - Educate Sterling
2019-07-30

Letter to Parents: After years of helping prepare students to sit their 11+ exams we, at Educate Sterling, realised that much of the fundamental progress made by students is done through sitting past papers at home. Unfortunately, because each school only release one or two specimen papers a year, parents often expressed frustration at not being able to find enough papers for their children to practice on. When evaluating the papers which were available to download from different websites, we found that most were aimed at preparing students for the "average" UK entrance test. These have considerably easier questions

than those of many central London schools. Realising this gap in the market, we started to design and write past papers that reflected the format and difficulty of the most challenging 11+ entrance exams. These not only match the syllabuses but also contain the types of "creative maths" questions students will face. There are a number of things to remember when attempting these tests. Firstly, they are hard and are supposed to push even the most academically able students. Therefore, the scores in these tests may be lower than what your child normally receives. As a rough benchmark, anything above 60% is good, 70% is very good and 80% is amazing. As these tests are harder than the norm, it may be sensible to use them at the end of your child's preparation, not the beginning. This will make sure that their confidence is not dampened by a poor test performance. Lastly, if you would

like any help preparing for the exam, or advice on choosing the best school for your child, please feel free to get in contact with us using our website - EducateSterling.co.uk. We have helped many families support their child through the challenging process of applying to independent schools in London. Why not get in contact to see if we can help you too? Thank you and we hope you find the tests useful.

11+ Style Test Papers: Maths - S6

Tutoring Academy Ltd 2015-07-28
S6 Tutoring Academy is a leading tutoring company specialising in preparation for 11+ exams for state grammar schools, and private common entrance exams. The company has positioned itself at the forefront of revision with their new publication of S6 English and Maths guides. These test papers have been developed to improve preparation for students aged 9-11, to help them obtain the essential skills they need to succeed, particularly in light of the recent introduction of the new-style 11+ exams. The Maths guide, 11+ Style Test Papers: Maths, covers a range of topics to develop their methods and reasoning skills using mathematical language, diagrams and charts to build confidence and competence within the subject. In conjunction with these papers, S6 Tutoring Academy has also created an online hub that supports study and further practice so that children can be

fully prepared with the knowledge, understanding and exam skills required to be successful in the 11+ tests and similar entrance exams. The use of mock exams lets children prepare in a manner that normal revision does not allow. Each book includes five exams that will provide children with much-needed confidence ahead of their real exams.

11+ Super Selective Maths - The 11] Company 2014-07-16

The 11+ Super Selective MATHS series has been written especially for children who seek 'more than ordinary' mathematical challenges. Filled with questions designed to stimulate thinking rather than simply elicit learned responses, this series provides the challenge that able pupils seek. Selective UK secondary schools are increasingly developing entrance exams that test potential

rather than coached learning. As such we do not offer any particular exam format (e.g. CEM Durham, GL Assessment). Instead children's learning will be brought to life by our questions that demand insight and grasp of the fundamental concepts underlying each problem. Our fully worked answers demonstrate different strategies for solving 11+ mathematical challenges. Attractively designed and with ample space inside for pupils to express their working, this series will lead pupils to discover the fun, beauty and elegance of Mathematics! Each book in the 11+ Super Selective MATHS series - Contains 30 stimulating numerical and mathematical reasoning challenges Provides advanced practice material in mathematical thinking at 11+ Includes fully worked answers & explanations Is suitable for use at the very top of Key Stage 2 and at Key Stage 3 Is suitable for practice for scholarship exams and at 13+"
