BMW Airhead Twins - Phil West 2020-02-24

No motorcycle manufacturer is more closely associated with one type of engine than BMW: the air-cooled boxer twin or 'airhead'. It was included in BMW's very first motorcycle in 1923 and virtually every machine the company made, of every type, from radical road bike to TT winner, to land speed record holder, to 1970s style icon and even to the creation of an all-new

adventure bike class with the R 80 G/S, right up to the mid-1990s. Phil West celebrates the success of the BMW airhead twin motorcycles. This book, with over 290 photographs, includes a history of the company pre- and post-War; the personalities behind the development of the bikes; profiles of each of the 'R' bikes in turn, including detailed specification guides and production numbers. These wonderful machines are regularly celebrated and now BMW itself is harking back to them with an all-new series of machines.

Volvo Amazon - Richard Dredge 2016-03-31

In 1956, a prototype of a new passenger car from Volvo was presented. It
became known as the Amazon in Sweden and the 121 and 122S in export
markets, the latter denoting a more sporty derivative. However, despite its
substantial appearance, all Amazons were surprisingly fleet of foot - this was
one of the most sporty European saloons of the 1960s. With its elegant,
timeless styling the Amazon broke new ground for Volvo - and for passenger
cars as a whole. This new book covers the complete story of the Volvo
Amazon, from 1956 onwards, including full production histories,
comprehensive specification details, and over 250 photographs. The book
covers the history of Volvo before and after the Amazon, and development
and production of all Amazon derivatives from 1956-1970, including the 121,
122S, 123GT and all of the estate editions. There are biographies of key Volvo
personnel, including the company's first designer, Jan Wilsgaard. Also
included is the Amazon in motorsport, plus driver biographies: Tom Trana,
Sylvia Osterberg and Carl-Magnus Skogh. There is a full buying guide along
with tips on tuning and modifying, including rally preparation, and an insight
into what the press thought of each Amazon derivative, with pages also
devoted to how the car was marketed in period. An ideal resource for owners,

or anyone with an interest in the evolution of these classic cars, which is superbly illustrated with 250 colour photographs.

Honda Gold Wing & Valkyrie - Malcolm Birkitt 1999

In 1974, Honda took the wraps off a 1000cc flat four with shaft drive and water cooling, and the Honda Gold Wing was born. Renowned photographer Malcolm Birkitt has included coverage of Honda's dynamic, new Valkyrie in this update of his best-selling Honda Gold Wing title, as well as examining all the changes in the Gold Wing since 1995. Included are intriguing early design sketches and portraits by Honda's designers and engineers.

The Honda GL1800 Gold Wing - Peter Rakestrow 2021-04-14

Evolution or revolution ... this was the dilemma Honda faced in creating the new fifth generation Gold Wing. Consumers were happy with the near-perfect GL1500 Gold Wing, but sales were declining and owners ageing. In 1996 Honda's designers and engineers decided the only way forward for the Gold Wing was a revolutionary approach. Given a brief by management to incorporate more 'Fun Factor' and make a large luxury touring motorcycle perform like a sports orientated machine, their target market was the younger rider. The GL1800 Gold Wing launched as a 2001 model and was updated in 2006 with the world's first and only motorcycle airbag system. Surviving a production return to Japan it had a second face-lift for 2012 and from that, two other variants emerged, a 'Bagger' and 'Power Cruiser', the F6B and Valkyrie/F6C. The GL1800 was destined to become the longest running Gold Wing series, but over its 17 years of production Honda faced stiff competition. Peter Rakestrow examines the GL1800's history from 1996 to the end of production in 2017, looking at model improvements through the years of this legendary marque, creating a point of reference for owners, buyers and restorers alike.
