Just Praises - Brigitte Manie 2013-12

Some days are a breeze and others bring you lower than your knees. Written for the high and low days, Just Praises is a collection of short praise stories that warms the heart, uplifts the soul, and magnifies God's wonderful love and care for His children. See God answer before you call, watch Him restore two-fold the financial blessing you gave to someone, and experience His insurance which pays out prior to an accident-all in Just Praises. Be blessed! Sneak Peek Inside! Chapter VI: Heavenly Insurance I "For he shall give his angels charge over thee, to keep thee in all thy ways." Psalm 91:11 Back in 1998, my husband had an appointment in Brooklyn, NY and was proceeding fast on the Jackie Robinson Parkway bound for his destination. As he came into a curve, the concrete wall divider was on his left and a vehicle was on his right. When he cleared the curve, he faced death dead on. Straight ahead was a flatbed tow truck, the kind with the sharp horizontal metal sticking out the rear end. With insufficient space between the tow truck and his vehicle and with the divider to his left and a car to his right, there was no way to go but forward, straight into the end of life as he knew it. Later on my husband said the incident might have only unfolded in seconds but back then it seemed like forever as he faced a sure fire fatality that the collision would have brought. The driver on his right saw what was about to happen and floored it. The one

behind realized as well and applied the brakes. A puff of air before impact, my husband swung right into the space made possible just then between the two cars. With a pounding heart and shaking frame, my husband continued on his way, his mind lifting the highest praise to God for the timely salvation He had given to him.

The Language of Threads - Gail Tsukiyama 2007-04-01

Readers of *Women of the Silk* never forgot the moving, powerful story of Pei, brought to work in the silk house as a girl, grown into a quiet but determined young woman whose life is subject to cruel twists of fate, including the loss of her closest friend, Lin. Now, in bestselling novelist Gail Tsukiyama's *The Language of Threads*, we finally learn what happened to Pei, as she leaves the silk house for Hong Kong in the 1930s, arriving with a young orphan, Ji Shen, in her care. Her first job, in the home of a wealthy family, ends in disgrace, but soon Pei and Ji Shen find a new life in the home of Mrs. Finch, a British ex-patriate who welcomes them as the daughters she never had. Their idyllic life is interrupted, however, by war, and the Japanese occupation. Pei is once again forced to make her own way, struggling to survive and to keep her extended family alive as well. In this story of hardship and survival, Tsukiyama paints a portrait of women fighting the forces of war and time to make a life for themselves.

We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB.

Mustang by Design - James Dinsmore 2018-09-14

p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial} Without question, the 1964-1/2 Mustang is one of the most important and influential cars in automotive history. When Ford launched the Mustang, it created an automotive revolution. Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and, in fact, his initial design sketch formed the basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford facilities to get the real, unvarnished story. Gale Halderman offers a unique behind-the-scenes perspective and firsthand account of the inception, design, development, and production of the original Mustang. With stinging losses from the Edsel fresh in minds at Ford, the Mustang project was an uphill battle from day one. Lee Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile, but with the help of Hal Sperlich's detailed market research, the project received the green light. Henry Ford II made it clear that jobs were on the line, including Iacocca's, if it failed. The process of taking a car from sketch to clay model to prototype to preproduction and finally finished model is retraced in insightful detail. During the process, many fascinating experimental cars, such as the Mustang I two-seater, Mustang II prototype, Mustang Allegro, and Shorty, were built. But eventually the Mustang, based on the existing Ford Falcon, received the nod for final production. In a gala event, it was unveiled at the 1964 World's Fair in New York. The Mustang received public accolades and critical acclaim, and soon it became a runaway hit. After the initial success, Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes. The classic Mustang muscle cars to follow, including the GT, Mach 1, and others, are profiled as well. The Mustang changed automotive history and ushered in the pony car era as a nimble, powerful, and elegantly styled sports coupe. But it could so easily have stumbled and wound up on the scrap pile of failed new projects. This is the remarkable and dramatic story of how the Mustang came to life, the demanding design and development process, and, ultimately, the triumph of the iconic American car.
