Beyond the Bottom Line - Andrew Spicer 2014-07-31

This is the first collection of original critical essays devoted to exploring the misunderstood, neglected and frequently caricatured role played by the film producer. The editors' introduction provides a conceptual and methodological overview, arguing that the producer's complex and multifaceted role is crucial to a film's success or failure. The collection is divided into three sections where detailed individual essays explore a broad range of contrasting producers working in different historical, geographical, generic and industrial contexts. Rather than suggest there is a

single type of producer, the collection analyses the rich variety of roles producers play, providing fascinating and informative insights into how the film industry actually works. This groundbreaking collection challenges several of the conventional orthodoxies of film studies, providing a new approach that will become required reading for scholars and students.

*The Psychology of Screenwriting* - Jason Lee 2013-07-18

*The Psychology of Screenwriting* is more than an interesting book on the theory and practice of screenwriting. It is also a philosophical analysis of predetermination and freewill in the context of writing and human life in our mediated world of technology. Drawing on humanism, existentialism, Buddhism, postmodernism and transhumanism, and diverse thinkers from Meister Eckhart to Friedrich Nietzsche, Theodor Adorno, Jacques Derrida, Jean Baudrillard and Gilles Deleuze, *The Psychology of Screenwriting* will be of use to screenwriters, film students, philosophers and all those interested in contemporary theory. This book combines in-depth critical and cultural analysis with an elaboration on practice in an innovative fashion. It explores how people, such as those in the Dogme 95 movement, have tried to overcome traditional screenwriting, looking in detail at the psychology of writing and the practicalities of how to write well for the screen. This is the first book to include high-theory with screenwriting practice whilst incorporating the Enneagram for character development. Numerous filmmakers and writers, including David Lynch, Jim Jarmusch, David Cronenberg, Pedro Almodóvar, Darren Aronofsky, Sally Potter and Charlie Kaufman are explored. *The Psychology of Screenwriting* is invaluable

for those who want to delve deeper into writing for the screen.

**Script Culture and the American Screenplay** - Kevin Alexander Boon 2008-01-10

Though the history of the screenplay is as long and rich as the history of film itself, critics and scholars have neglected it as a topic of serious research. *Script Culture and the American Screenplay* treats the screenplay as a literary work in its own right, presenting analyses of screenplays from a variety of frameworks, including feminism, Marxism, structuralism, philosophy, and psychology. In distancing the text of screenplays from the on-screen performance typically associated with them, Kevin Alexander Boon expands the scope of film studies into exciting new territory with this volume. *Script Culture and the American Screenplay* is divided into two parts. Part 1 provides a general background for screenplay studies, tracing the evolution of the screenplay from the early shot lists and continuities of George Méliès and Thomas Harper Ince to the more detailed narratives of contemporary works. Part 2 offers specific, primarily thematic, critical examinations of screenplays, along with discussions of the original screenplay and the screenplay adaptation. In all, Boon explains that screenplay criticism distinguishes itself from traditional film studies in three major ways. The primary focus of screenplay criticism is on the screenplay rather than the film, the focus of screenplay studies is on the screenwriter rather than the director, and screenplay criticism, like literary criticism, is written to illuminate a reader's understanding of the text. Boon demonstrates that whether we are concerned with aesthetics and identifying rules for distinguishing the literary from the non-literary, or whether we align ourselves with more contemporary theories, which recognize texts as distinguishable in their inter-relationships and marked difference, screenplays constitute a rich cache of works worthy of critical examination. Film scholars as well as students of film, creative writing, and literary studies will appreciate this singular volume.

**The Cinema of Ang Lee** - Whitney Crothers Dilley 2014-12-23

Born in Taiwan, Ang Lee is one of cinema's most versatile and daring directors. His ability to cut across cultural, national, and sexual boundaries has given him recognition in all corners of the world, the ability to work with complete artistic freedom whether inside or outside of Hollywood, and two Academy Awards for Best Director. He has won astounding critical acclaim for *Crouching Tiger, Hidden Dragon* (2000), which transformed the status of martial arts films across the globe, *Brokeback Mountain* (2005), which challenged the reception and presentation of homosexuality in mainstream cinema, and *Life of Pi* (2012), Lee's first use of groundbreaking 3D technology and his first foray into complex spiritual themes. In this volume, the only full-length study of Lee's work, Whitney Crothers Dilley analyzes all of his career to date: Lee's early Chinese trilogy films (including *The Wedding Banquet*, 1993, and *Eat Drink Man Woman*, 1994), period drama (*Sense and Sensibility*, 1995), martial arts (*Crouching Tiger, Hidden Dragon*, 2000), blockbusters (*Hulk*, 2003), and intimate portraits of wartime psychology, from the Confederate side of the Civil War (*Ride with the Devil*, 1999) to Japanese-occupied Shanghai (*Lust/Caution*, 2007). Dilley examines Lee's favored themes such as father/son relationships and intergenerational conflict in *The Ice Storm* (1997) and *Taking Woodstock* (2009). By looking at the beginnings of Lee's career, Dilley positions the filmmaker's work within the roots of the Taiwan New Cinema movement, as well as the larger context of world cinema. Using suggestive readings of

both gender and identity, this new study not only provides a valuable academic resource but also an enjoyable read that uncovers the enormous appeal of this acclaimed director.

**Changing Direction: A Practical Approach to Directing Actors in Film and Theatre** - Lenore DeKoven 2006-02-07

This approach, honed after years of on-set experience and from teaching at UCLA, NYU, and Columbia, and endorsed by many in the industry, including director Ang Lee (*Brokeback Mountain* and *Crouching Tiger, Hidden Dragon*) and producer/actor Edward Asner, aims to provide a helpful reference and resource for directors and actors alike. It combines underlying theory with dozens of exercises designed to reveal the actor's craft. There is material on constructing the throughline; analyzing the script; character needs; the casting and rehearsal processes; film vs. theater procedures as well as the actor and the camera. Distilling difficult concepts and a complex task to their simplest form, the author explains how to accurately capture and portray human behavior. The author's discussion of creative problems she has encountered or anticipated after years of experience, and her suggested solutions and exercises, are immediately useful. Additionally, hear what the actors have to say in excerpts from interviews with such acclaimed actors as Meryl Streep, Denzel Washington, Glenn Close, Robert Redford, Christopher Walken, Julianne Moore, and Michael Douglas (to name a few) who discuss their work with directors, what inspires them, and what they really want from the director.

**21 Grams** - Guillermo Arriaga Jordán 2003

The new screenplay from the author of the hugely acclaimed Amores Perros is another masterpiece: structurally complex and profound. Cristina (Naomi Watts) is a recovered drug addict, happily married to an architect, with two beautiful children. Paul (Sean Penn)

is a mathematician with a critical heart ailment, trapped in a spent relationship. Jack (Benicio Del Toro) is an ex-convict desperately trying to keep himself pure. Three souls in isolation from one another, until a terrible incident enmeshes them together. . . .The title of *21 Grams* alludes to a mysterious loss of weight in the human body at time of death. Guillermo Arriaga's bold and brilliant screenplay (filmed by Amores Perros director Alejandro Gonzalez Inarritu) moves freely through time, before and after the fatal moment when these three lives collided. The screenplay is accompanied by exclusive interviews with the film-makers about the making of *21 Grams*.

**The Rules of Screenwriting and Why You Should Break Them** - Bill Mesce, Jr. 2017-05-23

A couple of generations ago, the movie industry ran on gut instinct--film schools, audience research departments and seminars on screenwriting were not yet de rigueur. Today the standard is the analytical approach, intended to demystify filmmaking and guarantee success (or at least minimize failure). The trouble with this method is that nobody knows how to do it--they just think they do--and films are made based on models of predictability rather than the merits of the script. This insider's look at the craft and business of screenwriting explodes some of the popular myths, demonstrating how little relevance the rules have to actual filmmaking. With long experience in film and television, the author provides insightful how-not-to analyses, with commentary by such veterans as Josh Sapan (CEO of AMC Networks), bestselling author Adriana Trigiani and Oscar-nominated screenwriter Nicholas Pileggi (*Goodfellas*).

Screenwriting Updated - Linda Aronson 2001

Today's screenwriter must be adept at today's popular yet often complex and unconventional script forms, such as the parallel storytelling of '*Pulp Fiction*' and '*Magnolia*', the multiple protagonist narrative of '*American Beauty*', and the complex flashback forms of '*The Usual Suspects*' and '*The Sweet Hereafter*'. Becoming comfortable with and skilled in such modern script forms is the focus of this text which identifies basic parallel structures, clearly explains how and why they work (or fail to work), and establishes the basic principles of their construction. These modern forms are presented in tandem with and in relation to tried-and-true, traditional screenwriting forms, rendering unconventional structures as easily grasped as conventional ones. Unlike any other screenwriting book, this book combines solid, basic screenwriting craft with a thorough presentation of very contemporary script structures. The result is a unique, wide-ranging, in-depth screenwriting text and do-it-yourself script-doctoring manual suitable for both seasoned and novice writers.
