Categories (Κατηγορίαι) - Aristotle
2022-09-15

The "Categories" is an ancient sub-text from Greek philosopher Aristotle's text 'Organon' that enumerates all the possible kinds of things that can be the subject or the predicate of a proposition. The work is brief enough to be divided, not into books as is usual with Aristotle's works, but into fifteen chapters. The Categories places every object of human apprehension under one of ten categories. Aristotle intended them to enumerate everything that can be expressed without composition or structure, thus

anything that can be either the subject or the predicate of a proposition. They are "perhaps the single most heavily discussed of all Aristotelian notions".

Muslim Environmentalisms - Anna M. Gade 2019-08-20

How might understandings of environmentalism and the environmental humanities shift by incorporating Islamic perspectives? In this book, Anna M. Gade explores the religious and cultural foundations of Islamic environmentalisms. She blends textual and ethnographic study to offer a comprehensive and interdisciplinary account of the legal, ethical, social, and empirical principles underlying Muslim commitments to the earth. *Muslim Environmentalisms* shows how diverse Muslim communities and

schools of thought have addressed ecological questions for the sake of this world and the world to come. Gade draws on a rich spectrum of materials—scripture, jurisprudence, science, art, and social and political engagement—as well as fieldwork in Indonesia and Southeast Asia. The book brings together case studies in disaster management, educational programs, international development, conservation projects, religious ritual and performance, and Islamic law to rethink key theories. Gade shows that the Islamic tradition leads us to see the environment as an ethical idea, moving beyond the established frameworks of both nature and crisis. Muslim Environmentalisms models novel approaches to the study of religion and environment from a humanistic perspective,

reinterpreting issues at the intersection of numerous academic disciplines to propose a postcolonial and global understanding of environment in terms of consequential relations.

The Life of Muhammad - Muhammad Husayn Haykal 1976

In THE LIFE OF MUHAMMAD, Haykal achieves two objectives admirably: first, a biography which reveals the career of Prophet Muhammad (peace be upon him) in the full light of historic reality; second, bringing out the essence of Islam, as exemplified in the life of the greatest Muslim. It includes complete coverage of the Prophet's life, a detailed analysis of pre-Islamic Arabia, the situational context of revelation, and a comparative study of the basics of Islamic and western

civilizations. It is based upon a scholarly examination of all of the extant Sirah and Hadith literature (the Prophet's life, his sayings and narrations of his teachings by his contemporaries) with the eye of an objective, scientific and critical scholar who is well-versed in modern historical critical methodology. THE LIFE OF MUHAMMAD is an essential book for all English-speaking Muslims, as well as non-Muslims. This English version has been approved by the Supreme Council for Islamic Affairs, Cairo.

In the Footsteps of the Prophet -

Tariq Ramadan 2007-02-05

Named by Time magazine as one of the 100 most important innovators of the century, Tariq Ramadan is a leading Muslim scholar, with a large following especially among young European and American Muslims. Now, in his first book written for a wide audience, he offers a marvelous biography of the Prophet Muhammad, one that highlights the spiritual and ethical teachings of one of the most influential figures in human history. *In the Footsteps of the Prophet* is a fresh and perceptive look at Muhammad, capturing a life that was often eventful, gripping, and highly

charged. Ramadan provides both an intimate portrait of a man who was shy, kind, but determined, as well as a dramatic chronicle of a leader who launched a great religion and inspired a vast empire. More important, Ramadan presents the main events of the Prophet's life in a way that highlights his spiritual and ethical teachings. The book underscores the significance of the Prophet's example for some of today's most controversial issues, such as the treatment of the poor, the role of women, Islamic criminal punishments, war, racism, and relations with other religions. Selecting those facts and stories from which we can draw a profound and vivid spiritual picture, the author asks how can the Prophet's life remain -- or become again -- an

example, a model, and an inspiration? And how can Muslims move from formalism -- a fixation on ritual -- toward a committed spiritual and social presence? In this thoughtful and engaging biography, Ramadan offers Muslims a new understanding of Muhammad's life and he introduces non-Muslims not just to the story of the Prophet, but to the spiritual and ethical riches of Islam.

The Reconstruction of Religious Thought in Islam - Mohammad Iqbal
2013-05-22

The Reconstruction of Religious Thought in Islam (1930) is Muhammad Iqbal's major philosophic work: a series of profound reflections on the perennial conflict among science, religion, and philosophy, culminating in new visions of the unity of human knowledge, of the human spirit, and of God. Iqbal's thought contributed significantly to the establishment of

Pakistan, to the religious and political ideals of the Iranian Revolution, and to the survival of Muslim identity in parts of the former USSR. It now serves as new bridge between East and West and between Islam and the other Religions of the Book. With a new Introduction by Javed Majeed, this edition of *The Reconstruction* opens the teachings of Iqbal to the modern, Western reader. It will be essential reading for all those interested in Islamic intellectual history, the renewal of Islam in the modern world, and political theory of Islam's relationship to the West.

Averroes' Tahāfut al-Tahāfut - 1954

Al Mustasfa Min Ilm Al Usul -
Mohammad Al Ghazali 2018-01-23
Al-Mustasfa min 'ilm al-usul. (On

Legal theory of Muslim Jurisprudence) is Imam Ghazali's work on the subject of Usul Al Fiqh. It is considered as one of the four great works in the subject. The other three being, 1. The mu`tazalite `Abd al-Jabar (d. 415) al-Qadi's al-`umad; 2. abu al-Husain (d. 473) al-Basri's al-mu`tamad(commentary on al-`umad); 3. al-Imam al-Harmian abu al-Ma`ali (d. 478) Juywani's al-Burhan Ghazali's approach to usul al-fiqh, as articulated in this last and greatest work of Law, al-Mustafa, is based on the premise that, in essence, this science is knowledge of how to extract ahkam (rules) from the Shari'ah sources. (As for the science of fiqh, it concerns itself particularly with the Shari'ah rules themselves which have been established in order to qualify the

acts of the locus of obligation, man.) Accordingly, Ghazali views it as imperative that any discourse on usul focus on three essential elements: the ahkam; the adilla (sources); and the means by which rules are extracted from these sources, which ultimately includes examination of the qualifications of the extractor, namely, the mujtahid. The Venture of Islam, Volume 1 - Marshall G. S. Hodgson 2009-05-15 The Venture of Islam has been honored as a magisterial work of the mind since its publication in early 1975. In this three-volume study, illustrated with charts and maps, Hodgson traces and interprets the historical development of Islamic civilization from before the birth of Muhammad to the middle of the twentieth century. This work grew out

of the famous course on Islamic civilization that Hodgson created and taught for many years at the University of Chicago. "This is a nonpareil work, not only because of its command of its subject but also because it demonstrates how, ideally, history should be written."—The New Yorker Volume 1, The Classical Age of Islam, analyzes the world before Islam, Muhammad's challenge, and the early Muslim state between 625 and 692. Hodgson then discusses the classical civilization of the High Caliphate. The volume also contains a general introduction to the complete work and a foreword by Reuben Smith, who, as Hodgson's colleague and friend, finished the Venture of Islam after the author's death and saw it through to publication.

A RESEARCH PROJECT & A DOCUMENTARY BOOK ON SCIENCE & WORLD RELIGIONS & COMPARATIVE INTERFAITH DISCUSSIONS (The Qur'an & Modern Science: Compatible or Incompatible?) Ever since the dawn of human life on this planet, Man has always sought to understand Nature, his own place in the scheme of Creation and the purpose of Life itself. In this quest for Truth, spanning many centuries and diverse civilizations, organized religion has shaped human life and determined to a large extent, the course of history. While some religions have been based on books, claimed by their adherents

to be divinely inspired, others have relied solely on human experience. Al-Qur''an, the main source of the Islamic faith, is a book believed by Muslims, to be of completely Divine origin. Muslims also believe that it contains Divine guidance for all humankind. Since the message of the Qur''an is believed to be for all times, it should be relevant to every age. Does the Qur''an pass this test? In this booklet, I intend to give an objective analysis of the Muslim belief regarding the Divine origin of the Qur''an, in the light of established scientific discoveries. There was a time, in the history of world civilization, when ''miracles'', or what was perceived to be a miracle, took precedence over human reason and logic. But how do we define the term ''miracle''? A

miracle is anything that takes place out of the normal course of life and for which humankind has no explanation. However, we must be careful before we accept something as a miracle. An article in `The Times of India'', Mumbai, in 1993 reported that ''a saint'' by the name ''Baba Pilot'' claimed to have stayed continuously submerged under water in a tank for three consecutive days and nights. However, when reporters wanted to examine the base of the tank of water where he claimed to have performed this ''miraculous'' feat, he refused to let them do so. He argued by asking as to how one could examine the womb of a mother that gives birth to a child. The `Baba'' was hiding something. It as a gimmick simply to gain publicity.(THE TRUTH ABOUT MUHAMMAD AND JESUS)Top 10

Kudeta Mekkah - Yaroslav Trofimov
2008-12-01

Pada 20 November 1979, sebuah peristiwa besar terjadi di Kota Suci Mekkah. Sekelompok orang bersenjata pimpinan Juhaiman al-Utaibi, seorang Islamis radikal, menguasai Masjid al-Haram. Mereka memprotes kebobrokan Pemerintah Arab Saudi dan aliansinya dengan Barat. Gejolak politik di tanah suci meledak. Lalu, baku tembak antara pengikut Juhaiman dengan tentara Arab Saudi pun tak terelakkan. Mulanya, tentara Saudi dibuat keteteran oleh perlawanan Juhaiman dan pengikutnya. Tetapi akhirnya, dengan bantuan beberapa pimpinan militer Prancis, tentara Saudi berhasil melumpuhkan

"pemberontakan" kelompok Islam radikal tersebut. Sebagai hukumannya, Juhaيمان dan pengikutnya yang tertangkap hidup-hidup kemudian dipenggal kepalanya--eksekusi penggal kepala ini dilaksanakan di beberapa kota di Saudi sebagai peringatan bagi siapa pun yang berusaha makar terhadap pemerintah. Merujuk fatwa para ulama berpengaruh, Pemerintah Saudi mendakwa mereka melakukan tindakan sesat: mendeklarasikan munculnya Imam Mahdi--yang tewas dalam pertempuran itu--sebagai penyelamat dunia; serta menguasai dan menjadikan Masjid al-Haram, tempat tersuci umat Muslim, sebagai medan pertempuran dan kekerasan, yang sangat jelas dilarang oleh agama. Peristiwa itu menjadi bagian penting dari sejarah modern Kota Mekkah. Meski demikian, kebanyakan orang,

terutama kaum Muslim, tak paham apa yang sejatinya terjadi saat itu. Maklum, ketika peristiwa itu berlangsung, Pemerintah Saudi melarang keras media massa meliput dan memberitakannya. Tak hanya itu, jaringan telepon, telegram, dan surat-menyurat pun diputus. Alhasil, tak ada celah bagi siapa pun untuk dapat mengakses peristiwa itu dari luar tempat kejadian. Pada tahun 2006, dua puluh tahun kemudian, Yaroslav Trofimov berusaha menyusun kembali serpihan sejarah atas kejadian itu. Untuk menyibak detail peristiwa yang tak terkuak khalayak itu, Trofimov memburu sumber-sumber penting dan tepercaya, antara lain: pelaku 'gerakan 1979' yang masih hidup; Paul Barril, kepala misi pasukan Prancis saat itu; tentara Arab Saudi; Perpustakaan British,

satu-satunya tempat di Eropa yang menyimpan pelbagai surat kabar Saudi tahun 1979; arsip Pemerintah AS dan Inggris yang berisi laporan rahasia dari para diplomat dan mata-mata; serta CIA dan British Foreign Office. Para pengamat politik dan sejarawan menganggap kejadian itu sebagai insiden lokal semata dan karena itu tak bersangkut-paut dengan peristiwa internasional yang belakangan merebak: terorisme. Tetapi penulis buku ini, Yaroslav Trofimov, berpendapat sebaliknya. Menurutnya, peristiwa itu merupakan akar sejarah gerakan terorisme global, terutama yang dimotori al-Qaeda. Siapa dan di mana Osama Bin Laden kala itu, sehingga petinggi al-Qaeda ini dihubung-kaitkan dengan peristiwa tersebut? Padahal ketika peristiwa itu terjadi, keluarga besar Bin Laden

termasuk dalam barisan Pemerintah Kerajaan Arab Saudi yang mendukung penumpasan gerakan 1979.

The New World of Islam - Lothrop Stoddard 2022-09-15

The entire world of Islam is today in profound ferment. From Morocco to China and from Turkestan to the Congo, the 250,000,000 followers of the Prophet Mohammed are stirring to new ideas, new impulses, new aspirations. The story of that strange and dramatic evolution the

author has endeavored to tell in the following pages. Considering in turn its various aspects—religious, cultural, political, economic, social—the author has tried to portray their genesis and development, to analyze their character, and to appraise their potency. While making due allowance for local differentiations, the intimate correlation and underlying unity of the various movements have ever been kept in view. Although the book deals primarily with the Muslim world, it necessarily includes the non-Muslim Hindu elements of India. The field covered is thus virtually the entire Near and Middle East. The Far East has not been directly considered, but parallel developments there have been noted and should always be kept in mind.
