A Modest Proposal, is a Juvenalian satirical essay written and published anonymously by Jonathan Swift in 1729. Swift suggests that the impoverished Irish might ease their economic troubles by selling their children as food for rich gentlemen and ladies. This satirical hyperbole mocks heartless attitudes towards the poor, as well as Irish policy in general. In English writing, the phrase "a modest proposal" is now conventionally an allusion to this style of straight-faced satire. Swift goes to great lengths to support his argument, including a list of possible preparation styles for the children, and calculations showing the financial benefits of his suggestion. He uses methods of argument throughout his essay which lampoon the then-influential William Petty and the social engineering popular among followers of Francis Bacon. These lampoons include appealing to the authority of "a very knowing American of my acquaintance in London" and "the famous Psalmanazar, a native of the island Formosa" (who had already confessed to not being from Formosa in 1706). This essay is widely held to be one of the greatest examples of sustained irony in the history of the English language. Much of its shock value derives from the fact that the first portion of the essay describes the plight of starving beggars in Ireland, so that the reader is unprepared for the surprise of Swift's solution when he states, "A young healthy child well nursed, is, at a year old, a most delicious nourishing and wholesome food, whether stewed, roasted, baked, or boiled; and I make no doubt that it will equally serve in a fricassee, or a ragout." Readers unacquainted with its reputation as a satirical work often do not immediately realize that Swift was not seriously proposing cannibalism and infanticide, nor would readers unfamiliar with the satires of Horace and Juvenal recognize that Swift's essay follows the rules and structure of Latin satires.

*A Modest Proposal in the Context of Swift's Irish Tracts* - Maria-Angeles Ruiz Moneva 2020-06-12

Swift's *A Modest Proposal* has always aroused the interest not just of literary critics, but also of linguists and pragmatists. Within the latter approaches, the study of irony, and more concretely, the intentions and attitudes that must have guided the production of such an intricate work, have always been paramount. However, it seems that within pragmatics the analysis has been restricted so far to the 1729 work itself. In the present author's view, it is interesting to contextualise this masterpiece of irony and satire within Swift's wider writing on Ireland, an approach that remains to be carried out. Accordingly, this work sets out to analyse a selection of Swift's Irish Tracts, with a view to tracing the evolution within Swift's literary production of his views and attitudes towards the situation of his homeland. Although different pragmatic approaches are applied, the emphasis is laid upon the contributions that the relevance-theoretical framework and its studies on irony may bring to the understanding of this particular Tract. The works selected are meant to cover and also be representative of the main phases currently distinguished within Swift's writing on the "Irish Question". It is therefore hoped that a deeper analysis of the former works by

Swift on this topic will provide new insights for a better understanding of A Modest Proposal.

The

essay suggests that the impoverished Irish might ease their economic troubles by selling their children as food for rich gentlemen and ladies. This satirical hyperbole mocked heartless attitudes towards the poor, as well as British policy toward the Irish in general.Drapier's Letters is the collective name for a series of seven pamphlets written between 1724 and 1725 by the Dean of St Patrick's Cathedral in Dublin, Jonathan Swift, to arouse public opinion in Ireland against the imposition of a privately minted copper coinage that Swift believed to be of inferior quality.

William Wood was granted letters patent to mint the coin, and Swift saw the licensing of the patent as corrupt. In response, Swift represented Ireland as constitutionally and financially independent of Britain in the Drapier's Letters. Since the subject was politically sensitive, Swift wrote under the pseudonym M. B., Drapier, to hide from retaliation.Although the letters were condemned by the Irish government, with prompting from the British government, they were still able to inspire popular sentiment against Wood and his patent. The popular sentiment turned into a nationwide boycott, which forced the patent to be withdrawn; Swift was later honoured for this service to the people of Ireland. Many Irish people recognised Swift as a hero for his defiance of British control over the Irish nation. Beyond being a hero, many critics have seen Swift, through the persona of the Drapier, as the first to organise a "more universal Irish community," although it is disputed as to who constitutes that community. Regardless of to whom Swift is actually appealing what he may or may not have done, the nickname provided by Archbishop King, "Our Irish Copper-Farthen Dean," and his connection to ending the controversy stuck.Sir Leslie Stephen, KCB, FBA (28 November 1832 - 22 February 1904) was an English author, critic, historian, biographer, and mountaineer, and father of Virginia Woolf and Vanessa Bell.

**A Modest Proposal and Other Satires** - Jonathan Swift 2019-02-06

Brought together here in this volume is a classic collection of satirical works from Jonathan Swift, perhaps one of the greatest satirist in the English language. While Swift is probably best known for his novel "Gulliver's Travels," he was a brilliant satirist with a cutting wit and mastery of language. His skills with the pen, which made him both famous and feared by the powerful, can be seen in "A Modest Proposal." Swift's famous essay, originally published anonymously in 1729, suggests that the poor in Ireland could best solve their problems by selling their children as food to the rich. Swift's outrageous hyperbole was used as powerful social commentary and was directed at the rich and powerful and their heartless treatment of the poor and destitute. Also included in this collection is "A Tale of the Tub," a prose parody of the moral and ethical aspects of the English religious and political life of Swift's time, which was widely misunderstood and consequently damaging to his reputation. "A Modest Proposal and Other Satires" is a collection of nine essays in total which provide a representative selection of Swift's satirical gift. This edition in printed on premium acid-free paper.

Swift is assumably the greatest prose satirist in the English language and is less well known for his poetry. Swift points out that disadvantaged Irish might ease their economic problems by selling their children as food for rich gentlemen and ladies. This overstatement satirizes heartless attitudes towards the poor, as well as Irish policy in general. This essay is greatly held to be one of the most remarkable examples of sustained irony in the history of the English language. **Jonathan Swift: A Modest Proposal (English Edition)** - Jonathan Swift 2018-11-27

"It is a melancholy object to those, who walk through this great town, or travel in the country, when they see the streets, the roads and cabin-doors crowded with beggars of the female sex, followed by three, four, or six children, all in rags, and importuning every passenger for an alms. These mothers instead of being able to work for their honest livelihood, are forced to employ all their time in stroling to beg sustenance for their helpless infants who, as they grow up, either turn thieves for want of work, or leave their dear native country, to fight for the Pretender in Spain, or sell themselves to the Barbadoes. I think it is agreed by all parties, that this prodigious number of children in the arms, or on the backs, or at the heels of their mothers, and frequently of their fathers, is in the present deplorable state of the kingdom, a very great additional grievance; and therefore whoever could find out a fair, cheap and easy method of making these children sound and useful members of the common-wealth, would deserve so well of the publick, as to have his statue set up for a preserver of the nation."
