**Politics: A Very Short Introduction** - Kenneth Minogue 2000-02-24

In this provocative but balanced essay, Kenneth Minogue discusses the development of politics from the ancient world to the twentieth century. He prompts us to consider why political systems evolve, how politics offers both power and order in our society, whether democracy is always a good thing, and what future politics may have in the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**Studies in World History Volume 2 (Teacher Guide)** - James P. Stobaugh 2014-03-18

Teacher guides include insights, helps, and weekly exams, as well as answer keys to easily grade course materials! Help make your educational program better - use a convenient teacher guide to have tests, answer keys, and concepts! An essential addition for your coursework - team your student book with his convenient teacher guide filled with testing materials, chapter helps, and essential ways to extend the learning program.

Louis XIV and the Parlements - John J. Hurt 2004-09-04

This is the first scholarly study of the political and economic relationship between Louis XIV and the parlements of France, the Parlement of Paris and all the provincial tribunals. The author explains how the king managed to impose strict political discipline for which this reign, and only this reign, is known. Hurt shows that the king built upon that discipline to extract large sums of money from the judges in the parlements, thus damaging their economic interests. When the king died in 1715, the regent, Philippe d'Orléans, after a brief attempt to befriend the parlements through compromise, resorted to the authoritarian methods of Louis XIV and perpetuated the Sun King's political and economic legacy. This study calls into question current revisionist understanding of Louis XIV and insists that absolute government had a harsh reality at its core. Based upon extensive archival research, this remarkable book will be of interest to all students of the history of early modern France and the monarchies of Europe.

**On Tyranny Graphic Edition** - Timothy Snyder 2021-10-05

NEW YORK TIMES BESTSELLER • A graphic edition of historian Timothy Snyder's lessons for surviving and resisting America's arc toward authoritarianism, featuring the visual storytelling talents of renowned illustrator Nora Krug "Nora Krug has visualized and rendered some of the most valuable lessons of the twentieth century, which will serve all citizens as we shape the future."—Shepard Fairey, artist and activist Timothy Snyder's New York Times bestseller *On Tyranny* uses the darkest moments in twentieth-century history, from Nazism to Communism, to teach twenty lessons on resisting modern-day authoritarianism. Among the twenty include a warning to be aware of how symbols used today could affect tomorrow ("4: Take responsibility for the face of the world"), an urgent reminder to research everything for yourself and to the fullest extent ("11: Investigate"), a point to use personalized and individualized speech rather than clichéd phrases for the sake of mass appeal ("9: Be kind to our language"), and more. In this graphic edition, Nora Krug draws from her highly inventive art style in *Belonging*—at once a graphic memoir, collage-style scrapbook, historical narrative, and trove of memories—to breathe new life, color, and power into Snyder's riveting historical references, turning a quick-read pocket guide of lessons into a visually striking rumination. In a time of great uncertainty and instability, this edition of *On Tyranny* emphasizes the importance of being active, conscious, and deliberate participants in resistance.

The History of Law in Europe - Bart Wauters 2017-04-28

Comprehensive and accessible, this book offers a concise synthesis of the evolution of the law in Western Europe, from ancient Rome to the beginning of the twentieth century. It situates law in the wider framework of Europe's political, economic, social and cultural developments.

**Absolute Monarchs** - John Julius Norwich 2012-05-15

NEW YORK TIMES BESTSELLER In a chronicle that captures nearly two thousand years of inspiration and intrigue, John Julius Norwich recounts in riveting detail the histories of the most significant popes and what they meant politically, culturally, and socially to Rome and to the world. Norwich presents such popes as Innocent I, who in the fifth century successfully negotiated with Alaric the Goth, an invader civil authorities could not defeat; Leo I, who two decades later tamed (and perhaps paid off) Attila the Hun; the infamous "pornocracy"—the five

libertines who were descendants or lovers of Marozia, debauched daughter of one of Rome's most powerful families; Pope Paul III, "the greatest pontiff of the sixteenth century," who reinterpreted the Church's teaching and discipline; John XXIII, who in five short years starting in 1958 instituted reforms that led to Vatican II; and Benedict XVI, who is coping with today's global priest sex scandal. Epic and compelling, *Absolute Monarchs* is an enthralling history from "an enchanting and satisfying raconteur" (The Washington Post).

**DK Eyewitness Travel Guide: Cruise Guide to Europe and the Mediterranean** - 2011-05-02

Anchor away! Capture the essence of cruising through the beautiful Mediterranean with DK's multi-country guide to Europe's most spectacular cruising destinations. Countries discussed include: Croatia, Denmark, Estonia & Latvia, Finland, France, Germany, Great Britain, Greece & Cyprus, Ireland, Israel, Italy, Lebanon, Malta, Netherlands, North Africa, Norway, Poland, Portugal, Russia, Spain, Sweden, Syria, and Turkey.

**Медный всадник** - Александр Сергеевич Пушкин 1991

No Marketing Blurb

[Patriarchal Moments](#) - Cesare Cuttica 2015-12-17

This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). Patriarchalism is omnipresent in Western culture and it pervades the texts that have shaped this culture. From the creation story in the Bible to the ancient authors, from the Church fathers to the treatises of Enlightenment philosophers, right up to modern fiction, male authority over women, children and other dependents has shaped the nature of human relationships and the discourses about these relationships. This collection of short essays offers fresh and novel readings of key texts in the history of patriarchy as a concept of power. The texts selected are from political, religious and literary works and together the readings add new insights to a tradition that has never gone uncontested, yet is unlikely to disappear soon.

[The Origins of French Absolutism, 1598-1661](#) - Alan James 2014-01-14

This controversial study takes the provocative line that the French monarchy was a complete success. James turns the idea of royal 'absolutism' on its head by redefining the French monarchy's success from 1598 - 1661. *The Origins of French Absolutism, 1598-1661* maintains that building blocks were not being laid by the so-called architects of absolutism, but that by satisfying long-established, traditional ambitions, cardinal ministers Richelieu and Mazarin undoubtedly made the confident, ambitious reign of the late century possible.

[On Tyranny](#) - Timothy Snyder 2017-02-28

#1 NEW YORK TIMES BESTSELLER • A “bracing” (Vox) guide for surviving and resisting America’s turn towards authoritarianism, from “a rising public intellectual unafraid to make bold connections between past and present” (The New York Times) “Timothy Snyder reasons with unparalleled clarity, throwing the past and future into sharp relief. He has written the rare kind of book that can be read in one sitting but will keep you coming back to help regain your bearings.”—Masha Gessen The Founding Fathers tried to protect us from the threat they knew, the tyranny that overcame ancient democracy. Today, our political order faces new threats, not unlike the totalitarianism of the twentieth century. We are no wiser than the Europeans who saw democracy yield to fascism, Nazism, or communism. Our one advantage is that we might learn from their experience. On Tyranny is a call to arms and a guide to resistance, with invaluable ideas for how we can preserve our freedoms in the uncertain years to come.

Cruise Guide to Europe and the Mediterranean - DK Publishing 2007

Three-dimensional cutaway illustrations and floor plans of key landmarks complement these richly illustrated, fully updated travel handbooks that also include enhanced maps, street-by-street guides, background information on a host of popular sights, and an expanded traveler's survival guide providing tips on hotels, restaurants, local customs, transportation, medical services, museums, entertainment, and more.

Mystifying the Monarch - Jeroen Deploige 2006

The power of monarchs has traditionally been as much symbolic as actual, rooted in popular imagery of sovereignty, divinity, and authority. In *Mystifying the Monarch*, a distinguished group of contributors explores the changing nature of that imagery—and its political and social effects—in Europe from the Middle Ages to the present day. They demonstrate that, rather than a linear progression where perceptions of rulers moved inexorably from the sacred to the banal, in reality the history of monarchy has been one of constant tension between mystification and demystification.

*The Federalist Papers* - Alexander Hamilton 2018-08-20

Classic Books Library presents this brand new edition of “The Federalist Papers”, a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “The Federalist”, as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation’s finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

*Common Sense* - Thomas Paine 2011-06-01

Addressed to the Inhabitants of America, on the Following Interesting Subjects, viz.: I. Of the Origin and Design of Government in General, with Concise Remarks on the English Constitution. II. Of Monarchy and Hereditary Succession. III. Thoughts on the Present State of American Affairs. IV. Of the Present Ability of America, with some Miscellaneous Reflections

**Events That Formed the Modern World** - Frank W. Thackeray 2012-05-31

This comprehensive five-volume set contains readable essays that describe and interpret the most important global events since the European Renaissance, some accompanied by related document excerpts and primary source materials. What were the effects of the Age of Exploration on today's ethnic groups and social structure? How did the development of moveable type pave the way for Facebook and Twitter? Why is the Reformation so critical for understanding today's religious controversies? This set will help readers answer these questions by exploring the most significant historical events of the modern world. This five-volume set covers times from the Renaissance to the present. Each volume focuses on a specific historic period and examines 12 events within those time frames that changed the world. Each entry provides an introduction that lays out factual material in a chronological manner, an in-depth essay interpreting the event's significance, and an annotated bibliography of the most important current works on the topic. Select entries are followed by primary sources pertaining to the event under consideration, such as diary entries. Targeted to both general readers as well as entry-level university students, this book also directly supports high school and undergraduate curricula, allowing students to identify and contextualize events in order to think critically about their causes, aftermath, and legacy. Entries covering 62 major events that changed the world Contributions from dozens of well-respected scholars from a variety of disciplines An extensive timeline accompanies each volume Appendices for subjects such as States Achieving Independence since 1945 and Ruling Houses and Dynasties An annotated bibliography of many recent works on each subject event
