**How to Do Things with Rules** - William Twining 2010-05-20  
New to English law? Need to know how rules are made, interpreted and applied? This popular and well-established textbook will show you how. It simplifies legal method by combining examples with an account of rules in general: the who, what, why and how of interpretation. Starting with standpoint and context, it identifies factors that give rise to doubts about the interpretation of a rule and recommends a systematic approach to analysing those factors. Questions and exercises integrated in the text and on the accompanying website will help you to develop skills in reading, interpreting and arguing about legal and other rules. The text is fully updated on developments in the legislative process and the judicial interpretation of statutes and precedent. It includes a new chapter on 'The European Dimension' reflecting the changes brought about by the Human Rights Act 1998.

**The Law of Theft** - John Cyril Smith 1977

As in previous editions, The Law of Theft contains the full amended text of the 1968 and 1978 Theft Acts with a detailed analysis of the provisions of the statutes and the extensive case law which has grown up around them. Important new material includes the House of Lords decision in *R v Preddy* (1996) 3 All ER 481 and the Theft (Amendment) Act 1996 which rapidly followed, primarily to fill the serious lacunae in the law created by Preddy. These developments, along with such important decisions as those in *Mazo* (1996) Crim LR 435 and *Hopkins and Kendrick* (1997) Crim LR 359, which suggest some limitations on the far-reaching *Gomez* case, have been fully incorporated to give an accurate and fully

argued statement of the law of theft as at 1 May 1997.

Issues in Prisons - Justin Healey 2017-07

Australian imprisonment rates have increased annually for five consecutive years. Why are prison numbers rising, and what are the alternatives to imprisonment? This book examines imprisonment rates and criminal justice reform options. How do the four current prison system justifications - retribution, deterrence, incapacitation and rehabilitation - stack up? Is the incarceration of offenders deterring them from re-offending and reducing crime rates? What are the human and financial costs of imprisonment, especially for detained young people and Indigenous Australians? How can we work towards more effective rehabilitation, crime reduction and justice

well at school? Focusing on Southeast London, this book provides insight into class values and reveals the complex cultural politics of white working class pride.

**Human Rights Law** - Howard Davis 2007

Covers all the core areas of human rights law, combining an engaging approach with helpful learning features and plenty of headings to make this an ideal text for those new to the subject. Summaries, definitions, discussion topics and further reading references are integrated throughout the text and presented in a fresh colour design to illuminate legal complexities and highlight essential concepts. Reflective questions are included at the end of each chapter, with suggested key issues for consideration provided on the book's accompanying website. These encourage students to reinforce their learning and foster best practice in developing a reasoned and structured approach to problem solving. An accompanying website provides updates on case law and legislative developments as well as an interactive test bank of multiple choice questions to help students consolidate their knowledge. Fresh two-colour text design makes the book easy to navigate and highlights cross references and learning features. Human Rights Law is written in an engaging and lively manner with an emphasis on explaining the key topics covered on human rights law courses with clarity. No previous knowledge of the subject is assumed but the book provides a thorough introduction to the Human Rights Act 1998 and the way in which the Act gives effect to the European Convention on Human Rights. It looks at the main terms and implications of the convention rights themselves, highlighting some of the more complex and controversial issues of the subject.

**Victims and Restorative Justice** - Inge Vanfraechem

2015-05-15

Restorative justice aims to address the consequences of crime by encouraging victims and offenders to communicate and discuss the harm caused by the crime that has been committed. In the majority of cases, restorative justice is facilitated by direct and indirect dialogue between victims and offenders, but it also includes support networks and sometimes involves professionals such as police, lawyers, social workers or prosecutors and judges. In theory, the victim is a core participant in restorative justice and the restoration of the harm is a first concern. In practice, questions arise as to whether the victim is actively involved in the process, what restoration may entail, whether there is a risk of secondary victimisation and whether the victim is truly at the heart of the restorative response, or whether the offender remains the focal point of attention. Using a combination of victimological literature and empirical data from a European research project, this book considers the role and the position of the victim in restorative justice practices, focusing on legislative, organisational and institutional frameworks of victim-offender mediation and conferencing programmes at a national and local level, as well as the victims' personal needs and experiences. The findings are essential reading for academics and students engaged in the study of justice, victimology and law. The publication will also be valuable to policymakers and professionals such as social workers, lawyers and mediators.

*Principles of Singapore Business Law* -  
"The Principles of Singapore Business Law, first published in 2009, was followed by a second edition in 2013. This third edition provides a timely update of the legal changes that have taken place since then, stating the law as on 4th May 2019. In keeping with the aims of this publication since the first edition, the volume sets out the law of relevance to business, with the lay reader in mind, while providing glimpses into some complex and unsettled areas of law that are of practical interest. In this vein, layman's language is adopted and pedagogical features are used to summarise, illustrate and provide mind-maps of basic concepts. Unsettled areas are separately highlighted in reflection boxes to provoke further thinking. This volume features some chapters that have been completely or extensively rewritten and others streamlined in both language and

content to ensure greaeter accessibility to the lay reader." -- Back cover.
