El Francés (Superpack) - Francisco Javier Antón Martínez 2012-07-01
El Francés es una de las grandes lenguas del mundo, rivaliza con el inglés como lengua para la diplomacia internacional. Con todo lo dicho, es la lengua materna de cerca de 75 millones de personas y de unos cuantos

ms que la tienen como segunda lengua. Cuando Dios cre la lengua francesa, primero cre la regla y después la excepción para incitar la tentación, así describe la propia lengua un célebre lingüista francés. En efecto, a pesar de que el francés tenga fama de estar lleno de excepciones, no dramatisemos, aprenderlo no es tan difícil como parece. El francés, sin menospreciar la gramática, se especializa en la lengua hablada e ignora deliberadamente algunos aspectos demasiado sofisticados. Propone una inmersión en el lenguaje cotidiano, utilizando expresiones coloquiales tales que satisfagan las exigencias de los aventureros que se encuentran por primera vez ante esta bella lengua.

Hacking Chinese - Olle Linge 2016-03-26

Learning Chinese can be frustrating and difficult, partly because it's very different from European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How do I learn successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning, researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: "The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study." - Geoff van der Meer, VP engineering
"This publication is like a bible for anyone serious about Chinese

proficiency. It's easy for anyone to read and written with scientific precision." - Zachary Danz, foreign teacher, children's theatre artist
About me I started learning Chinese when I was 23 (that's more than eight years ago now) and have since studied in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things. I have also successfully used my Chinese in a graduate program for teaching Chinese as a second language, taught entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin.

Con un ritmo di studio costante di solo 30 minuti al giorno, attraverso dialoghi legati alla vita di tutti i giorni, alle note grammaticali e culturali, agli esercizi con soluzioni e senza mai tralasciare gli aspetti fondamentali di grammatica e di fonetica, lezione dopo lezione, verrà raggiunto un livello di conoscenza intermedio della lingua persiana. Assimil applica un principio semplice ed efficace, che rivoluziona l'apprendimento delle lingue: l'assimilazione intuitiva, il processo naturale che ha permesso a ciascuno di noi di apprendere la propria lingua madre. Nella prima parte dello studio, la fase passiva, la lingua viene assimilata semplicemente leggendo, ascoltando e ripetendo ciascuna lezione. Nella seconda parte inizia la fase attiva, che permette di mettere in pratica le strutture e gli automatismi della lingua già assimilati, continuando nello stesso tempo a progredire. - 86 lezioni - Dialoghi attuali e divertenti con traduzione a
