Mike Stratton, a disbarred attorney, recently released from a federal prison, wakes up in jail in Cardiff-by-the-Sea, California, his boyhood hometown, suffering from amnesia and charged with the rape and murder of Diane Lawson. Her half-naked body was found in his Winnebago, parked at a local campground. Stratton is found next to her; unconscious, and with a head and hand injury—his blood alcohol level off the scale. Stratton’s last memory is arriving unannounced at his Encino home, where he discovered his wife, Shiela, playing house with Gordon Heller—his best friend, former law partner, and a co-participant in the insider-trading scheme that sent Stratton to prison. When C. J. Hagerty, the feisty and eccentric female attorney appointed to defend Stratton, wins a bail hearing, Stratton sets out to discover if he, or someone else, killed Diane Lawson. Her twin sister, Laura, stood to inherit a sizable estate. Her ex-husband, whom she dumped, was still in love with her. And then there is her boss, Martin Kolb, President and CEO of Quella Industries, a high-flying local defense contractor, who Diane threatened with a "whistleblower" lawsuit. Set against the background of colorful San Diego, and filled with surprises, this intelligent, tightly-crafted murder mystery and courtroom drama, will leave readers hanging on until the final plot-twisting denouement.

Diet Cults: The Surprising Fallacy at the Core of Nutrition Fads and a Guide to Healthy Eating for the Rest of Us - Matt Fitzgerald 2014-05-15

From the national bestselling author of Racing Weight, Matt Fitzgerald exposes the irrationality, half-truths, and downright impossibility of a "single right way" to eat, and reveals how to develop rational, healthy eating habits. From "The Four Hour Body," to "Atkins," there are diet cults to match seemingly any mood and personality type. Everywhere we turn, someone is preaching the "One True Way" to eat for maximum health. Paleo Diet advocates tell us that all foods less than 12,000 years old are the enemy. Low-carb gurus demonize carbs, then there are the low-fat prophets. But they agree on one thing: there is only one true way to eat for maximum health. The first clue that that is a fallacy is the sheer variety of diets advocated. Indeed, while all of these competing views claim to be backed by "science," a good look at actual nutritional science itself suggests that it is impossible to identify a single best way to eat. Fitzgerald advocates an agnostic, rational approach to eating habits, based on one's own habits, lifestyle, and genetics/body type. Many professional athletes already practice this "Good Enough" diet, and now we can too and ditch the brainwashing of these diet cults for good.

The Sixth Extinction - d leonard freeston 2011-08-15

Jason Conrad, a man with the wealth of Bill Gates, decides to preserve for posterity the seeds of as many animal and plant species as possible in a vast and remote underground facility, taking the world's legitimate seed banks and "frozen zoos" to a whole new level. Conrad's secret doomsday complex, though, is staffed by a combination of environmental experts and mercenaries who will stop at nothing to achieve

their once-noble ambitions. After a fellow police officer is murdered and his award-winning German shepherd disappears, Montreal Sergeant-Detective Irina Drach and her young partner, Sergeant-Detective Hudson, connect the crime with a seed bank raid in Ardingly, England, and the kidnapping of a Triple Crown Thoroughbred named Zarathustra. Soon it becomes apparent that highly organized, ruthless abduction teams are raiding seed banks around the world, as well as scooping up the finest animal specimens from zoos, nature preserves, and the wild. Despite the global implications and ballooning media interest, however, Irina never forgets that her foremost aim is to solve the murder of a friend and fellow officer.

Purgatory Chasm - Steve Ulfelder 2011-05-10
"Tander Phigg was an asshole, but he was also a Barnburner. Barnburners saved my life. I help them when I can. No exceptions." The job seems simple. Conway Sax, a no-nonsense auto mechanic with a knack for solving difficult problems, has never liked obnoxious blowhard Tander Phigg. But a promise is a promise. Tander's a Barnburner, a member of the unique Alcoholics Anonymous group that rescued Conway, and when a Barnburner has a problem, Conway takes care of it. Besides, all Tander wants is to get back his baby, a vintage Mercedes that's been in a shady auto shop far too long. But Conway soon discovers there's much more to the problem than Tander first let on - especially when Tander turns up dead. Conway was the last person seen with the victim, and on top of that, he has a record, making him the cops' top suspect. He must catch the killer to clear himself, but beyond that, he's a man who honors his promises, even when the guy he made them to is dead. In the tradition of Robert B. Parker and Dennis Lehane, Steve Ulfelder's crackling debut mystery features a gritty, razor-sharp new voice in crime fiction. Conway Sax isn't a hired gun or a wise-cracking urbanite. He's just a mechanic trying to make his way, a blue-collar guy whose ideas about family and loyalty are as deeply held as they are strong. He'll break your heart if you're not careful. Advance Praise for Purgatory Chasm: "Genuine characters and intense action--a serious crime novel with serious edge." - Patrick Lee, New

York Times bestselling author of *The Breach* "Purgatory Chasm grabs you at the gate and doesn't let go, careening through a top-notch whodunit to an ending you don't see coming. A debut this good makes you wonder what Ulfelder's holding back for the next race." --Sophie Littlefield, Edgar Award-nominated author of *A Bad Day for Sorry* "Holds a hot, ominous idle just until Ulfelder engages gears and hits the gas, pinning you back against the seat, hopeless to leave before the end of the ride. One of those rare debuts that leaves you immediately eager to see what is next." -- Michael Koryta, award-winning author of *The Silent Hour* and *The Cypress House* "Ulfelder's voice makes the tale as powerful and true as rocketing down the back straight at Martinsville Speedway. He's given us living proof that scars are sometimes the only legacy we can pass down from one generation to the next." -- Louise Ure, Shamus Award winning author of *Liar's Anonymous*

Bred for Speed - Don Moeller 2015-07-21

Kimba's running and academic accomplishments earn him a scholarship to St. Andrews University in Scotland, which happens to be Dr. MacDonald's alma mater. At St. Andrews, Kimba meets and marries Seti, with whom he agrees to use his acquired cloning knowledge to cross-breed cheetah and human DNA strands for her to give birth to a super-fast son that they name Masemba. Kimba and Masemba are challenged to solve Masemba's disqualifying cheetah-genetic predatory instinct of attacking other runners while on his way to winning Olympic gold medals in the 100 meters and marathon races. Masemba is also awarded the Victoria Cross for saving the Queen from an Al-Qaeda assassination attempt. The epilogue continues with Masemba's use of his super-fast speed to help the Chicago Cubs win the World Series and earn him Rookie of the Year and MVP awards, despite his never having swung a bat.

Lost on Planet China - J. Maarten Troost
2009-05-12

The bestselling author of *The Sex Lives of Cannibals* returns with a sharply observed, hilarious account of his adventures in China—a complex, fascinating country with enough dangers and delicacies to keep him, and readers, endlessly entertained. Maarten Troost has charmed legions of readers with his laugh-out-loud tales of wandering the remote islands of the South Pacific. When the travel bug hit again, he decided to go big-time, taking on the world's most populous and intriguing nation. In *Lost on Planet China*, Troost escorts readers on a rollicking journey through the new beating heart of the modern world, from the megalopolises of Beijing and Shanghai to the Gobi Desert and the hinterlands of Tibet. *Lost on Planet China* finds Troost dodging deadly drivers in Shanghai; eating Yak in Tibet; deciphering restaurant menus (offering local favorites such as Cattle Penis with Garlic); visiting with Chairman Mao (still dead, very orange); and hiking (with 80,000 other people) up Tai Shan, China's most revered mountain. But in addition to his trademark gonzo adventures, the book also delivers a telling look at a vast and complex country on the brink of transformation that will soon shape the way we all work, live, and think. As Troost shows, while we may be familiar with Yao Ming or dim sum or the cheap, plastic products that line the shelves of every store, the real China remains a world—indeed, a planet--unto itself. Maarten Troost brings China to life as you've never seen it before, and his insightful, rip-roaringly funny narrative proves that once again he is one of the most entertaining and insightful armchair travel companions around.

Famous Works of Art—And How They Got That Way - John Nici 2015-09-17

In a world filled with great museums and great paintings, Leonardo da Vinci's *Mona Lisa* is the reigning queen. Her portrait rules over a carefully designed salon, one that was made especially for her in a museum that may seem intended for no other purpose than to showcase her virtues. What has made this portrait so renowned, commanding such adoration? And what of other works of art that continue to enthrall spectators: What makes the Great Sphinx so great? Why do iterations of *The Scream* and *American Gothic* permeate nearly all aspects of popular culture? Is it because of the mastery of the artists who created them? Or can something else account for their popularity? In *Famous Works of Art—And How They Got That Way*, John B. Nici looks at twenty well-known paintings, sculptures, and photographs that have left lasting impressions on the general public. As Nici notes, there are many reasons why works of art become famous; few have anything to do with quality. The author explains why the reputations of some creations have grown over the years, some disproportionate to their artistic value. Written in a style that is both entertaining and informative, this book explains how fame is achieved, and ultimately how a work either retains that fame, or passes from the public consciousness. From ancient artifacts to a can of soup, this book raises the question: Did

the talent to promote and publicize a work exceed the skills employed to create that object of worship? Or are some masterpieces truly worth the admiration they receive? The creations covered in this book include the Tomb of Tutankhamun, Botticelli's *Birth of Venus*, Raphael's *Sistine Madonna*, El Greco's *The Burial of Count Orgaz*, Rodin's *The Thinker*, Van Gogh's *Starry Night*, and Picasso's *Guernica*. Featuring more than sixty images, including color reproductions, *Famous Works of Art—And How They Got That Way* will appeal to anyone who has ever wondered if a great painting, sculpture, or photograph, really deserves to be called "great."

In the Closet of the Vatican - Frederic Martel
2019-02-21

The New York Times Bestseller '[An] earth-shaking exposé of clerical corruption' - National Catholic Reporter
In the Closet of the Vatican exposes the rot at the heart of the Vatican and the Roman Catholic Church today. This brilliant piece of investigative writing is based on four years' authoritative research, including extensive interviews with those in power. The celibacy of priests, the condemnation of the use of contraceptives, the cover up of countless cases of sexual abuse, the resignation of Benedict XVI, misogyny among the clergy, the dramatic fall in Europe of the number of vocations to the priesthood, the plotting against Pope Francis - all these issues are clouded in mystery and secrecy. *In the Closet of the Vatican* is a book that reveals these secrets and penetrates this enigma. It derives from a system founded on a clerical culture of secrecy which starts in junior seminaries and continues right up to the Vatican itself. It is based on the double lives of priests and on extreme homophobia. The resulting schizophrenia in the Church is hard to fathom. But the more a prelate is homophobic, the more likely it is that he is himself gay. 'Behind rigidity there is always something hidden, in many cases a double life'. These are the words of Pope Francis himself and with them the Pope has unlocked the Closet. No one can claim to really understand the Catholic Church today until they have read this book. It reveals a truth that is extraordinary and disturbing.
