Loose Leaf for Auditing & Assurance Services - Jay C. Thibodeau 2017-02-03

As auditors, we are trained to investigate beyond appearances to determine the underlying facts—in other words, to look beneath the surface. From the Enron and WorldCom scandals of the early 2000s to the financial crisis of 2007–2008 to present-day issues and challenges related to significant estimation uncertainty, understanding the auditor’s responsibility related to fraud, maintaining a clear perspective, probing for details, and understanding the big picture are indispensable to effective auditing. With the availability of greater levels of qualitative and quantitative information (“big data”), the need for technical skills and challenges facing today’s auditor is greater than ever. The author team of Louwers, Blay, Sinason, Strawser, and Thibodeau has dedicated years of experience in the auditing field to this new edition of *Auditing & Assurance Services*, supplying the necessary investigative tools for future auditors.

MP Auditing and Assurance Services W/ Apollo Shoes Casebook, Dynamic Accounting Profession PowerWeb, and What Is Sarbanes Oxley? - Jack C. Robertson 2002-12-01

Auditing & Assurance Services - William F. Messier 2006

Messier employs the new audit approach currently being used by auditing professionals. This new approach is a direct result of the demands of Sarbanes-Oxley, which has changed the way auditors do their jobs. The new auditing approach emphasizes understanding the entity (i.e., the organization or business being audited) and its environment (i.e. industry), and then assessing the business risks faced by the entity and how management controls those risks. This new audit process focuses on business processes instead of accounting cycles. This unique and innovative approach has been developed in response to changing market dynamics. The systematic approach, referred to in the subtitle of the text, reflects the early introduction of three basic concepts that underlie the audit process: materiality, audit risk, and evidence; this allows Messier to build upon this model in subsequent chapters. These are central to everything an auditor does and a unique feature of Messier. As such, this approach helps students develop auditor judgment, a vital skill in today's auditing environment.

Auditing & Assurance Services - Timothy J. Louwers 2006-03-20

As a result of recent audit scandals such as Enron and Worldcom, several new auditing standards have been enacted, making currency one of the most important issues in this market. Upon publication, this text will be the most up-to-date auditing text on the market. It's been written so that it is current with all issues inherent in accounting and auditing practice, particularly in public accounting firms including coverage of the creation of the Public Companies Accounting Oversight Board, the passage of the Sarbanes-

Oxley Act, and all of the major pronouncements issued by the AICPA through Summer 2005. The Louwers text is also a leader in fraud coverage and is accompanied by the Apollo Shoes Casebook--the only standalone FRAUD audit case on the market (available at the book's Online Learning Center). The text is also designed to provide flexibility for instructors; the twelve chapters focus on the auditing process while the eight modules provide additional topics that can be taught at the instructor's discretion without interrupting the flow of the text.

Principles of Auditing and Other Assurance Services Study Guide - O. Ray Whittington 2003-06

Whittington/Pany's "Principles of Auditing," is a market leader in the auditing discipline. Until October 2002, Ray Whittington was a member of the Audit Standards Board and prior to Ray being on the ASB, Kurt Pany was on the board. This has had a major impact on this revision of the text as Whittington has been involved in the audit standards creation process. "Principles of Auditing" presents concepts clearly and proactively monitors changes in auditing making the relationship between accounting and auditing understandable. The 16th edition maintains the organization and balance sheet orientation, while adding and enhancing topics of Risk, Assurance Services, Fraud, E-Commerce, and the latest auditing standards to meet the needs of the current marketplace.
