**Spice** - Jack Turner 2008-12-10

In this brilliant, engrossing work, Jack Turner explores an era—from ancient times through the Renaissance—when what we now consider common condiments were valued in gold and blood. Spices made sour medieval wines palatable, camouflaged the smell of corpses, and served as wedding night aphrodisiacs. Indispensable for cooking, medicine, worship, and the arts of love, they were thought to have magical properties and were so valuable that they were often kept under lock and key. For some, spices represented Paradise, for others, the road to perdition, but they were potent symbols of wealth and power, and the wish to possess them drove explorers to circumnavigate the globe—and even to savagery. Following spices across continents and through literature and mythology, *Spice* is a beguiling narrative about the surprisingly vast influence spices have had on human desire. Includes eight pages of color photographs. One of the Best Books of the Year: Discover Magazine, The Christian Science Monitor, San Francisco Chronicle

**Lady Chatterley's Lover** - D. H. Lawrence 2021-01-01

Ours is essentially a tragic age, so we refuse to take it tragically. The cataclysm has happened, we are among the ruins, we start to build up new little habitats, to have new little hopes. It is rather hard work: there is now no smooth road into the future: but we go round, or scramble over the obstacles. We've got to live, no matter how many skies have fallen. This was more or less Constance Chatterley's position. The war had brought the roof down over her head. And she had realized that one must live and learn.

Furthermore, the 'Earth' in this novel is not the same Earth we are currently living on so do not use our common sense for this novel. This is pure fantasy, after all. ----- My other novels: *Dual Cultivation/Inferior Cultivation System*
