Life at Aggieland in The '40's - H. C. Byler 2006-03-16

In the 1940's, Texas A. & M. College was strictly a military school and was well known for its discipline as well as its academic program. Times have changed and the school has changed. This entertaining book, which documents a period in A. & M. history, is based primarily on the author's freshman year of 1946. It begins by relating events leading up to his enrollment, followed by the blur of activity during freshman orientation week, and the chaos of registration week. A brief physical description of the school at that time is given, along with an explanation of the Cadet Corps organization, emphasizing the disciplinary system that was administered by the Cadets. Finally, the book tells about the dormitory, academic, and social life of the students, focusing on the cadets' escapades and rivalries, including many humorous anecdotes. These stories and descriptions are followed by a discussion of the merits of the school's superior academic and character-building programs.

Refugee - Azmat Ashraf 2020-08-21

Following a bloody, violent struggle, in 1971 East Pakistan became the independent state of Bangladesh. Caught in the midst of this conflict were the Biharis, a Muslim minority group who originally fled the Indian state of Bihar when India was partitioned by the British in 1947. Author Azmat Ashraf, himself a Bihari, was one year old when his family escaped India in 1953 for the relative safety of East Pakistan. Less than two decades later, after building a solid life for themselves, his family were targeted by communal violence during Bangladesh's turbulent birth, in which most of Azmat's family members were killed. On the road once again, it wasn't until 2002, nearly fifty years after his first migration, that Azmat finally completed his epic search for a home, settling in Canada with his wife and three daughters. This book is a memoir of one family's fight for survival and to rebuild their lives following a series of unimaginable tragedies. It is a story of human resilience in the face of evil, of real love and true friendship, and an inspiration for refugees everywhere who are struggling to find a place of security and prosperity in this world. Despite the personal tragedies that Azmat and his family have suffered, he has taken great care to provide a balanced view of the conflict of 1971 to help Pakistanis and Bangladeshis in particular and

people of the subcontinent in general understand this painful part of their mutual history.

College - Tom Hodson 2016-08-01

Since its establishment in 1930 the Irish Military College has had a vital influence on not only the Defence Forces but on the nation. It has formed all of the nation's commissioned officers, many of whom have achieved distinction both within and outside of the Defence Forces. The story of this relatively unknown national institution is intriguing as it has attempted to fulfill the roles laid down for it in 1923 in training and instructing officers and officer candidates. The task has not been easy, as the Military College has inevitably been subject to the many changes and fluctuations in the duties, roles and fortunes of the wider Defence Forces. In this book Colonel Tom Hodson, a former instructor in the Military College and a graduate of École de Guerre, Paris, charts its history. He recounts how from its early predecessor, the Army School of Instruction, the Military College has repeatedly re-invented itself, culminating in the requirement for today's modern institution to embrace and impart instruction based on the needs of the Irish Defence Forces and the procedures of European and NATO armies.
