The Class Audio CDs contain all the audio for the Students' Book. Handbook of Hydrocolloids - Glyn O. Phillips 2009-05-28 Hydrocolloids are among the most widely used ingredients in the food industry. They function as thickening and gelling agents, texturizers, stabilisers and emulsifiers and in addition have application in areas such as edible coatings and flavour release. Products reformulated for fat reduction are particularly dependent on hydrocolloids for satisfactory sensory quality. They now also find increasing applications in the health area as dietary fibre of low calorific value. The first edition of Handbook of Hydrocolloids provided professionals in the food industry with relevant practical information about the range of hydrocolloid ingredients readily and at the same time authoritatively. It was exceptionally well received and has subsequently been used as the substantive reference on these food ingredients.

Extensively revised and expanded and containing eight new chapters, this major new edition strengthens that reputation. Edited by two leading international authorities in the field, the second edition reviews over twenty-five hydrocolloids, covering structure and properties, processing, functionality, applications and regulatory status. Since there is now greater emphasis on the protein hydrocolloids, new chapters on vegetable proteins and egg protein have been added. Coverage of microbial polysaccharides has also been increased and the developing role of the exudate gums recognised, with a new chapter on Gum Ghatti. Protein-polysaccharide complexes are finding increased application in food products and a new chapter on this topic as been added. Two additional chapters reviewing the role of hydrocolloids in emulsification and their role as dietary fibre and subsequent health benefits are also included. The second edition of Handbook of hydrocolloids is an essential reference for post-graduate students, research scientists and food manufacturers. Extensively revised and expanded second edition edited by two leading international authorities Provides an introduction to food hydrocolloids considering regulatory aspects and thickening characteristics Comprehensively examines the manufacture, structure, function and applications of over twenty five hydrocolloids

Handbook of Research on Entrepreneurial Ecosystems and Social Dynamics in a Globalized World - Carvalho, Luísa Cagica 2017-11-30

Globalization demands the construction of new business methods to enable companies to remain highly competitive. Due to this demand, cultural differences are now being implemented into policies and procedures as companies expand and seek to collaborate with international entrepreneurs. The Handbook of Research on Entrepreneurial Ecosystems and Social Dynamics in a Globalized World is a pivotal reference source for emergent aspects of internationalization and regional development in an entrepreneurial context. Featuring extensive coverage on relevant areas such as digital entrepreneurship, sustainability, and financial performance, this publication is an ideal resource for academics, public and private institutions, developers, professors, researchers, and post-graduate students seeking current research on globalized entrepreneurship.

Measured Constructs - Cyril J. Weir 2013-05-23

This volume establishes how English language constructs

were measured in Cambridge English examinations over the period 1913 to 2012. An addition to the Studies in Language Testing series, this volume provides an overview of English language testing over the last century, with coverage of key theoretical and practical aspects of the assessment of reading, listening, writing and speaking skills. It includes examples of the Cambridge English exams, old and new, and is the first volume to describe in a systematic way the different theoretical influences which have shaped the development of the constructs underlying Cambridge English exams in the last 100 years.

Primary Care of the Child With a Chronic Condition E-Book - Patricia Jackson Allen 2009-06-25

Written by nurse practitioners for nurse practitioners, this one-of-a-kind resource provides the expert guidance you need to provide comprehensive primary care to children with special needs and their families. It addresses specific conditions that require alterations in standard primary care and offers practical advice on managing the major issues common to children with chronic conditions. A consistent format makes it easy to locate essential information on each condition. Plus, valuable resources help you manage the issues and gaps in health care coverage that may hinder quality care. This is the only book authored by Nurse Practitioners that focuses on managing the primary health care needs of children with chronic conditions. More than 60 expert contributors provide the most current information available on specific conditions. Comprehensive summary boxes at the end of all chronic conditions chapters provide at-a-glance access to key information. Resource lists at the end of each chronic condition chapter direct you to helpful websites, national organizations, and additional sources of information that you can share with parents and families. Updated references ensure you have access to the most current, evidence-based coverage of the latest research findings and management protocols. Four new chapters – Celiac Disease, Eating Disorders, Muscular Dystrophy, and Obesity – keep you up to date with the latest developments in treating these conditions. Autism content is updated with the latest research on autism spectrum disorders, including current methods of evaluation, identification, and management. Coverage of systems of care features new information on how to help families obtain high-quality and cost-effective coordinated services within our complex health care system. Easy-to-find boxes in the chronic conditions chapters summarize important information on treatment, associated problems, clinical manifestations, and differential diagnosis.

Tasks and Criteria in Performance Assessment - Annie Brown 2009

This volume includes selected papers from the 28th Language Testing Research Colloquium, held at the University of Melbourne (Australia) in July 2006. The papers selected for this volume share a common theme - that of 'performance'. Not only do they focus on performance assessments of second or foreign language speaking and writing, but they also focus on the performance of the participants - the candidate (or candidates) and the raters - and the construction of that performance through the tasks and the assessment criteria.

Handbook on Measurement, Assessment, and Evaluation in Higher Education - Charles Secolsky 2017-07-31

In this valuable resource, well-known scholars present a detailed understanding of contemporary theories and practices in the fields of measurement, assessment, and evaluation, with guidance on how to apply these ideas for the benefit of students and institutions. Bringing together terminology, analytical perspectives, and methodological advances, this second edition facilitates informed decision-making while connecting the latest thinking in these methodological areas with actual practice in higher education. This research handbook provides higher education administrators, student affairs personnel, institutional researchers, and faculty with an integrated volume of theory, method, and application.
