Millionaire by Thirty - Douglas R. Andrew 2008-04-30

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Zen Battles - Thich Nhat Hanh 2009-11-14

One of the key tenets of the Zen school of Mahayana Buddhism is that each one of us is already a Buddha—our enlightenment is inherent within us, and the practice of mindfulness is the tool to bring this truth to our full awareness. While it can bring much relief, this simple statement does not preclude the need for practice. We must strive to always be aware of our Buddha nature, rather than waiting until times of emotional upheaval when it is more difficult to practice. Thich Nhat Hanh uses the teachings of ninth century Zen Master Linji to elaborate on this simple truth and to give readers tools that can help awaken them to their true inner nature. Linji's recorded teachings are the most significant we have from the Ch'an school. One of the unique aspects of Linji's teaching, is the need to "wake ourselves up," not only by means of sitting meditation and listening to enlightened teachings, but also through unique techniques such as the shout, the stick, and the empty fist. Master Linji emphasized direct experience of our true nature over intellectual explorations of the teachings, and he encouraged his students to not "become lost in the knowledge or the concepts of the teaching." Powerful, direct, and uncompromising, Thich Nhat Hanh's reflections on the teachings of Master Linji are destined to become classic Buddhist writings.

The Official Chronology of the U.S. Navy in World War II - Robert J Cressman 2016-10-15

Ten years after the close of World War II, the U.S. Navy published a chronology of its operations in the war. Long out of print, the work focused on what were then defined as critical and decisive events. It ignored a multitude of combat actions as well as the loss or damage of many types of U.S. ships and craft—particularly auxiliaries, amphibious ships, and district craft—and entirely omitted the U.S. submarine campaign against Japanese shipping. This greatly expanded and updated study, now available in paperback with an index, goes far beyond the original work, drawing on information from more than forty additional years of historical research and writing. Massive, but well organized, it addresses operational aspects of the U.S. Navy's war in every theater.

Nelson to Vanguard - D. K. Brown 2012-07-30

Nelson to Vanguard is the third volume in D K Brown's bestselling series on warship design and development looks at the Royal Navy's response to the restrictions placed on it by the Washington Naval Treaties in the inter-war years, and analyses the fleet that was constructed to fight the Second World War. He focusses on the principal pre-war developments such as the first purpose-built aircraft carriers and the growing perception of the threat of air attack to warships. All the wartime construction programmes are covered, such as the massive expansion in escort ships to counter the U-boat menace, and the development of the amphibious warfare fleet for the D-Day landings in 1944. Full analysis is also provided of the experience of wartime damage, as well as the once top secret pre- and post-war damage trials. Illustrated throughout with a superb collection of contemporary photographs and numerous line drawings, this now classic work is required reading for naval historians and enthusiasts.

Modern Cataract Surgery - Thomas Kohnen 2002-01-01

New cataract removal techniques, anesthesia and viscoelastic substances, and the implantation of modern intraocular lenses are essential topics in the fast developing field of ophthalmic surgery. This publication provides a comprehensive update discussing these items thoroughly. Special emphasis is given to the management of mature cataract and phacoemulsification in the vitreous cavity. Intraocular lens calculation is highlighted by optical

coherence biometry, in particular, the measurements to increase the predictability of intraocular lens implantation. Implantation techniques, incision architecture and wound construction as well as Scheimpflug-photography of foldable intraocular lenses and the prevention of PCO (posterior capsular opacification) are covered. The last two articles emphasize the implantation of special intraocular lenses including piggyback intraocular lens and multifocal intraocular lens implantation. Anterior eye segment surgeons looking for an update on modern cataract surgery will find a wealth of timely information on new techniques and results in small incision cataract surgery in this publication.

Landing Ship, Tank (LST) 1942–2002 - Gordon L. Rottman 2012-09-20

The Landing Ship Tank (LST) is one of the most famous of the many World War II amphibious warfare ships. Capable of discharging its cargo directly on to shore and extracting itself, the LST provided the backbone of all Allied landings between 1943 and 1945, notably during the D-Day invasion. Through its history, the LST saw service from late 1942 until late 2002, when the US Navy decommissioned the USS Frederick (LST-1184), the last ship of its type. This book reveals the development and use of the LST, including its excellence beyond its initial design expectations.

Shaq Talks Back - Shaquille O'Neal 2014-07-01

It's rare to discover a candid sports autobiography-- even rare when the author is one of the most recognizable athletes in the world. But in Shaq Talks Back, Shaquille O'Neal for the first time talks frankly about his childhood, his life, his rivalries, and his career, culminating in a dramatic, behind-the-scenes account of the Los Angeles Lakers' drive to the NBA Championship. At seven feet one inch tall and 330 pounds, Shaq has always faced outsized expectations, even as a child when he towered over other kids. Shaq Talks Back is the story of how potential became reality-- how someone expected to be a champion finally learned to become one. Beginning with his memory of crying on the court after the Lakers defeated the Indiana Pacers, Shaq takes us back to his younger days in Newark and Jersey City, New Jersey, then to Georgia and finally to Germany, where he began to harness some of his height and strength. From there, he recounts the remarkable progress of his basketball career, changing from a big but inexperienced teenager to a dominant college and professional player. Shaq talks about: * Playing at Louisiana State University for the unpredictable coach Dale Brown * Signing the biggest rookie contract ever with the Orlando Magic-- and going to the NBA Finals for the first time * What happened next: dissent, disappointment, and his decision to leave for Los Angeles * The dysfunctional Lakers who were never able to win the big games * Dealing with egos as he finds the right chemistry with Kobe Bryant, Phil Jackson, and new additions to the team * Rivalries with Alonzo Mourning, Patrick Ewing, Hakeem Olajuwon, David Robinson, and others * The trouble with free throws... * "Bling-bling" and women: the larger-than-life world of NBA players off the court * Inside the Lakers' comeback from the brink against Portland and the drive to the NBA championship Funny, insightful, opinionated, and unexpectedly moving, Shaq Talks Back is the true voice of the NBA's best player.
