International Criminal Law: Cases and Materials - Ellen S. Podgor 2010-02-02

International Criminal Law provides a set of teaching materials furnishing students with a grounding in the transnational issues likely to arise in federal criminal cases, and also in the law produced as a consequence of international efforts to impose criminal responsibility on the perpetrators of human rights atrocities. International Criminal Law offers, for teaching purposes, a collection of cases (mainly domestic) and other materials, together with notes and questions about those cases and materials. The first part introduces the field of international criminal law, and includes a chapter on the general principles of both domestic and international law governing efforts to apply U.S. criminal law to foreign crimes and foreign criminals. The second part covers the specific application of those principles to cases involving the Foreign Corrupt Practices Act, antitrust and securities regulation, export controls, computer crimes, narcotics and money laundering, piracy and terrorism, and torture. The third part addresses procedural aspects of trying such cases in U.S. courts. This section also treats the extraterritorial application of the U.S. Constitution, immunities from jurisdiction, mutual assistance in criminal cases, extradition, alternatives to extradition, prisoner transfers, recognition of foreign criminal judgments, and the bearing on international human rights instruments on criminal procedure. The final part of International Criminal Law deals with the prosecution of international crimes, and takes up the question of what crimes constitute international crimes. This section also discusses the Nuremberg and Tokyo precedents, the ad hoc tribunals for the former Yugoslavia and for Rwanda, the Rome Statute of the International Criminal Court, and the substantive law of international crimes such as aggression, genocide, crimes against humanity, and war crimes. International Criminal Law is supplemented annually. This eBook features links to Lexis Advance for further legal research options.

Cases and Materials on the Law of International Organizations - William Thomas Worster 2020

In less than 100 years, international organizations have evolved from curiosities into keystones of international law. What began long ago as an unremarkable effort to coordinate a limited number of technical issues has grown into a global, multilevel, blended governing project with diverse competences in most fields of human endeavor and interests. Law graduates who enter the field of international law, as well as political science, international relations, and diplomacy, are increasingly expected to have a strong knowledge of the law of international organizations. Beyond knowledge, graduates are also expected to be able to solve new emerging legal problems confronting organizations. This book introduces students to the law of international organizations through the careful study of the most recent cases and other materials from the International Court of Justice, United Nations Security Council and General Assembly, World Trade Organization, international criminal tribunals, European Union, European Court of Human Rights, International Labour Organization, various domestic courts and arbitral panels, and other bodies. In doing so, it undertakes a critical examination of legal rights and duties, exposing the fundamental questions that arise when addressing a range of issues within an organization. In order to provide the best foundation, the textbook focuses on several key topics: the law of treaties, creation of organizations, membership, powers of organizations, legal effects of their acts, organs, immunities, and responsibility. This book is best suited for students who are studying international organizations and who have already had one or more courses on international and/or European law.

Consumer Law - John A. Spanogle 2013

Cases and Materials on Consumer Law (4th ed.) retains its comprehensive coverage and has been completely updated to reflect new developments in the dynamic field of consumer law, including: Internet marketing, ad substantiation, celebrity and other testimonials Consumer credit regulation, and the new Consumer Financial Protection Bureau Consumer privacy, online marketing and tracking Emerging payment systems - e.g., credit, debit and stored value cards Remedies -latest U.S. Supreme Court developments on consumer arbitration Predatory lending ("capstone" chapter), the legal fallout from the subprime mortgage foreclosure crisis This text contains a balance of cases, problems that reflect modern situations, and notes with discussion questions and references to the latest consumer protection scholarship. A new statutory supplement, entitled Selected Consumer Statutes, is available, also.

International Intellectual Property Law - Paul Goldstein 2008

This casebook organizes contemporary foreign, as well as U.S., case law and literature to equip law students with the knowledge they need to engage in international intellectual property practice, in both transactional and litigation settings. Carefully selected materials also expose students to the social, economic, and cultural considerations that underpin intellectual property law around the world. Each field of law - copyright, patent, trademark, unfair competition, trade secrets, industrial design - is introduced by a comprehensive author's note placing the field in its international and comparative law context, and extensive notes on the cases and materials fill in relevant details, including currently and historically important topics.

Conflict of Laws - Peter Hay 2017

•Chapter 6, concerning the impact of the Constitution, has been streamlined to enhance “teachability.” The 2016 opinion in franchise tax Board versus Hyatt is now included as a principal case. •Chapters 7 and 8 present the central themes of choice of law. Both have been updated substantially. Chapter 8 has been considerably revised to show the progression from the traditional system, to the height of the conflicts revolution, to a developing consensus to consolidate modern analysis in a manner that provides more predictability and certainty. This revision is designed to give students -- most of whom have little or no familiarity with choice of law doctrine -- a b.

International Business Law: Cases and Materials - George D. Cameron III 2015-08-09

INTERNATIONAL BUSINESS LAW: CASES AND MATERIALS is a timely and useful book. Uncounted millions of “international” transactions occur daily, as goods and services are purchased across the national boundaries of some 200 political units. Capital flows from nation to nation, and so—to a lesser extent—do jobs, as companies seek more favorable locations for their business operations. The “rules” (laws) governing these exchanges quickly become complex, as persons (and governments) from different countries are involved. If problems arise in a cross-border relationship, whose rules apply? What forums are available to resolve disputes? Are there tax implications to the transaction? If so, where? These and similar questions need to be factored into the decision to “go overseas.” Each of the six chapters in this book begins with a brief overview of the subject-matter, followed by short previews of the chosen case examples. The primary content of the chapters consists of some 120 court and arbitration decisions in real disputes, between real parties. The actual text of the decisions in these cases has been edited; some excerpts are quite brief,

others are more substantial. Most “background” facts have been summarized by the author, but the edited decision part of each case is quoted from the actual recorded text of the court or arbitrator who decided it. Clearly, a minute sample from tens of thousands of cases cannot provide comprehensive coverage of what all the world’s legal rules are. Our objectives here are simply to indicate some of the major potential “flash points” of doing international business, to illustrate some of the significant differences in the applicable legal rules, and to provide an exposure to the language and process by which international business disputes are resolved. “Fore-warned is fore-armed.” Being aware of these potential trouble spots, a sensible business manager will presumably consider them in making the decision to engage in cross-border transactions, and take appropriate steps to avoid or minimize potential adverse consequences. Chapter I of this book introduces International Law—its course of development and its two major sources (custom and treaties). Chapter II examines the use of national and international courts and arbitrators to resolve cross-border disputes. Chapter III provides basic coverage of the United Nations Convention on Contracts for the International Sale of Goods: when it applies, how the sale contract is formed, when risk of loss on the goods passes from Seller to Buyer, and what responsibilities the Seller has for the quality of the goods sold. Chapter IV looks at some of the legal questions that might arise in conducting cross-border commercial operations—employment issues, intellectual property issues, and investment issues. Chapter V considers potential questions regarding taxation of international activities, and the regulation of adverse environmental effects. Chapter VI reviews the efforts by national governments to apply their competition regulations to international business transactions, and the difficulties that private parties might have in attempting to enforce legal claims against governments and their agencies. While these are surely not the only legal issues that might arise in connection with international business, they do constitute a significant set of concerns of which managers need to be aware as they venture into the international “stream of commerce.”

International Law - Donald R Rothwell 2018-06-19

Now in its third edition, *International Law: Cases and Materials with Australian Perspectives* remains an authoritative textbook on international law for Australian students. With a strong focus on Australian practice and interpretation, the text examines how international law is developed, implemented and interpreted within the international community and considers new and developing approaches within this field. This edition has been comprehensively updated to address recent developments in international law. The selection of cases and materials provides a thorough coverage of core areas and addresses a range of contemporary challenges, including climate change, human rights, nuclear proliferation and the South China Sea. A new chapter on international trade law reflects the growing importance of this body of law in Australian practice. Guiding commentary provides a rigorous analysis of key principles. Written by a team of experts with substantial experience in this field, *International Law* is an essential resource for students.

The Public International Law of Taxation - Asif H. Qureshi 2019-05-22

The phenomenal internationalization of taxation occurring in recent years has called for a second edition of this classic handbook. Even though a quarter of a century has passed, the farsighted first edition has remained in constant use worldwide and has even grown in importance. Now it has been thoroughly updated by the author, who has brought his piercing insight to bear on the current world of international tax law while retaining the book’s practical format, structure of primary materials, and detailed commentary. Emphasizing the need for an international consciousness in relation to issues of taxation, Professor Qureshi focuses extensively on the problems associated with fiscal jurisdiction, international constraints in domestic taxation, double taxation, and tax evasion and avoidance. In particular the following are covered: treaty law with specific reference to taxation; fiscal aspects of international monetary, investment, and trade law; enforcement of international tax claims; exchange of information; assistance in recovery of tax claims; mechanisms for the resolution of international tax disputes; base erosion and profit shifting in the framework of public international law; and contribution of international institutions to fiscal capacity development. Assimilating in one source the basic materials in public international law germane to taxation – including cases, texts of international agreements, discourse in secondary sources, and incisive commentary, all updated to the present – this new edition of the most authoritative and important book in its field will be of immeasurable value to tax practitioners worldwide, national taxation authorities,

international institutions, and the international tax community more generally.

International Law - Lori Fisler Damrosch 2001

Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion. *Cases and Materials on International Law* offers a treatment of the subject for introductory and advanced classes and detailed readings and reference materials for those who wish to pursue topics in depth. The fourth edition enriches every chapter with new information on institutions contributing to the sources and enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a chapter of its own, and the casebook gives expanded treatment to human rights, environmental law, and economic law.

Basic Documents Supplement to International Law - Louis Henkin 1993

International Commercial Litigation - Trevor C. Hartley 2009-07-09

This carefully structured, practice-orientated textbook provides everything the law student needs to know about international commercial litigation. The strong comparative component provides a thought-provoking international perspective, while at the same time allowing readers to gain unique insights into litigation in English courts. Three important themes of the book analyse how the international element may call into question the power of the court to hear the case, whether it should exercise this power, whether foreign law applies, and whether the court should take into account any foreign judgement. Hartley provides the reader with extracts from leading cases and relevant legislation, together with an extensive reference library of further reading for those who wish to explore the topic in more detail, making this a valuable, single-source textbook. The title will benefit from a companion website, setting out all relevant case law developments for the students.

[Complete International Law](#) - Ademola Abass 2014

Includes bibliographical references and index.

International Criminal Law - Jordan J. Paust 2013

The fourth edition has been significantly updated, especially to reflect case trends in the International Criminal Court and the International Criminal Tribunals for Former Yugoslavia and for Rwanda (encompassing, among other matters, individual responsibility, defenses, war crimes, genocide, and other crimes against humanity). Some of the chapters have new sub-subtitles and relevant domestic cases have been added or noted in various chapters. There are also additions to the Documents Supplement.

Textbook on International Law - Martin Dixon 2013-04-18

Offers a concise and focused introduction to international law, with coverage of all the core topics, from the nature and sources of international law to the use of force and human rights.

International Intellectual Property Law - Paul Goldstein 2016

This casebook organizes contemporary foreign, as well as U.S., case law and literature to equip law students with the knowledge they need to engage in international intellectual property practice, in both transactional and litigation settings. Carefully selected materials also expose students to the social, economic, and cultural considerations that underpin intellectual property law around the world. The casebook covers aspects of public international law, conflict of laws (private international law), and comparative law of intellectual property. Each field of law - copyright, patent, trademark, unfair competition, trade secrets, industrial design - is introduced by a comprehensive authors' note placing the field in its international and comparative law context, and extensive notes on the cases and materials fill in relevant details, including currently and historically important topics. Materials on the major fields of intellectual property law are accompanied by materials on other related intellectual property matters, such as the protection of databases, plant varieties, geographical indications of origin, and Internet domain names.

International Law - MARK WESTON. JANIS 2020-06-25

Janis, Noyes, and Sadat on *International Law* presents this complex subject in an authoritative and well-written casebook. The book introduces the history and nature of international law and its sources--treaties,

custom, general principles, jus cogens, and equity. It explains how international law is applied in U.S. courts and in international arbitration and adjudication. The book addresses many of the key settings in which international law plays a critical role: international human rights, the recognition and succession of states and governments, international and non-governmental organizations, war and peace, the law of the sea, and inter-state judicial relations. The book's materials, largely domestic and international judicial decisions, are both sophisticated and teachable, the perfect introductory casebook for any U.S. law school.

Cases & Materials on International Law - Martin Dixon 2016

Cases & Materials on International Law is a topical and engaging companion for study, offering broad coverage on public international law and placing disputes directly within the context of contemporary debate. The book contains the essential cases and materials that students need in order to fully understand and analyse the international legal system, drawing on a truly global range of jurisdictions and sources. Expert author commentary and notes place selected extracts within the wider legal framework and explain the complexities of the principles of law to students. The sixth edition includes expanded discussion of developing areas, including UN resolutions on climate change and international environmental law, new material from the International Law Commission, and coverage of major events, such as the annexation of Crimea, the legal context for Scottish independence and the UK's exit from the European Union, and the United Nations Security Council's Resolution on Malaysia Airlines MH17.

International Human Rights Law - Olivier De Schutter 2019-09-12

Fully updated to cover topics such as climate change, trade and business activities, while retaining the original style and structure.

Cases and Materials Public International Law - Lana Said 2020-10-26

This compilation consists of key cases and materials in the area of public international law, selected by the Department of International and European Union law of the Erasmus University Rotterdam to use in their bachelor education. Core areas of importance covered by this compilation are the law of treaties, state responsibility, the use of force, international criminal law, human rights law, law of immunities, international economic law, and dispute settlement. What makes this book unique is that it offers concise case law entries, consisting of a mixture of quotes and summaries. By indicating the main points discussed, Cases and Materials Public International Law aids students, lecturers and others (practitioners etc.) to quickly comprehend the key issues of each case. These case law entries stem from the didactical vision of the authors, Masuma Shahid and Lana Said, who have over 15 years of experience in coordinating and teaching law courses at Dutch universities. Both are convinced that these case law entries facilitate the reader to analyze and/or scrutinize the remainder of the cases on a higher and elevated level. The compilation is suitable for introductory courses, as well as advanced ones in the field of public international law.

Cases and Materials on International Law - David John Harris 2004

This text draws together in one volume an exhaustive selection of cases, materials and background information on public international law, supplemented by expert commentary and analysis. International Economic Law - Leila Choukroune 2021-07-22

Reconciling all fields of international economic law (IEL) and creating bridges between disciplines in a conceptual as well as practical manner, this book stands out as the first modern, comprehensive international economic law textbook. Containing a technically solid yet critically rich body of knowledge that spans disciplines from trade law to investment, from trade finance to fisheries subsidies, from development to the digital economy and other new-age topics, the book offers the widest possible coverage of issues in current international economic law. Positioning IEL as a truly global practice, the comprehensive coverage includes various treaty texts, landmark cases and new materials, and is supplemented by case studies, real-life examples, exercises and illustrations. The case extracts and legal texts are selectively chosen, with careful editing and serious deliberation to engage modern law students. Mini chapters show examples of interdisciplinary interactions and provide a window into the future disciplines of international economic law.

Cases and Materials on International Law - David John Harris 1998

Cases and Materials on International Law draws together in one volume an exhaustive selection of cases, materials and background information on public international law, supplemented by expert commentary and analysis. Nicaragua) case, the arbitral decision in the South China Sea (Philippines v. China), and the U.S. Supreme Court's ruling in *Jesner v. Arab Bank*. With extraordinary range and depth, this casebook probes "hot topics" such as cyber-attacks, the Paris Agreement on climate change, the International Criminal Court's possible investigation into war crimes in Afghanistan, and complaints of racial discrimination by Palestine against Israel and by Qatar against the United Arab Emirates, all calculated to provoke engaging classroom discussions. This casebook is designed for introductory and advanced classes.

International Law - David Patariaia 2021-11-30

International Law: Text, Cases and Materials provides not only an essential introduction to the core concepts and foundational principles of international law, but also a detailed overview of each established area in which international law operates. Featuring cases, materials, and illustrative figures throughout to enhance the level of context and detail provided, the book covers everything a student of international law requires. Topics include the law of treaties, international organisations, the international protection of human rights, responsibility in international law, jurisdiction, diplomatic and consular law, territory in international law, the law of the sea, international air and space law, international economic law, international environmental law, and international humanitarian law. This comprehensive textbook will be essential reading not only for any course on international law, but also as a starting point for those wishing to grasp the context of a particular area of international law before exploring further.

Intellectual Property Law - Lydia Loren 2017-07-08

¿ Immerse students in the world of intellectual property law and provide essential perspectives to practice in this area.¿ The Fifth Edition of Loren & Miller's Intellectual Property Law continues to provide engaging and challenging coverage of all the major types of intellectual property law: trade secret, patent, copyright, and trademark law. Covering cases and developments through Spring 2017, the book includes all the latest Supreme Court cases that are vital to a survey course, including *Star Athletica v. Varsity Brands* (as a principal case) and contextualized discussion of *Matal v. Tam* and *Impression Products v. Lexmark International*. Each chapter has been fully revised, with changes¿some small, some more extensive¿that optimize clear presentation of tightly edited cases and concise notes and questions.¿ The book kicks off with an introduction that explores the basic policies animating i.p. law and concludes with two overarching chapters¿one on i.p. limits (preemption and first sale), and one on remedies (to redress past harm and prevent future harm). This book will both guide student analysis and challenge students to make vital connections within and across doctrines and policies.

Cases and Materials on the Law of International Organizations - William Thomas Worster 2020-07-22

In less than 100 years, international organizations have evolved from curiosities into keystones of international law. What began long ago as an unremarkable effort to coordinate a limited number of

technical issues has grown into a global, multilevel, blended governing project with diverse competences in most fields of human endeavor and interests. Law graduates who enter the field of international law, as well as political science, international relations, and diplomacy, are increasingly expected to have a strong knowledge of the law of international organizations. Beyond knowledge, graduates are also expected to be able to solve new emerging legal problems confronting organizations. This book introduces students to the law of international organizations through the careful study of the most recent cases and other materials from the International Court of Justice, United Nations Security Council and General Assembly, World Trade Organization, international criminal tribunals, European Union, European Court of Human Rights, International Labour Organization, various domestic courts and arbitral panels, and other bodies. In doing so, it undertakes a critical examination of legal rights and duties, exposing the fundamental questions that arise when addressing a range of issues within an organization. In order to provide the best foundation, the textbook focuses on several key topics: the law of treaties, creation of organizations, membership, powers of organizations, legal effects of their acts, organs, immunities, and responsibility. This book is best suited for students who are studying international organizations and who have already had one or more courses on international and/or European law.

Cases and Materials on the Law of Torts - George C. Christie 2004

Covers the evolution of the basic building blocks of modern tort law. Includes revised chapters on product liability, insurance, and non-tort alternatives. Minimally edited cases make this edition a good vehicle for teaching first-year students the essential techniques of case analysis and legal method. Includes chapters on negligence, causation and plaintiff's conduct as a contributing cause, nuisance, misrepresentation and tortious interference with contract and prospective contract, false imprisonment and misuse of legal process, constitutional torts, and immunities.

Textbook on International Law - Martin Dixon 2007-07-19

The 'Textbook on International Law' provides a concise and accessible exposition of the key areas of international law for the student. This edition has been updated to include new material on the use of force, the International Criminal Court, and terrorism.

The Law and Policy of the World Trade Organization - Peter Van den Bossche 2005-06-10

This is primarily a textbook for graduate and upper-level undergraduate students of law. However, practising lawyers and policy-makers who are looking for an introduction to WTO law will also find it invaluable. The book covers both the institutional and substantive law of the WTO. While the treatment of the law is often quite detailed, the main aim of this textbook is to make clear the basic principles and underlying logic of WTO law and the world trading system. Each section contains questions and assignments, to allow students to assess their understanding and develop useful practical skills. At the end of each chapter there is a helpful summary, as well as an exercise on specific, true-to-life international trade problems.

Environmental Law - Elizabeth Fisher 2019-06-06

Environmental Law: Text, Cases, and Materials has been designed to provide students with everything they need to approach the subject with confidence. Experts in the area, the authors combine clear and insightful commentary with carefully chosen extracts from UK and international sources to offer students a well-rounded view of the subject area. Covering a broad range of topics, the authors introduce discussion on controversies and debates and encourage readers to engage in critical reflection by posing regular discussion questions throughout the text. Further reading suggestions point students towards useful resources, guiding their independent research. Online Resources This book is also accompanied by online updates collated by the authors, helping students to stay well-informed.

Sealy and Hooley's Commercial Law - David (Professor of Common Law Fox, University of Edinburgh)

2020-07-02

Sealy and Hooley's Commercial Law: Text, Cases, and Materials provides students with an extensive and valuable range of extracts from key cases and writings in this most dynamic field of law. The authors' expert commentary and questions enliven each topic while emphasizing the practical application of the law in its business context. Five renowned experts in the field continue the legacy of Richard Hooley and Len Sealy, capturing the essence of this fascinating topic at a time of significant legislative, regulatory, and political change.

Law and Religion - Leslie C. Griffin 2010-03-10

Designed to be used either as a primary text or with any Law and Religion or First Amendment text, Law and Religion: Cases in Context presents descriptions and discussions of the landmark cases in law and religion and the First Amendment. Cases are selected from the leading religion and First Amendment casebooks, and the authors provide insights into the significance of each while revealing its context and, for many, details about what happened after the case was concluded. This unique text will intrigue students and engage their interest with: - Accessible prose and interesting illustrations; - Cases that involve issues that continue to confound the courts: creation science and evolution; public religious symbols like the cross and the crèche; private religious clothing like the yarmulke and the khimar; tax policy and religion; - Engaging characters, such as: Guy Ballard, who told customers that he was chosen by Saint Germain as a divine messenger and possessed supernatural healing powers that they could purchase; Officer and Doctor Simcha Goldman, who wore a yarmulke to the psychology clinic until an irritated military attorney complained to Goldman's superiors that the yarmulke was not permitted under Air Force regulations; Kimberlie Webb, a Philadelphia police officer who lost her efforts to wear a headscarf while in uniform and on duty; Ronald Rosenberger, who successfully challenged the University of Virginia's denial of funding to his evangelical publication, Wide Awake; - Insights from leading law and religion scholars of diverse professional, religious, geographical, and institutional backgrounds. In her role as editor, Leslie C. Griffin, who holds a Ph.D. in Religious Studies from Yale University as well as a J.D. from Stanford Law School, has brought together an impressive group of contributors to create Law and Religion: Cases in Context.

The book also addresses key substantive topics in international law, with reference to important contemporary foreign policy issues, such as (i) international human rights, (ii) the law of the sea, (iii) international environmental law, (iv) the use of force and the law of armed conflict, and (v) international criminal law. Key Features: New co-author Duncan Hollis of Temple Law School joins Stanford Law School's Allen Weiner as the active authors of the book. New discussions of major international developments, including the law governing the use of force [e.g., cyber operations and the military campaign against the Islamic State (ISIS)], nonproliferation (e.g., the Iranian and North Korean nuclear crises), the law of the sea (e.g.,

disputed maritime claims in the South China Sea), and international environmental law (e.g., the conclusion of the Paris Agreement). New case study in Chapter 1 focused on the international response to the rise of ISIS. Inclusion of extended excerpts from a number of major recent Supreme Court decisions related to international law, including *Bond v. United States* (on fundamental principles of federalism and the treaty

power under Article VI of the Constitution), *Zivotofsky v. Kerry* (on the separation of powers between Congress and the President in the field of foreign affairs), and *Kiobel v. Royal Dutch Petroleum Co.* (on the Alien Tort Statute). Adopts a modern, conceptual approach to the presentation of materials on statehood (including Palestinian claims to statehood), international organizations, and international dispute resolution.
