Long Walk to Freedom - Nelson

Mandela 2008-03-11

The book that inspired the major new motion picture *Mandela: Long Walk to Freedom*. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South

Africa's antiapartheid

movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

**Global Players and the Indian Car Industry - Jatinder Singh**  
2018-09-03

This book is one of the first critical analyses of the automobile industry in India. It studies the sector in general and the passenger car industry in particular, and provides valuable insights into the operation of Foreign Direct Investment (FDI) companies in a technology-intensive industry under changing economic regimes. The volume underlines the influence of the changing

nature of foreign investment, the impact of economic reforms, technology regimes and industrial policy on growth, structural changes and development. It offers a detailed account of the trade performance of manufacturers in India's passenger car industry. It also looks at successful cases to draw policy lessons towards encouraging quality FDI and developing India as a base for world production. A useful addition to industry studies in India, this book with its wide coverage and contemporary analyses will interest scholars and researchers of economics, Indian economy and industrial

policy, industrial economics, automobile industry and manufacturing sector, development economics and international economics. It will also appeal to policymakers, practitioners and industrial associations.

*Green Chemical Reactions* - Pietro Tundo 2008-05-22  
Green Chemistry is an inventive science based on fundamental research towards the development of new sustainable chemical processes. There is a great need to create a new type

of chemistry focused on a new production system, in order to prepare the younger generation to get a greener future. The globalization pushes the chemistry community to adopt ethical issues. In this prospect Green Chemistry can achieve the approval of the society by teaching students to be confident in science and at the same time by convincing people that it is possible to attain technological development with respect and care for the environment we live in. This is why it is of foremost importance that education and fundamental research remain strictly connected, so that democracy and development can grow and

progress side by side. This book has been prepared to extend the knowledge of Green Chemistry not disregarding, however, the industrial interest. It is the result of the effort to put together and share the expertise of leading practitioners in the field of Green Chemistry. The Interuniversity Consortium 'Chemistry for the Environment' is a non-profit organisation established in 1993 in Italy. At present it includes 31 member universities and 80 research units.

Glimpses of World History -

Jawaharlal Nehru 2004-05-07

A Simple Account of the World

History 'Glimpses of the World

History' is an account of the

progress of the world through

centuries and ages. This book is

a collection of letters that

Jawaharlal Nehru wrote to his

daughter Indira when he was in

various Indian prisons for three

years. The letters were meant

to introduce her to the world

and its history. In the first few

letters, Nehru expresses his

sadness for not being able to be

around his daughter and give

her the materialistic gifts that other parents could but he promises to give her a gift that he could afford; in the form of knowledge and wisdom through words that come from the very core of his heart. Nehru wrote 196 letters and covered the history of mankind from 6000 BC to the time he was writing the letters. *Tales of Empires* A major part of these letters talks extensively about the rise and fall of empires around the world and development of civilizations as well. Nehru talks about the histories of every significant place ranging from Greece in the far West to China in the east. The book talks about the wars that were fought during

these years and the greatest revolutions that overthrew established dynasties. Nehru has also written about the legendary leaders and kings who have walked the earth including right from Alexander the Great to Mahatma Gandhi. A Different View Unlike many other books that talk more or less about particular history of specific cultures, this book is a panoramic view of the history of mankind. It talks about the barbarians as well as the well behaved societies in the far west. Nehru has written this book with lot of wit which makes it an interesting read.
