Closing the Golden Door - Anna Pegler-Gordon 2021-10-28

The immigration station at New York's Ellis Island opened in 1892 and remained the largest U.S. port for immigrant entry until World War I. In popular memory, Ellis Island is typically seen as a gateway for Europeans seeking to join the "great American melting pot." But as this fresh examination of Ellis Island's history reveals, it was also a major site of immigrant detention and exclusion, especially for Chinese, Japanese, and other Asian travelers and maritime laborers who reached New York City from Europe, the Americas and the Caribbean, and even within the United States. And from 1924 to 1954, the station functioned as a detention camp and deportation center for a range of people deemed undesirable. Anna Pegler-Gordon draws on immigrants' oral histories and memoirs, government archives, newspapers, and other sources to reorient the history of migration and exclusion in the United States. In chronicling the circumstances of those who passed through or were detained at Ellis Island, she shows that Asian exclusion was both larger in scope and more limited in force than has been previously recognized.

Geographies of Mobilities: Practices, Spaces, Subjects - Dr Peter Merriman 2012-11-28

Over the past fifteen years or so, there has been a widespread and increasing fascination with the theme of mobility across the social sciences and humanities. Of course, geographers have always had an interest in mobility, but as yet they have not viewed this in the same 'mobility turn' as in other disciplines where it has been used to critique the standard approaches to the subjects. This text brings together leading academics to provide a revitalised 'geography of mobilities' informed by this wider 'mobility turn'. It makes connections between the seemingly disparate sub-disciplinary worlds of migration, transport and tourism, suggesting that each has much to learn from each other through the ontological and epistemological concern for mobility.

American Passage - Vincent J. Cannato 2009-06-09

"By bringing us the inspiring and sometimes unsettling tales of Ellis Island, Vincent Cannato's American Passage helps us understand who we are as a nation." — Walter Isaacson The remarkable saga of America's landmark port of entry, from immigration post to deportation center to mythical icon. For most of New York's early history, Ellis Island had been an obscure little island that barely held itself above high tide. Today the small island stands alongside Plymouth Rock in our nation's founding mythology as the place where many of our ancestors first touched American soil. American Passage captures a time and a place unparalleled in American immigration and history, and articulates the dramatic and bittersweet accounts of the immigrants, officials, interpreters, and social reformers who all played an important role in Ellis Island's chronicle. In this sweeping, often heart-wrenching epic, Vincent J. Cannato reveals that the history of Ellis Island is ultimately the story of what it means to be an American.

West Berlin 1962 – A veteran of the Italian campaign in 1944 and now an intelligence analyst working for an obscure department within MI6, Harry Male's job is to separate fact from fiction; truth from lies. But Harry is a tortured, damaged, chain-smoking automaton with chronic depression, persistent anxiety, crushing self-doubt and multiple inadequacies, real and imagined. For eighteen years, he has endured a recurring nightmare, haunted by something terrible that happened when, as a twenty-four year old Lieutenant, he went to the aid of an Italian family in desperate need. When high-ranking East German defector Klaus Bergmann escapes to the West, it sets in motion a chain of events that spiral rapidly out of Harry's control forcing him finally to face his trauma and seek out his own truth.

Not Fit to Stay - Sarah Isabel Wallace 2017-01-31

In the early 1900s, panic over the arrival of South Asian immigrants swept up and down the west coast of North America. While racism and fear of labour competition were at the heart of this furor, Not Fit to Stay reveals that public leaders – including physicians, union leaders, civil servants, journalists, and politicians – latched on to unsubstantiated public health concerns to justify the exclusion of South Asians from Canada and the United States.

America for Americans - Erika Lee 2019-11-26

This definitive history of American xenophobia is "essential reading for anyone who wants to build a more inclusive society" (Ibram X. Kendi, New York Times bestselling author of *How to Be an Antiracist*). The United States is known as a nation of immigrants. But it is also a nation of xenophobia. In *America for Americans*, Erika Lee shows that an irrational fear, hatred, and hostility toward immigrants has been a defining feature of our nation from the colonial era to the Trump era. Benjamin Franklin ridiculed Germans for their "strange and foreign ways." Americans' anxiety over Irish Catholics turned xenophobia into a national political movement. Chinese immigrants were excluded, Japanese incarcerated, and Mexicans deported. Today, Americans fear Muslims, Latinos, and the so-called browning of America. Forcing us to confront this history, Lee explains how xenophobia works, why it has endured, and how it threatens America. Now updated with an epilogue reflecting on how the coronavirus pandemic turbocharged xenophobia, *America for Americans* is an urgent spur to action for any concerned citizen.

Angel Island - Erika Lee 2010-08-30

From 1910 to 1940, the Angel Island immigration station in San Francisco served as the processing and detention center for over one million people from around the world. The majority of newcomers came from China and Japan, but there were also immigrants from India, the Philippines, Korea, Russia, Mexico, and over seventy other countries. The full history of these immigrants and their experiences on Angel Island is told for the first time in this landmark book, published to commemorate the immigration station's 100th anniversary. Based on extensive new research and oral histories, *Angel Island: Immigrant Gateway to America* examines the great diversity of immigration through Angel Island: Chinese "paper sons," Japanese picture brides, Korean refugee students, South Asian political activists, Russian and Jewish refugees, Mexican families, Filipino workers, and many others. Together, their stories offer a more complete and complicated history of immigration to America than we have ever known. Like its counterpart on Ellis Island, the immigration station on Angel Island was one of the country's main ports of entry for immigrants in the early twentieth century. But while Ellis Island was mainly a processing center for European immigrants, Angel Island was designed to detain and exclude immigrants from Asia. The immigrant experience on Angel Island—more than any other site—reveals how U.S. immigration policies and their hierarchical treatment of immigrants according to race, ethnicity, class, nationality, and gender played out in daily practices and decisions at the nation's borders with real consequences on immigrant lives and on the country itself. *Angel Island: Immigrant Gateway to America* is officially sponsored by the Angel Island Immigration Station.

Angel Island - Erika Lee 2010-08-30

From 1910 to 1940, over half a million people sailed through the Golden Gate, hoping to start a new life in America. But they did not all disembark in San Francisco; instead, most were ferried across the bay to the Angel Island Immigration Station. For many, this was the real gateway to the United States. For others, it was a prison and their final destination, before being sent home. In this landmark book, historians Erika Lee and Judy Yung (both descendants of immigrants detained on the island) provide the first comprehensive history of the Angel Island Immigration Station. Drawing on extensive new research, including immigration records, oral histories, and inscriptions on the barrack walls, the authors produce a sweeping yet intensely personal history of Chinese "paper sons," Japanese picture brides, Korean students, South Asian political activists, Russian and Jewish refugees, Mexican families, Filipino repatriates, and many others from around the world. Their experiences on Angel Island reveal how America's discriminatory immigration policies changed the lives of immigrants and transformed the nation. A place of heartrending history and

breathtaking beauty, the Angel Island Immigration Station is a National Historic Landmark, and like Ellis Island, it is recognized as one of the most important sites where America's immigration history was made. This fascinating history is ultimately about America itself and its complicated relationship to immigration, a story that continues today.

The Deportation Express - Ethan Blue 2021-10-19

A history of the United States' systematic expulsion of "undesirables" and immigrants, told through the lives of the passengers who travelled from around the world, only to be locked up and forced out aboard America's first deportation trains. The United States, celebrated as a nation of immigrants and the land of the free, has developed the most extensive system of imprisonment and deportation that the world has ever known. The Deportation Express is the first history of American deportation trains: a network of prison railroad cars repurposed by the Immigration Bureau to link jails, hospitals, asylums, and workhouses across the country and allow forced removal with terrifying efficiency. With this book, historian Ethan Blue uncovers the origins of the deportation train and finds the roots of the current moment, as immigrant restriction and mass deportation once again play critical and troubling roles in contemporary politics and legislation. A century ago, deportation trains made constant circuits around the nation, gathering so-called "undesirable aliens"—migrants disdained for their poverty, political radicalism, criminal conviction, or mental illness—and conveyed them to ports for exile overseas. Previous deportation procedures had been violent, expensive, and relatively ad hoc, but the railroad industrialized the expulsion of the undesirable. Trains provided a powerful technology to divide "citizens" from "aliens" and displace people in unprecedented numbers. Drawing on the lives of migrants and the agents who expelled them, *The Deportation Express* is history told from aboard a deportation train. By following the lives of selected individuals caught within the deportation regime, this book dramatically reveals how the forces of state exclusion accompanied epic immigration in early twentieth-century America. These are the stories of people who traveled from around the globe, only to be locked up and cast out, deported through systems that bound the United States together, and in turn, pulled the world apart. Their journey would be followed by millions more in the years to come.

Sun is ready to leave his village in China for America, the place known as Gum Saan, Gold Mountain. His father warns him, though, that passage will not be easy. Because of the 1882 Chinese Exclusion Act, new immigrants like Sun are detained at Angel Island until they are called to take a difficult oral exam before they can "land" - leave Angel Island and go ashore. On the boat, Sun had studied maps of his village and memorized facts about his ancestors. But as the weeks pass in detainment, the map's compass points swirl in his memory, and Sun worries that he will lose his direction and be turned away. The oil paintings are rich with historical details in this vivid recounting, based on the author's father-in-law's experiences, of a disturbing chapter in Chinese American history.

Maritime Mobilities in Anglophone Literature and Culture - Alexandra Ganser 2023-03-25

This open access edited collection explores various aspects of how oceanic im/ mobilities have been framed and articulated in the literary and cultural imagination. It covers the entanglements of maritime mobility and immobility as they are articulated and problematized in selected literature and cultural forms from the early modern period to the present. In particular, it brings cultural mobility studies into conversation with the maritime and oceanic humanities. The contributors examine the interface between the traditional Eurocentric imagination of the sea as romantic and metaphorical, and the materiality of the sea as a deathbed for racialized and illegalized humans as well as non-human populations

Passages to America - Emmy E. Werner 2011

More than twelve million immigrants, many of them children, passed through Ellis Island's gates between 1892 and 1954. Children also came through the "Guardian of the Western Gate," the detention center on Angel Island in California that was designed to keep Chinese immigrants out of the United States. Based on the oral histories of fifty children who came to the United States before 1950, this book chronicles their American odyssey against the backdrop of World Wars I and II, the rise and fall of Hitler's Third Reich, and the hardships of the Great Depression. Ranging in age from four to sixteen years old, the children hailed from Northern, Central, Eastern, and Southern Europe; the Middle East; and China. Across ethnic lines, the child immigrants' life stories tell a remarkable tale of human resilience. The sources of family and community support that they relied on, their educational aims and accomplishments, their hard work, and their optimism about the future are just as crucial today for the new immigrants of the twenty-first century. These personal narratives offer unique perspectives on the psychological experience of being an immigrant child and its impact on later development and well-being. They chronicle the joys and sorrows, the aspirations and achievements, and the challenges that these small strangers faced while becoming grown citizens.
