

Chapter 18 Section 1 Imperialism America D Reading

As recognized, adventure as with ease as experience virtually lesson, amusement, as with ease as bargain can be gotten by just checking out a ebook **Chapter 18 Section 1 Imperialism America D Reading** then it is not directly done, you could receive even more something like this life, in relation to the world.

We provide you this proper as well as easy pretension to get those all. We provide Chapter 18 Section 1 Imperialism America D Reading and numerous book collections from fictions to scientific research in any way. in the midst of them is this Chapter 18 Section 1 Imperialism America D Reading that can be your partner.

American Pageant - David M. Kennedy
2015-01-01
THE AMERICAN PAGEANT enjoys a reputation as one of the most popular, effective, and entertaining texts on American history. The

colorful anecdotes, first-person quotations, and trademark wit bring American history to life. The 16th edition includes a major revision of Part Six (the period from 1945 to the present), reflecting recent

scholarship and providing greater thematic coherence. The authors also condensed and consolidated material on the Wilson presidency and World War I (formerly Chapters 29 and 30) into a new single chapter. A new feature, "Contending Voices," offers paired quotes from original historical sources, accompanied by questions that prompt students to think about conflicting perspectives on controversial subjects. Additional pedagogical aids make THE AMERICAN PAGEANT accessible to students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present additional primary sources, scholarly debates, and key historical figures for analysis. Available in the following options: THE AMERICAN PAGEANT, Sixteenth Edition (Chapters 1-41); Volume 1: To 1877 (Chapters 1-22); Volume 2: Since 1865 (Chapters 22-41). Important Notice: Media

content referenced within the product description or the product text may not be available in the ebook version.

Cultural Imperialism - Bernd Hamm
2005

This book offers a diverse range of essays on the state of current research, knowledge, and global political action and debate on cultural imperialism.

Sanctions as War - 2021-12-20
Sanctions as War is the first critical analysis of economic sanctions from a global perspective. Featuring case studies from 11 sanctioned countries and theoretical essays, it will be of immediate interest to those interested in understanding how sanctions became the common sense of American foreign policy.

The American Yawp - Joseph L. Locke
2019-01-22

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric

yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers

narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp

gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.
American Imperialism - Adam Burns
2017-01-17

Provides a critical re-evaluation of US territorial expansionism and imperialism from 1783 to the present. The United States has been described by many of its foreign and domestic critics as an empire. Providing a wide-ranging analysis of the United States as a territorial, imperial power from its foundation to the present day, this book explores the United States acquisition or long-term occupation of territories through a chronological perspective. It begins by exploring early continental expansion, such as the purchase of the Louisiana Territory from Napoleon Bonaparte in 1803, and traces US imperialism through to the controversial ongoing presence of US forces at Guantanamo Bay in Cuba. The

book provides fresh insights into the history of US territorial expansion and imperialism, bringing together more well-known instances (such as the purchase of Alaska) with those less-frequently discussed (such as the acquisition of the Guano Islands after 1856). The volume considers key historical debates, controversies and turning points, providing a historiographically-grounded re-evaluation of US expansion from 1783 to the present day. Key Features: Provides case studies of different examples of US territorial expansion/imperialism, and adds much-needed context to ongoing debates over US imperialism for students of both History and Politics. Analyses many of the better known instances of US imperialism (for example, Cuba and the Philippines), while also considering often-overlooked examples such as the US Virgin Islands, American Samoa and Guam. Explores American imperialism from a

aterritorial acquisition/long-term occupationa viewpoint which differentiates it from many other books that instead focus on informal and economic imperialismDiscusses the presence of the US in key places such as Guantanamo Bay, the Panama Canal Zone and the Arctic

U.S. History - P. Scott Corbett
2017-12-19

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history,

considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Cooperation and Hegemony in US-Latin American Relations - Andrew R.

Tillman 2016-03-29

This edited volume revisits the idea of the Western Hemisphere. First articulated by Arthur P. Whitaker in 1954 but with origins in the earlier work of Herbert E. Bolton, it is the idea that "the peoples of this Hemisphere stand in a special relationship to one another which sets them apart from the rest of the word" (Whitaker, 1954). For most scholars of US-Latin American relations, this is a curious concept. They often conceptualize US-Latin American relations through the prism of realism and interventionism. While this volume does not deny that the United States has often acted as an

imperial power in Latin America, it is unique in that it challenges scholars to re-think their preconceived notions of inter-American relations and explores the possibility of a common international society for the Americas, especially in the realm of international relations. Unlike most volumes on US-Latin American relations, the book develops its argument in an interdisciplinary manner, bringing together different approaches from disciplines including international relations, global and diplomatic history, human rights studies, and cultural and intellectual history.

Overthrow - Stephen Kinzer 2007-02-06
Offers a narrative history of the role of the U.S. in a series of coups, revolutions, and invasions that toppled fourteen foreign governments, from the overthrow of the Hawaiian monarchy in 1893 to the 2003 war in Iraq, and examines the sometimes disastrous long-term

repercussions of such operations.
Reprint.

Black Skin, White Masks - Frantz Fanon 2008

Fanon, born in Martinique and educated in France, is generally regarded as the leading anti-colonial thinker of the 20th century. His first book is an analysis of the impact of colonial subjugation on the black psyche. It is a very personal account of Fanon's experience being black: as a man, an intellectual, and a party to a French education.--

Neo-Colonialism - Kwame Nkrumah
2022-04-09

This is the book which, when first published in 1965, caused such an uproar in the US State Department that a sharp note of protest was sent to Kwame Nkrumah and the \$25million of American "aid" to Ghana was promptly cancelled.

America's History - James A. Henretta
2011-01-05

With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge new scholarship, the seventh edition of America's History is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths – balance, comprehensiveness, and explanatory power – as well as its outstanding visuals and extensive primary-source features, authors James Henretta, Rebecca Edwards, and Robert Self have shaped America's History into the ideal resource for survey classes.

History of the Opium Problem - Hans Derks
2012-04-18

Covering a period of about four centuries, this book demonstrates the economic and political components of the opium problem. As a mass product, opium was introduced in India and Indonesia by the Dutch in the 17th century. China suffered the most, but was also the first to get rid of the opium problem around 1950.

Friendly Fascism - Gross Bertram
2020-07-19

The 8th November 2016 marked a startling new era in American political life. After the creeping ascent of Right wing authoritarian parties in the UK and Europe Donald Trump's victory in the presidential election brought an alarming form of "e;alt-right"; neo-conservatism into the American political mainstream. Many aspects of this descent into the darkness of fascism was predicted by Bertram Gross in *Friendly Fascism*, a provocative and original critique of a subtle yet growing fascism in American political

life. Gross shows that the chronic problems faced by the U.S. in the late twentieth century required increasing collusion between big business and big government to manage society in the interests of the privileged and powerful. The resulting "e;friendly fascism"e;; Gross suggests, lacks the dictatorships, public spectacles and overt brutality of 20th century fascism, but has at its root the same denial of individual freedoms and democratic rights. No one who cares about the future of democracy can afford to ignore the frightening realities of Friendly Fascism.

Adventures in Domesticity - Sharon Harrow 2004

Against a background of 18th-century British colonial wealth and exploitation, Professor Harrow presents the colonial experience as a field against which the interior landscape of the domestic novel - and the domestic ideal - developed and

matured, culminating in the Victorian period.

How to Hide an Empire - Daniel Immerwahr 2019-02-19

Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 | A 2019 NPR Staff Pick A pathbreaking history of the United States' overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states. And we are also familiar with the idea that the United States is an "empire," exercising power around the world. But what about the actual territories—the islands, atolls, and archipelagos—this country has governed and inhabited? In *How to Hide an Empire*, Daniel Immerwahr tells the fascinating story of the United States outside the United States. In crackling, fast-paced prose, he reveals forgotten episodes that cast American history in a new light. We travel to the Guano

Islands, where prospectors collected one of the nineteenth century's most valuable commodities, and the Philippines, site of the most destructive event on U.S. soil. In Puerto Rico, Immerwahr shows how U.S. doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U.S. Congress. In the years after World War II, Immerwahr notes, the United States moved away from colonialism. Instead, it put innovations in electronics, transportation, and culture to use, devising a new sort of influence that did not require the control of colonies. Rich with absorbing vignettes, full of surprises, and driven by an original conception of what empire and globalization mean today, How to Hide an Empire is a major and compulsively readable work of history.

The Influence of Sea Power Upon

History, 1660-1783 - Alfred Thayer Mahan 1911

Culture and Imperialism - Edward W. Said 2012-10-24

A landmark work from the author of Orientalism that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from Mansfield Park to Heart of Darkness and Aida. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition,

Culture and Imperialism reopens the dialogue between literature and the life of its time.

The New Imperialism - David Harvey
2005-02-24

People around the world are confused and concerned. Is it a sign of strength or of weakness that the US has suddenly shifted from a politics of consensus to one of coercion on the world stage? What was really at stake in the war on Iraq? Was it all about oil and, if not, what else was involved? What role has a sagging economy played in pushing the US into foreign adventurism and what difference does it make that neo-conservatives rather than neo-liberals are now in power? What exactly is the relationship between US militarism abroad and domestic politics? These are the questions taken up in this compelling and original book. Closely argued but clearly written, 'The New Imperialism' builds a conceptual

framework to expose the underlying forces at work behind these momentous shifts in US policies and politics. The compulsions behind the projection of US power on the world as a 'new imperialism' are here, for the first time, laid bare for all to see. This new paperback edition contains an Afterword written to coincide with the result of the 2004 American presidential election.

The Tragedy of American Science -

Clifford D. Conner 2020-05-05

A look at the destructive history of science-for-profit, including its toll on the US pandemic response, by the author of A People's History of Science. Despite a facade of brilliant technological advances, American science has led humanity to the brink of interrelated disasters. In *The Tragedy of American Science*, historian of science Clifford D. Conner describes the dual processes by which this history has unfolded since the Second World War,

addressing the corporatization and the militarization of science in the US. He examines the role of private profit considerations in determining the direction of scientific inquiry—and the ways those considerations have dangerously undermined the integrity of sciences impacting food, water, air, medicine, and the climate. In addition, he explores the relationship between scientific industries and the US military, discussing the innumerable financial and human scientific resources that have been diverted from other critical areas in order to further military aggrandizement and technological development. While the underlying problems may appear intractable, Conner compellingly argues that replacing the current science-for-profit system with a science-for-human-needs system is not an impossible utopian dream—and the first step to a better future is grappling with the mistakes of the

past.

Teaching American History in a Global Context - Carl J. Guarneri 2015-07-17

This comprehensive resource is an invaluable teaching aid for adding a global dimension to students' understanding of American history. It includes a wide range of materials from scholarly articles and reports to original syllabi and ready-to-use lesson plans to guide teachers in enlarging the frame of introductory American history courses to an international view. The contributors include well-known American history scholars as well as gifted classroom teachers, and the book's emphasis on immigration, race, and gender points to ways for teachers to integrate international and multicultural education, *America in the World*, and *the World in America* in their courses. The book also includes a 'Views from Abroad' section that examines problems and strategies for teaching American history to foreign

audiences or recent immigrants. A comprehensive, annotated guide directs teachers to additional print and online resources.

Things Fall Apart - Chinua Achebe
2013-04-25

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*.

A History of the United States - John

Richard Alden 1962

To The Person Sitting In Darkness -
Mark Twain 2020-07-14

"To the Person Sitting in Darkness" is an essay by American author Mark Twain published in the *North American Review* in February 1901. It is a satire exposing imperialism as revealed in the Boxer Uprising and its aftermath, the Boer War, and the Philippine-American War expressing his anti-Imperialist views. It mentions the historical figures Emilio Aguinaldo, William McKinley, Joseph Chamberlain, William Scott Ament and others, and fueled the Twain-Ament indemnities controversy.
The New Imperialism - David Harvey
2005-02-24

People around the world are confused and concerned. Is it a sign of strength or of weakness that the US has suddenly shifted from a politics of consensus to one of coercion on the world stage? What was really at

stake in the war on Iraq? Was it all about oil and, if not, what else was involved? What role has a sagging economy played in pushing the US into foreign adventurism and what difference does it make that neo-conservatives rather than neo-liberals are now in power? What exactly is the relationship between US militarism abroad and domestic politics? These are the questions taken up in this compelling and original book. Closely argued but clearly written, 'The New Imperialism' builds a conceptual framework to expose the underlying forces at work behind these momentous shifts in US policies and politics. The compulsions behind the projection of US power on the world as a 'new imperialism' are here, for the first time, laid bare for all to see. This new paperback edition contains an Afterword written to coincide with the result of the 2004 American presidential election.

American Holocaust - David E. Stannard 1993-11-18

This controversial treatise focuses on the social and cultural issues involved in the invasion of the Americas by European nations. It describes the suppression or extermination of native cultures, and focuses on the cultural and ideological principles behind the colonization efforts.

Discourse on Colonialism - Aimé Césaire 2000

"This classic work, first published in France in 1955, profoundly influenced the generation of scholars and activists at the forefront of liberation struggles in Africa, Latin America, and the Caribbean. Nearly twenty years later, when published for the first time in English, *Discourse on Colonialism* inspired a new generation engaged in the Civil Rights, Black Power and antiwar movements."--

Media Imperialism - Oliver Boyd-

Barrett 2019-08-19

This book brings together researchers in international communication and global media studies to revisit and advance the concept of media imperialism for 21st century research. Using cases across the globe, this volume is essential for understanding communications media in unequal economic, geopolitical and cultural-ideological power relations.

Imperialism - Vladimir Lenin 1939
The pamphlet here presented to the reader was written in the spring of 1916, in Zurich. In the conditions in which I was obliged to work there I naturally suffered somewhat from a shortage of French and English literature and from a serious dearth of Russian literature. However, I made use of the principal English work on imperialism, the book by J. A. Hobson, with all the care that, in my opinion, work deserves. This pamphlet was written with an eye to the tsarist censorship. Hence, I was

not only forced to confine myself strictly to an exclusively theoretical, specifically economic analysis of facts, but to formulate the few necessary observations on politics with extreme caution, by hints, in an allegorical language—in that accursed Aesopian language—to which tsarism compelled all revolutionaries to have recourse whenever they took up the pen to write a “legal” work. It is painful, in these days of liberty, to re-read the passages of the pamphlet which have been distorted, cramped, compressed in an iron vice on account of the censor. That the period of imperialism is the eve of the socialist revolution; that social-chauvinism (socialism in words, chauvinism in deeds) is the utter betrayal of socialism, complete desertion to the side of the bourgeoisie; that this split in the working-class movement is bound up with the objective conditions of

imperialism, etc.—on these matters I had to speak in a “slavish” tongue, and I must refer the reader who is interested in the subject to the articles I wrote abroad in 1914–17, a new edition of which is soon to appear. In order to show the reader, in a guise acceptable to the censors, how shamelessly untruthful the capitalists and the social-chauvinists who have deserted to their side (and whom Kautsky opposes so inconsistently) are on the question of annexations; in order to show how shamelessly they screen the annexations of their capitalists, I was forced to quote as an example—Japan! The careful reader will easily substitute Russia for Japan, and Finland, Poland, Courland, the Ukraine, Khiva, Bokhara, Estonia or other regions peopled by non-Great Russians, for Korea. I trust that this pamphlet will help the reader to understand the fundamental economic question, that of the economic

essence of imperialism, for unless this is studied, it will be impossible to understand and appraise modern war and modern politics.

Our World's Story - 1997

A People's History of the United States: The Civil War to the present
- Howard Zinn 2003

Ways of the World, Volume 1 - Robert W. Strayer 2015-09-25

Ways of the World is one of the most successful and innovative textbooks for world history. The brief-by-design narrative is truly global and focuses on significant historical trends, themes, and developments in world history. Authors Robert W. Strayer, a pioneer in the world history movement with years of classroom experience, along with new co-author Eric W. Nelson, a popular and skilled teacher, provide a thoughtful and insightful synthesis that helps students see the big

picture while teaching students to consider the evidence the way historians do.

Forbidden Bookshelf's Resistance in America Collection - Nancy Howell Lee
2017-06-13

From creeping capitalism to abortion to government corruption, these three books shed light on controversial topics that are too often left in the dark. Curated by NYU professor Mark Crispin Miller, the Forbidden Bookshelf series resurrects books from America's repressed history. All touching on bold and debated topics, these three books are more relevant today than ever. *Friendly Fascism*: Bertram Gross, a presidential adviser in the New Deal era, explores the insidious way that capitalist politics could subvert America's constitutional democracy. First published over three decades ago, this book predicted the threats and realities that occur when big business and big government become

bedfellows, while demonstrating how US citizens can build a truer democracy. *The Search for an Abortionist*: Nancy Howell Lee's eye-opening account reveals the dangerous and illegal options for women seeking an abortion before Roe v. Wade. Based on interviews with 114 women, this groundbreaking work takes an intimate look at the abortion process. *Dallas '63*: Peter Dale Scott exposes the deep state, an intricate network within the American government, linking Wall Street influence, corrupt bureaucracy, and the military-industrial complex. Since World War II, its power has grown unchecked, and nowhere has it been more apparent than at Dealey Plaza on November 22, 1963. Scott details the CIA and FBI's involvement in the JFK assassination, and shows how events like Watergate, the Iran-Contra affair, and 9/11 are all connected to this behind-the-scenes web of corruption.

The Rough Riders - Theodore Roosevelt
1899

Based on a pocket diary from the Spanish-American War, this tough-as-nails 1899 memoir abounds in patriotic valor and launched the future President into the American consciousness.

On Guerrilla Warfare - Mao Tse-tung
2012-03-06

The first documented, systematic study of a truly revolutionary subject, this 1937 text remains the definitive guide to guerrilla warfare. It concisely explains unorthodox strategies that transform disadvantages into benefits.

American Foreign Relations Since 1600
- Robert L. Beisner 2003

A thorough update of the standard bibliography of American foreign relations literature from colonial times to the present day. America has formed alliances, exchanged diplomats, traded goods and services, and fought wars with nations on every

continent but Antarctica. And people have written books, articles, reports, and papers by the thousands on these subjects. In American Foreign Relations since 1600, the 2002 president of the Society for Historians of American Foreign Relations, Robert Beisner, has worked with members of SHAFR to compile the most exhaustive survey of writing on American foreign relations ever published. Covering 400 years of American history, his team of editors--all top experts in the field--have referenced and annotated nearly 20,000 published and nonpublished works. It's all here, from the Mayflower Compact to the My Lai massacre, from the War of 1812 to the war on terrorism, from the pre-Revolutionary era to the post-Cold War world. - Nearly 20,000 fully annotated bibliographical entries on topics such as the Mexican Revolution, pan-Americanism, wartime diplomacy, the German threat, and

more - A preface clearly outlining the updated features of the book - Three analytical indexes to guide users to entry information, contributors, and significant individuals - Biographical studies on individuals such as John Barrett, William Jennings Bryan, and Theodore Roosevelt

International Banking 1870-1914 - Rondo Cameron 1992-03-12

This book, the product of a unique international scholarly collaboration sponsored jointly by the American Council of Learned Societies and the Soviet Academy of Sciences, provides a comprehensive survey on international banking from 1870 to 1914. In that period international investment reached dimensions previously unknown, and the banking systems of the world achieved a degree of internationalization without precedent. The book's authors, twenty-five scholars from fifteen countries, are the

acknowledged experts in their fields. They detail the origin and development of internationally oriented banks in each major country, and explain their role in foreign investment and industrial finance. They look at all areas of the world that were involved in international investment, either as investors, recipients of investment, or both. The definitive work on international banking from 1870 to 1914, this book will interest scholars and students in financial and banking history, bankers and economists in the financial industry, and general historians.

Hegemony or Survival - Noam Chomsky
2007-04-01

From the world's foremost intellectual activist, an irrefutable analysis of America's pursuit of total domination and the catastrophic consequences that are sure to follow. The United States is in the process of staking out not just the globe but

the last unarmed spot in our neighborhood—the heavens—as a militarized sphere of influence. Our earth and its skies are, for the Bush administration, the final frontiers of imperial control. In *Hegemony or Survival*, Noam Chomsky investigates how we came to this moment, what kind of peril we find ourselves in, and why our rulers are willing to jeopardize the future of our species. With the striking logic that is his trademark, Chomsky dissects America's quest for global supremacy, tracking the U.S. government's aggressive pursuit of policies intended to achieve "full spectrum dominance" at any cost. He lays out vividly how the various strands of policy—the militarization of space, the ballistic-missile defense program, unilateralism, the dismantling of international agreements, and the response to the Iraqi crisis—cohere in a drive for hegemony that ultimately threatens our survival. In

our era, he argues, empire is a recipe for an earthly wasteland. Lucid, rigorous, and thoroughly documented, *Hegemony or Survival* promises to be Chomsky's most urgent and sweeping work in years, certain to spark widespread debate.

Japanese and Chinese Immigrant

Activists - Josephine Fowler

2007-06-28

Japanese and Chinese immigrants in the United States have traditionally been characterized as hard workers who are hesitant to involve themselves in labor disputes or radical activism. How then does one explain the labor and Communist organizations in the Asian immigrant communities that existed from coast to coast between 1919 and 1933? Their organizers and members have been, until now, largely absent from the history of the American Communist movement. In *Japanese and Chinese Immigrant Activists*, Josephine Fowler brings us the first in-depth account

of Japanese and Chinese immigrant radicalism inside the United States and across the Pacific. Drawing on multilingual correspondence between left-wing and party members and other primary sources, such as records from branches of the Japanese Workers Association and the Chinese Nationalist Party, Fowler shows how

pressures from the Comintern for various sub-groups of the party to unite as an "American" working class were met with resistance. The book also challenges longstanding stereotypes about the relationships among the Communist Party in the United States, the Comintern, and the Soviet Party.
