It has been specially written to help CSEC students maximize their exam scores."

The Principles of Chemistry - Dmitry Ivanovich Mendeleev 1891

Whitaker's Books in Print - 1998

Breath, Eyes, Memory - Edwidge Danticat 2003-07-01

At the age of twelve, Sophie Caco is sent from her impoverished village of Croix-des-Rosets to New York, to be reunited with a

mother she barely remembers. There she discovers secrets that no child should ever know, and a legacy of shame that can be healed only when she returns to Haiti--to the women who first reared her. What ensues is a passionate journey through a landscape charged with the supernatural and scarred by political violence, in a novel that bears witness to the traditions, suffering, and wisdom of an entire people.

Animal Farm - George Orwell 1990

George Orwell's famous satire of the Soviet Union, in which "all animals are equal but some animals are more equal than others."

standards of education in those topics essential for development.

The Athenaeum - 1851

Greene's Protective Groups in Organic Synthesis - Peter G. M. Wuts
2012-12-20

The Fourth Edition of *Greene's Protective Groups in Organic Synthesis* continues to be an indispensable reference for controlling the reactivity of the most common functional groups during a synthetic sequence. This new edition incorporates the significant developments in the field since publication of the third edition in 1998, including... New protective groups such as the fluorosulfonyl family and the uniquely removable 2-methoxybenzenesulfonyl group for the protection of amines. New techniques for the formation and cleavage of existing protective groups, with examples to illustrate each new technique. Expanded coverage of the unexpected side reactions that occur with protective groups. New chart covering the selective deprotection of silyl ethers. 3,100 new references from the professional literature. The content is organized around the functional group to be protected, and ranges from the simplest to the most complex and highly specialized protective groups.

The Examiner - 1851

CSEC Chemistry - Keane Campbell 2016-05-27

How Tobacco Smoke Causes Disease - 2010

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential

mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Cambridge IGCSE® Biology Coursebook with CD-ROM - Mary Jones 2014-07-31

This edition of our successful series to support the Cambridge IGCSE Biology syllabus (0610) is fully updated for the revised syllabus for first examination from 2016. To Kill a Mockingbird - Harper Lee 2014-07-08

Voted America's Best-Loved Novel in PBS's The Great American Read Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, *To Kill a Mockingbird* has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.
