**Start Where You Are** - Chris Gardner 2009-05-12

Ever since the story of his transformation from homeless, single and struggling father to millionaire became known the world over, Chris Gardner --whose life story both inspired the movie *The Pursuit of Happyness* and became a #1 New York Times bestseller by the same name--has been inundated with two questions: "How Did You Do It" and "How Can I Do it Too?" Gardner's power-packed, transformational reply is the basis of this long-anticipated book. As a departure from standard self-help tomes that promise overnight riches and exclusive secrets for success, Gardner avoids any tilt toward magical thinking by staying with real issues and solutions impacting individuals in all walks of life. If you've had the rug pulled out from under you, or have been dealing with the loss of a home, a job, a health or financial crisis, or simply can't find the motivation to pursue new challenges, *Start Where You Are* abounds with life lessons that offer hope and provide a road map for starting anew. This is also the book for anyone ready to launch a personal, professional undertaking, or break generational cycles that hem in their potential. Taking stock of his own credos, including "The Cavalry Ain't Coming," "Find Your Button," and "Seek the Furthest Star"-- Gardner's 44 life lessons are earthy, soulful, and always accessible. With an array of stories from the author's own life, as well as from those he has known or admired, both famous and not, *Start Where You Are* has arrived just in time to embolden and encourage all of us, even in our era of great global change, reminding us of the infinite resources we already have in our collective pursuit of happyness, and spurring us on in only one direction - forward!

**Grit** - Angela Duckworth 2016-05-03

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among *Grit*'s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard

Thing Rule; and so much more. Wittingly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

**Drive** - Daniel H. Pink 2011-04-05

The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing*. Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.
