She filmed the singers and actresses and photographed the other contributors, so that each printed interpretation stands alongside at least one

image of its author, some are also accompanied by digital documentation.

Jazz - Ted Williams 2019-07

* A monumental publication, Jazz is the definitive look at nearly thirty years of jazz from a man and his camera, who enjoyed unique access as the history of jazz unfolded "This is the best, most comprehensive jazz book I've ever seen - and I've bought them all." -Terry O'Neill "In these photographs... the music plays on, never dated, always right on time." - John Leland, New York Times "Williams was an important part of jazz history, and this book belongs in the collection of anyone interested in the history of America's greatest art form." - DownBeat From the smoky backstage dressing rooms of New York and Chicago's pioneering jazz clubs to the acclaimed Jazz festivals that flourished to enthrall legions of

fans, Ted Williams' camera captured the intimacy and the wizardry of Jazz's greats as they perfected their art over more than three decades from the 1940s-1970s. From his unique access and perspective, Williams diligently accumulated a unique and largely unseen archive that documented some of the greatest musicians of the 20th century, the jazz and blues musicians who themselves not only inspired the greats such as Frank Sinatra but fired the aspirations and tastes of a new generation; The Beatles, The Rolling Stones, Bob Dylan and Eric Clapton among them. Williams caught them in the act of exploring and defining their careers and music - while ensuring impassioned audiences and atmospheric venues remained inseparable from the iconic history he was chronicling. From Miles Davis to Duke Ellington, Dizzy Gillespie to Stan Getz and Sarah Vaughan, Williams' camera witnessed genius at work, rest and play, with an honesty and clarity that few

photographers could replicate. When Williams died in 2009 at the age of 84, he left nearly 100,000 prints and negatives behind - many of which have never been seen before. Jazz, the first book dedicated to the jazz photography of Ted Williams, will highlight hundreds of these unseen jazz images and will be captioned throughout by his own memories along with commentary from some of the leading jazz historians and journalists working today. Artists include Dizzy Gillespie, Miles Davis, John Coltrane, Ray Charles, Charlie Parker, Sarah Vaughan, Thelonious Monk, Dinah Washington, Duke Ellington, Count Bassie, Billie Holiday, Ella Fitzgerald, Louis Armstrong, Tony Bennett, Mahalia Jackson, Buddy Rich, Julian "Cannonball" Adderly, Art Blakey, Benny Goodman, Charles Mingus, Quincy Jones, Sonny Rollins, Muddy Waters, Max Roach, Woody Herman and Wynton Marsalis

The Law of Shipbuilding Contracts - Simon Curtis

2014-04-03

This is the leading text on shipbuilding and marine construction, already widely used on a global basis by shipowners, shipbuilders and their commercial and legal advisers. It is now ten years since the last edition and much has changed in the world of shipbuilding since then, particularly in the period since 2008 which has seen numerous attempts by owners to renegotiate the prices and/or delivery dates of tonnage and an enormous increase in the level of "vessel rejection" and cancellation disputes. The Law of Shipbuilding Contracts examines the principles of English contract law as these apply to shipbuilding. This edition comments in detail upon the Shipbuilders' Association of Japan Form but now contrasts this with the NEWBUILDCON from BIMCO in 2007 and the China Maritime Arbitration Commission Forms from 2011 where these are significantly different. It also includes sections dealing with

agreements ancillary to the shipbuilding contract and conversion contracts. Overview of book: Since the last edition in 2002, China has become a major global exporter of newbuildings and new BIMCO shipbuilding contract form has been published. Although retaining the original format of commentary on the Japanese (SAJ) standard form shipbuilding contract, the new edition contrasts this with the BIMCO form and the recently published China Maritime Arbitration Commission (CMAC) form in order to provide a broad ranging analysis of this complex subject. The book details the principles of English contract law as these apply to international shipbuilding. It will, as in the previous editions, also include sections dealing with the guarantees and other agreements which support the shipbuilding contract and with ship conversion contracts

Essential reading for: -
Purchasers and charterers of newbuilding tonnage -
Shipbuilders and offshore

construction yards - Lawyers and insurers working in the maritime and offshore oil and gas sectors - Banks and other finance providers
