Latin Palaeography - Bernhard Bischoff 1990-04-12

This work, by the greatest living authority on medieval palaeography, offers the most comprehensive and up-to-date account in any language of the history of Latin script. It also contains a detailed account of the role of the book in cultural history from antiquity to the Renaissance, which outlines the history of book illumination. Designed as a textbook, it contains a full and updated bibliography. Because the volume sets the development of Latin script in its cultural context, it also provides an unrivalled introduction to the nature of medieval Latin culture. It will be used extensively in the teaching of latin palaeography, and is unlikely to be superseded.

The Kahans from Baku - Verena Dohrn 2022-05-17

The Kahans from Baku is the saga of a Russian Jewish family. Their story provides an insight into the history of Jews in the Imperial Russian economy, especially in the oil industry. The entrepreneur and family patriarch, Chaim Kahan, was a pious and enlightened man and a Zionist. His children followed in his footsteps in business as well as in politics, philanthropy, and love of books. The book takes us through their forced migration in times of war, revolution, and the twentieth century's totalitarian regimes, telling the story of fortune and misfortune of one cohesive family over four generations through Russia, Germany, Denmark, and France, and finally on to Palestine and the United States of America.

Rabindranath Tagore's Theatre - Abhijit Sen 2021-09-29

This book analyses Rabindranath Tagore's contribution to Bengali drama and theatre. Throughout this book, Abhijit Sen locates and studies Rabindranath's experiments with drama/theatre in the context of the theatre available in nineteenth-century Bengal, and explores the innovative strategies he adopted to promote his 'brand' of theatre. This approach finds validation in the fact that Rabindranath combined in himself the roles of author-actor-producer, who always felt that, without performance, his dramatic compositions fell short of the desired completeness. Various facets of his plays as theatre and his own role as a theatre-practitioner are the prime focus of this book. This book will be of great interest to students and scholars in Theatre and Performance Studies and most notably, those focusing on Indian Theatre and Postcolonial Theatre.

Rabindranath Tagore's Ideational Challenges - Bidyut Chakrabarty 2022-12-30

Rabindranath Tagore's Ideational Challenges is an analytical attempt to show that Rabindranath Tagore in his own unique style raised some troublesome sociocultural issues that constrained the attainment of

the politico-ideological objectives that the nationalists espoused. His creative texts were not merely literary articulation of the issues but were powerful responses to the prevalent conceptual parameters on which humanity rested. Although the poet did not appear to have made such a claim, his writings dealt with politico-ideologically innovative ideas about human diversity that naturally flourished in the Indian subcontinent. By approaching the pertinent sociocultural and politico-ideological issues from a literary perspective, the poet seemingly refashioned the dominant views on humanity. The selected novels and short stories in this book represent a distinct voice explicit in the politico-ideological message. Keeping this in view, each chapter is an articulation of the views that Rabindranath championed while contributing to ushering in a new vision based on his perception of well-entrenched sociocultural values of the time.

Phytotherapy in the Management of Diabetes and

Hypertension: Volume 3 - Mohamed Eddouks 2020-11-12

Medicinal plants are a source of potential therapeutic compounds. Phytotherapy can give patients long term benefits with less or no side effects. This is the third volume of the series which features monographs on selected natural products used to treat diabetes and hypertension. This volume brings 7 chapters contributed by 22 researchers, that cover updates on the biochemistry of diabetes, information on anti-diabetic and antihypertensive properties of oil bearing plants, herbs, fruits and vegetables, medicinal plants from Asia, as well as the medicinal value of specific plants such as, star apple (*Chrysophyllum cainito*). In terms of therapeutic agents, two reviews in this volume focus on terpenoids and glucagon-like peptide – 1 are also included. Each review covers different plant species or medicinal agents where applicable, providing readers essential information about their role in the treatment of diabetes and hypertension. Both academic and professional pharmacologists as well as clinicians will find comprehensive information on a variety of therapeutic agents in this volume.

Sociopolitical Thought of Rabindranath Tagore - Bidyut Chakrabarty 2020-11-02

Rabindranath Tagore, an icon of humanism and universalism who always privileged India's argumentative traditions, remains a source of inspiration for humanity. However, Tagore's social and political ideas appear to have received inadequate attention presumably because of the hegemonic influence of derivative Western ideas and thoughts. This is where Tagore stands out, not only as a poet but also a visionary who charted a course of action in tune with human betterment, cutting across all kinds of man-made barriers and customary restrictive social, economic and political practices. Socio-political Thought of Rabindranath Tagore presents a

comprehensive and detailed analysis of the socio-political, socio-economic and ideological preference of Tagore, with emphasis on nationalistic, inclusive and gender development ideas. It shows that Tagore's socio-political ideas continue to remain relevant not merely as a package for intellectual rejuvenation but also as a meaningful device for socio-economic transformation for the world.

An Economic History of India 1707–1857 - Tirthankar Roy 2021-09-10

This new edition of An Economic History of Early Modern India extends the timespan of the analysis to incorporate further research. This allows for a more detailed discussion of the rise of the British Empire in South Asia and gives a fuller context for the historiography. In the years between the death of the emperor Aurangzeb (1707) and the Great Rebellion (1857), the Mughal Empire and the states that rose from its ashes declined in wealth and power, and a British Empire emerged in South Asia. This book asks three key questions about the transition. Why did it happen? What did it mean? How did it shape economic change? The book shows that during these years, a merchant-friendly regime among warlord-ruled states emerged and state structure transformed to allow taxes and military capacity to be held by one central power, the British East India Company. The author demonstrates that the fall of warlord-ruled states and the empowerment of the merchant, in consequence, shaped the course of Indian and world economic history. Reconstructing South Asia's transition, starting with the Mughal Empire's collapse and ending with the great rebellion of 1857, this book is the first systematic account of the economic history of early modern India. It is an essential reference for students and scholars of Economics and South Asian History.

Isolated Islands in Medieval Nature, Culture and Mind - Gerhard Jaritz 2011-10-15

Focuses specifically on the concept and role of islands in the medieval world. The main characteristic of an

island is, of course, that of being isolated from the rest of the world; in geography by waters, in more abstract and symbolic meanings by other kinds of separating borders. Islands were the place 'on the other side', of difference, otherness and remoteness. As one of the articles in this volume puts it, islands are often depicted "as sites for extraordinary events and happenings".

Panacea's Daughters - Alisha Rankin 2013-03-19

Panacea's Daughters provides the first book-length study of noblewomen's healing activities in early modern Europe. Drawing on rich archival sources, Alisha Rankin demonstrates that numerous German noblewomen were deeply involved in making medicines and recommending them to patients, and many gained widespread fame for their remedies. Turning a common historical argument on its head, Rankin maintains that noblewomen's pharmacy came to prominence not in spite of their gender but because of it. Rankin demonstrates the ways in which noblewomen's pharmacy was bound up in notions of charity, class, religion, and household roles, as well as in expanding networks of knowledge and early forms of scientific experimentation. The opening chapters place noblewomen's healing within the context of cultural exchange, experiential knowledge, and the widespread search for medicinal recipes in early modern Europe. Case studies of renowned healers Dorothea of Mansfeld and Anna of Saxony then demonstrate the value their pharmacy held in their respective roles as elderly widow and royal consort, while a study of the long-suffering Duchess Elisabeth of Rochlitz emphasizes the importance of experiential knowledge and medicinal remedies to the patient's experience of illness.

Medicinal Plants of India (Vol. 3) - D. Jadhav 2009-01-01

The present book "Ethnobotany and Medicinal Plants of India and Nepal" is next publication in the series on Indian Medicinal Plants. The contributors of the papers in this book are well known Indian Ethnobotanists who have furnished authenticated data for further scientific and clinical tests. The information about the medicinal plants spread over 325 pages, covers various tribal communities from north to south and east to west and different ailments cured in nature's dispensary. Beautiful photographs of some medicinal plants have also been provided by some contributors. The information furnished in the book will be useful for controlling biopiracy, backing conservation strategies and facilitate better understanding of phytotherapy research.

Receptions of the Ancient Near East in Popular Culture and Beyond - Agnes Garcia-Ventura 2020-03-01

This book is an enthusiastic celebration of the ways in which popular culture has consumed aspects of the ancient Near East to construct new realities. The editors have brought together an impressive line-up of

scholars-archaeologists, philologists, historians, and art historians-to reflect on how objects, ideas, and interpretations of the ancient Near East have been remembered, constructed, reimagined, mythologized, or indeed forgotten within our shared cultural memories. The exploration of cultural memories has revealed how they inform the values, structures, and daily life of societies over time. This is therefore not a collection of essays about the deep past but rather about the stories we tell ourselves about ourselves.

Non-Wood Forest Products of Asia - A. Z. M. Manzoor Rashid 2022-08-23

This book highlights the importance of non-wood forest products (NWFPs) and their crucial role in sustaining the livelihood of rural and indigenous communities in Asia. The authors depict how the preservation of forests and the associated major non-wood resources may provide an important avenue to reduce poverty. The local practices and knowledge on harvesting NWFPs are often rooted in tradition, and vary from one region to the other. This made it difficult to develop and establish research focus on a greater scale in the past. Readers of this volume will gain an often-missed, broader perspective from these new studies. The authors put a special emphasis on the nexus between conservation and livelihood from an Asian point of view. This addresses a knowledge gap in the current literature and offers important clues on conducting similar research around the world. The volume provides a useful reference guide for the relevant researchers, practitioners and policy makers.

The Making of Indian English Literature - Subhendu Mund 2021-07-08

The Making of Indian English Literature brings together seventeen well-researched essays of Subhendu Mund with a long introduction by the author historicising the development of the Indian writing in English while exploring its identity among the many appellations tagged to it. The volume demonstrates, contrary to popular perceptions, that before the official introduction of English education in India, Indians had already tried their hands in nearly all forms of literature: poetry, fiction, drama, essay, biography, autobiography, book review, literary criticism and travel writing. Besides translation activities, Indians had also started editing and publishing periodicals in English before 1835. Through archival research the author brings to discussion a number of unknown and less discussed texts which contributed to the development of the genre. The work includes exclusive essays on such early poets and writers as Kylas Chunder Dutt, Shoshee Chunder Dutt, Toru Dutt, Mirza Moorad Alee Beg, Krupabai Sathianadhan, Swami Vivekananda, H. Dutt, and Sita Chatterjee; and historiographical studies on the various aspects of the genre. The author also examines the strategies used by the early writers to indianise the

western language and the form of the novel. The present volume also demonstrates how from the very beginning Indian writing in English had a subtle nationalist agenda and created a space for protest literature. The Making of Indian English Literature will prove an invaluable addition to the studies in Indian writing in English as a source of reference and motivation for further research. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

Tagore and China - Tan Chung 2011-06-07

Tagore and China is the first full account in English of Rabindranath Tagore's visit to China and its civilizational import. Perhaps for the first time, exhaustive material related to the visit has been collected. The book charts Tagore's 'grand visit' in 1924 undertaken in response to China's 'Tagore fever' and the series of talks he gave there, their antecedents as well as impact. Also discussed is the foundation of Cheena-Bhavana at Visva-Bharati-and thereby of Chinese studies in India-and Tan Yun-shan's lifelong dedication to it and the Sino-Indian love it held. This well-researched book unearths new material from Chinese sources to confirm the devotion of Tagore's interpreter, poet Xu Zhimo, to him and Tagore's affection for Xu Zhimo. Tagore's two personal visits to Xu Zhimo, preceded by the latter's visit to Santiniketan, have also been detailed. Supplemented by several rare photographs, Tagore and China is a fitting tribute to Tagore's 150th birth anniversary and is going to be of abiding value to Sino-Indian understanding.

Advanced Computing, Networking and Informatics- Volume 2 - Malay Kumar Kundu 2014-05-26

Advanced Computing, Networking and Informatics are three distinct and mutually exclusive disciplines of knowledge with no apparent sharing/overlap among them. However, their convergence is observed in many real world applications, including cyber-security, internet banking, healthcare, sensor networks, cognitive radio, pervasive computing amidst many others. This two-volume proceedings explore the combined use of Advanced Computing and Informatics in the next generation wireless networks and security, signal and image processing, ontology and human-computer interfaces (HCI). The two volumes together include 148 scholarly papers, which have been accepted for presentation from over 640 submissions in the second International Conference on Advanced Computing, Networking and Informatics, 2014, held in Kolkata, India during June 24-26, 2014. The first volume includes innovative computing techniques and relevant research results in informatics with selective applications in pattern recognition, signal/image processing and HCI. The second volume on the other hand demonstrates the possible scope of the computing techniques and informatics in wireless communications, networking and security.
