Libra - Don DeLillo 1991-05-01

From the author of *White Noise* (winner of the National Book Award) and *The Silence*, an eerily convincing fictional speculation on the events leading up to the assassination

of John F. Kennedy In this powerful, unsettling novel, Don DeLillo chronicles Lee Harvey Oswald's odyssey from troubled teenager to a man of precarious stability who imagines himself an agent of history.

When "history" presents itself in the form of two disgruntled CIA operatives who decide that an unsuccessful attempt on the life of the president will galvanize the nation against communism, the scales are irrevocably tipped. A gripping, masterful blend of fact and fiction, alive with meticulously portrayed characters both real and created, *Libra* is a grave, haunting, and brilliant examination of an event that has become an indelible part of the American psyche.

The City - Joel Kotkin 2006-10-10

If humankind can be said to have a single greatest creation, it would be those places

that represent the most eloquent expression of our species's ingenuity, beliefs, and ideals: the city. In this authoritative and engagingly written account, the acclaimed urbanist and bestselling author examines the evolution of urban life over the millennia and, in doing so, attempts to answer the age-old question: What makes a city great? Despite their infinite variety, all cities essentially serve three purposes: spiritual, political, and economic. Kotkin follows the progression of the city from the early religious centers of Mesopotamia, the Indus Valley, and China to the imperial centers of the Classical era, through the rise of the Islamic city and the European commercial capitals, ending with today's post-industrial suburban metropolis. Despite widespread optimistic claims that cities are "back in style," Kotkin warns that whatever their form, cities can thrive only if they remain

sacred, safe, and busy—and this is true for both the increasingly urbanized developing world and the often self-possessed “global cities” of the West and East Asia. Looking at cities in the twenty-first century, Kotkin discusses the effects of developments such as shifting demographics and emerging technologies. He also considers the effects of terrorism—how the religious and cultural struggles of the present pose the greatest challenge to the urban future. Truly global in scope, *The City* is a timely narrative that will place Kotkin in the company of Lewis Mumford, Jane Jacobs, and other preeminent urban scholars.

Babel No More - Michael Erard 2012-01-10
A “fascinating” (The Economist) dive into the world of linguistics that is “part travelogue, part science lesson, part intellectual investigation...an entertaining, informative survey of some of the most fascinating polyglots of our time” (The New York Times Book Review). In Babel No More, Michael Erard, “a monolingual with benefits,” sets out on a quest to meet language superlearners and make sense of their mental powers. On the way he uncovers the secrets of historical figures like the nineteenth-century Italian cardinal Joseph Mezzofanti, who was said to speak

seventy-two languages, as well as those of living language-superlearners such as Alexander Arguelles, a modern-day polyglot who knows dozens of languages and shows Erard the tricks of the trade to give him a dark glimpse into the life of obsessive language acquisition. With his ambitious examination of what language is, where it lives in the brain, and the cultural implications of polyglots' pursuits, Erard explores the upper limits of our ability to learn and use languages and illuminates the intellectual potential in everyone. How do some people escape the curse of Babel—and what might the gods have demanded of them in return?

The Eve of Spain - Patricia E. Grieve 2020-03-03

The Eve of Spain demonstrates how the telling and retelling of one of Spain's founding myths played a central role in the formation of that country's national identity. King Roderigo, the last Visigoth king of Spain, rapes (or possibly seduces) La Cava, the daughter of his friend and counselor, Count Julian. In revenge, the count travels to North Africa and conspires with its Berber rulers to send an invading army into Spain. So begins the Muslim conquest and the end of Visigothic rule. A few years later, in Northern Spain, Pelayo initiates a Christian resistance and starts a new line of kings to which the present-day Spanish monarchy traces its roots. Patricia E. Grieve follows the evolution of this story from the Middle Ages into the modern era, as shifts in religious tolerance and cultural acceptance influenced its retelling. She explains how increasing anti-Semitism came to be woven into the tale during the

Christian conquest of the peninsula—in the form of traitorous Jewish conspirators. In the sixteenth century, the tale was linked to the looming threat of the Ottoman Turks. The story continued to resonate through the Enlightenment and into modern historiography, revealing the complex interactions of racial and religious conflict and evolving ideas of women’s sexuality. In following the story of La Cava, Rodrigo, and Pelayo, Grieve explains how foundational myths and popular legends articulate struggles for national identity. She explores how myths are developed around few historical facts, how they come to be written into history, and how they are exploited politically, as in the expulsion of the Jews from Spain in 1492 followed by that of the Moriscos in 1609. Finally, Grieve focuses on the misogynistic elements of the story and asks why the fall of Spain is figured as a cautionary tale about a

woman’s sexuality.
