1000 Jahre deutsche Literatur is organized by historic periods and includes carefully chosen readings, with notes and vocabulary, beginning with writings in Old High German through Gellert, Lichtenberg, and Lessing. Also included are numerous exercises and thought provoking questions for each chapter and support materials which emphasize the cultural and historical background of each historic period. In tandem with Waltraud Maierhofer's Deutsche Literatur im Kontext 1750-2000, these two volumes provide a modern approach to German literature in its cultural, historical and linguistic context.

Jordaens - Zita Ágota Pataki 2012-06-01

16 essays by a group of internationally acclaimed  
authors help contribute to a clearer perception of  
the complex facets of Jacob Jordaens' oeuvre -- and  
moreover to distinguish it from the works of  
Rubens, van Dyck, and his contemporaries. The  
title "Genius of Grand Scale" refers to the spectrum  
from history to genre as well as to Jordaens'  
preference for large formats. The greatness of the  
artist Jacob Jordaens needs to be emphasized, since  
even though he outlived Rubens for four whole  
decades, he was never able to escape from under his  
shadow. By reference to iconographic and  
iconological studies, single works are identified and  
presented in a broad review and the long, in many  
aspects fragmentary reception of his artistic work  
also forms a large part of the interpretations  
presented here. Furthermore, technical  
examinations of paintings assist in defining more  
precisely how they were generated. This overdue  
volume presents essential reading for anyone  
interested in Jacob Jordaens.
