**Islamic Art** - Luca Mozzati 2019-10-08

This gorgeous survey of art from the Islamic world covers three continents and fourteen centuries. From its birth in the seventh century through modern times, the Islamic religion has inspired glorious works of art. This stunning book includes more than four hundred reproductions of treasures of Islamic art that span the world: from southern Europe, along the entire Mediterranean basin to sub-Saharan Africa through the Middle East, India, and Central Asia. Arranged geographically, the objects include paintings, miniatures, ceramics, calligraphy, textiles, carpets, and metal works. Each region is given a thorough introduction that offers historical context and extensive descriptions of its artifacts. Accompanying essays offer guidance in interpreting the many themes that tie these works together, including typology, calligraphy, and religious beliefs. Despite its wide-ranging history and origins,

Islamic art is unified by its devotion to faith and beauty. With its large format, exquisite reproductions, and extensive research, this book is a thorough introduction to the Islamic artistic tradition.

**Baltic Cities** - Neil Taylor 2008

A revamped and expanded version of Bradt's Baltic Capitals, this guide recognises a shift in the nature of travel in the region. No longer limited to a Baltics' itinerary covering Tallinn, Riga and Vilnius, the guide incorporates the Russian enclave of Kaliningrad, the Baltic coast from Klaipeda to Liepaja, and inland cities of Kaunas and Tartu. Whereas the Baltic states reflect western European influence, Kaliningrad - an offshoot of Russia - is very different: the Cyrillic alphabet remains and tourists can still see a statue of Lenin, or walk along a Revolution Road. The perfect companion, Baltic Cities details each city's historic sights, from museums to churches, together with scenic walking tours and essential details of where to eat and stay.

The Making of the Polish-Lithuanian Union 1385-1569 - Robert I. Frost 2018-07-16

The history of eastern European is dominated by the story of the rise of the Russian empire, yet Russia only emerged as a major power after 1700. For 300 years the greatest power in Eastern Europe was the union between the kingdom of Poland and the grand duchy of Lithuania, one of the longest-lasting political unions in European

history. Yet because it ended in the late-eighteenth century in what are misleadingly termed the Partitions of Poland, it barely features in standard accounts of European history. *The Making of the Polish-Lithuanian Union 1385-1569* tells the story of the formation of a consensual, decentralised, multinational, and religiously plural state built from below as much as above, that was founded by peaceful negotiation, not war and conquest. From its inception in 1385-6, a vision of political union was developed that proved attractive to Poles, Lithuanians, Ruthenians, and Germans, a union which was extended to include Prussia in the 1450s and Livonia in the 1560s. Despite the often bitter disagreements over the nature of the union, these were nevertheless overcome by a republican vision of a union of peoples in one political community of citizens under an elected monarch. Robert Frost challenges interpretations of the union informed by the idea that the emergence of the sovereign nation state represents the essence of political modernity, and presents the Polish-Lithuanian union as a case study of a composite state. The modern history of Poland, Lithuania, Ukraine, and Belarus cannot be understood without an understanding of the legacy of the Polish-Lithuanian union. This volume is the first detailed study of the making of that union ever published in English.

[A Concise History of the Baltic States](#) - Andrejs Plakans 2011-02-24

The Baltic region is frequently neglected in broader histories of Europe and its international significance can be obscured by separate treatments of the various Baltic states. With this wide-ranging survey, Andrejs Plakans presents an integrated history of three Baltic peoples - Estonians, Latvians and Lithuanians - and draws out the common threads to show how it has been shaped by their location in a strategically desirable corner of Europe. Subordinated in turn by Baltic German landholders, the Polish nobility and gentry, and then by Russian and Soviet administrators, the three nations have nevertheless kept their distinctive identities - significantly retaining three separate languages in an ethnically diverse region. The book traces the countries' evolution from their ninth-century tribal beginnings to their present status as three thriving and separate nation states, focusing particularly on the region's complex twentieth-century history, which culminated in the eventual re-establishment of national sovereignty after 1991.
