Outsmart Your Cancer -
Tanya Harter Pierce
2020-01-02
THIRD EDITION - UPDATED
AND EXPANDED "Outsmart
Your Cancer" is an in-depth
alternative treatment guide
that could save your life. It
explodes the myths about
alternative cancer
treatments and presents
more than twenty

approaches that are non-
toxic along with dozens of
real-life cases from people
who used these approaches
to completely recover from
a variety of cancers, many
of which were in late stages.
In this updated and
expanded Third Edition, all
the resources have been
updated and new key
information has broadened

the scope of the book- including new sections on the Ketogenic diet for cancer, on using the natural plant compound "Paw Paw" to obliterate multidrug-resistant cancer cells, and on how you might be able to cure your dog or cat with cancer. Plus, critical information is presented on what men and women need to know about hormone-blocking drugs, the real truth about DCIS breast cancer (Is it really cancer?), what a man's PSA count really means, and whether he is better or worse off if he takes a testosterone-blocking drug, as well as how to evaluate conventional claims of efficacy for toxic treatments such as chemotherapy and radiation. Highly esteemed doctors and scientists are quoted regarding the scientific basis behind each approach and extra information has been included regarding the amazing liquid formula called "Protocel" with new

recent Protocel recovery cases added. This book completely demystifies cancer and makes it clear why non-toxic approaches are often more effective at bringing about complete cures than toxic ones. There are two very different worlds of cancer treatment today - conventional and alternative - and it can be difficult to understand what one's best treatment options might be and why. This book will help you make a much more fully informed treatment decision!

73 and Disease Free My Secrets of Longevity -

Devereaux Divens

2019-12-13

I am writing this book because I hate to see people sick and suffering and in most cases they don't have to. I feel that -- if people know what I have done in my life to stay healthy, then my information can help them. For 73 years, I have been healthy. I'm not one of those people who was sick and got healed because of some product. I have never been sick! My Dr. Says I am in good health. There are things that I've done to stay healthy and live without sickness. Depending on the

sickness, and how far it has progressed, there is a 75% chance you can gain your health back. There are things the pharmaceutical industry does not want you to know about. One of them is baking soda, go to YouTube and type in Dr. Leonard Coldwell and see what he has to say about cancer, sickness and disease. There are many things in this book that I have done, and that I know about from my experiences with herbs. They have kept me healthy. They have kept my immune system strong. They have kept my liver and spleen, and kidneys healthy for 73 years. This book can save your life! My lifestyle for the first 40 years of my life was party hearty. Drugs, alcohol, smoking was my lifestyle. But during that time of my life. I would do to my body -- what I call, maintenance. Which meant for two or three days every 2or 3 months -- I would stop everything except smoking - - and drank lemon juice and

distilled water. As you will find out in this book, it describes the things I did to detox my body so that all of these drugs would not remain in my body. There are things you need to know about your colon. That is where disease starts. Please understand that lack of knowledge will destroy you. I know you do not have to be sick. Research your sickness, and then research baking soda and herbs. There is a 75% chance you can gain your health back. I am sure I can be of help!
Obesity in the Early Childhood Years - National Academies of Sciences, Engineering, and Medicine 2016-05-23
Among the many troubling aspects of the rising prevalence of obesity in the United States and elsewhere in recent years, the growth of early childhood overweight and obesity stands out. To explore what is known about effective and innovative interventions to counter obesity in young

children, the National Academies of Sciences, Engineering, and Medicine's Roundtable on Obesity Solutions held a workshop in October 2015. The workshop brought together many of the leading researchers on obesity in young children to describe the state of the science and potential solutions based on that research. Participants explored sustainable collaborations and new insights into the implementation of interventions and policies, particularly those related to nutrition and physical activity, for the treatment and prevention of obesity in young children. Obesity in the Early Childhood Years summarizes the presentations and discussions from the workshop.

Improving Health Research on Small Populations - National Academies of Sciences, Engineering, and Medicine
2018-07-02

The increasing diversity of population of the United States presents many challenges to conducting health research that is representative and informative. Dispersion and accessibility issues can increase logistical costs; populations for which it is difficult to obtain adequate sample size are also likely to be expensive to study. Hence, even if it is technically feasible to study a small population, it may not be easy to obtain the funding to do so. In order to address the issues associated with improving health research of small populations, the National Academies of Sciences, Engineering, and Medicine convened a workshop in January 2018. Participants considered ways of addressing the challenges of conducting epidemiological studies or intervention research with small population groups, including alternative study designs, innovative methodologies

for data collection, and innovative statistical techniques for analysis.

Take Off Your Glasses and See - Jacob Liberman 2011-06-22

This revolutionary new look at vision will broaden your understanding of how you see and how you can see without your glasses or contact lenses. Take Off Your Glasses and See shows you how to free yourself from the crutch of prescription lenses, to build your self-confidence and

awareness, and to open up your inner and outer vision in order to see more clearly. Jacob Liberman, an internationally recognized authority on holistic vision care, explains how most vision problems are the result of an unconscious decision to "close your eyes" to emotional discomfort or pain, and how increasingly powerful corrective lenses only encourage eyesight to withdraw even further. By removing lenses and practicing breath- and movement-awareness techniques to shift your perception, you can reintegrate the original disruption in the mind/body system. Dr. Liberman's approach can help you join the thousands who have escaped from the self-defeating cycle of poor vision.

Intervals, Scales, Tones and the Concert Pitch C - Maria Renold 2015

Why is it that certain intervals, scales, and tones sound genuine, while others sound false? Is the modern person able to experience a qualitative difference in a tone's pitch? If so, what are the implications for modern concert pitch and how instruments of fixed tuning are tuned? Renold tackles these and many other questions and provides a wealth of scientific data. Her pioneering work is the result of a lifetime of research into the Classical Greek origin of

Western music and the search for modern developments. She deepens our musical understanding by using Rudolf Steiner's spiritual science as a basis, and she elucidates many of his puzzling statements about music. The results of her work include the following discoveries: - The octave has two sizes (a 'genuine' sounding octave is bigger than the "perfect octave") - There are three sizes of "perfect fifths" - An underlying "form principle" for all scales can be found - Equal temperament is not the most satisfactory method of tuning a piano - She provides a basis for some of Steiner's statements, such as, "C is always prime" and "C = 128 Hz = Sun." *Intervals, Scales, Tones* is a valuable resource for those who wish to understand the deeper, spiritual aspects of music. *The Earth Diet* - Liana Werner-Gray 2014-10-28 The ultimate guide book to assist people in
