One cannot help but be frightened by Kong's uncontrollable fury, be saddened over the giant's capture, mistreatment, and exploitation by venal showmen, or sympathize with the beast's ill-fated affection for the down-on-her-luck starlet Ann Darrow. Monsanto - Jim Gerritsen 2017-10-18

As a manufacturer of food and animal feed, seeds and chemical products, Monsanto is relentlessly developing and marketing new technologies. The monopoly it has arguably secured by dubious means bears no relation to its negligence with regard to potential risks.

Particularly in light of the devastating consequences that are still causing suffering to people and the

environment in many places, the company's self-portrayal as a forward-looking, omnipotent force for good seems cynical. The photographer Mathieu Asselin, who lives in France and Venezuela, has tried his hand at the daunting task of exploring the issues surrounding Monsanto. His investigative photographic study manages to capture the complexity of this topic, creating links between past, present and future and illuminating many different aspects from a variety of perspectives.
