**Keeping Human Relationships Together:** -

Anthony O. Nwachukwu  
2010-03-30

“The Reverend Father Anthony Odinakachi Nwachukwu, Ph.D., Psy.D., has ventured into uncharted territory in this provocative and stimulating study of the creative integration of spiritual psychology and the West African mind. His insightful probing into the inner workings of the human mind and spiritual development as epitomized in human relationships is a major contribution to the related fields of West African studies, spiritual psychology, and religious consciousness”. John H. Morgan, President Ph.D. (Hartford), D.Sc. (London), Psy.D. (FH/Oxford) Senior Fellow of Foundation House, Oxford. “If discipline [i.e. - doing the right thing when no one is watching] and sound moral living are the

measurements for solid education, self-fulfillments, religious practices and healthy relationships, then, the book has said it all. It has, not only, provided the various management strategies that resuscitate broken relationships, but also, created conscious inner strengths that keep the healthy ones alive, both in the private and public sectors. I recommend that everybody joins Nwachukwu in this timely opportunity and the 21st century campaign for sound radical changes in the individual lives and society". Anthony J. Grieco, MD, MACP, Professor of Medicine, NYU School of Medicine "The African erudite author once more avails every reader of his psychological insight into the secrets of maintaining a healthy relationship. While promoting a positive and optimistic attitude, he gets to the root of the illusions, presumptions and projections that impact negatively on its attainment. The author's reflections in a way seem to have translated the Tillichian

idea of the paradoxical co-existence of the good and the bad into its psychological, ethical and practical relevance. I highly recommend this book to everyone who is out to make his life a success story". Dr.-theol. Sylvester I. Ihuoma, Delegate for Africans, University of Muenster, Germany. \* "Wow! This book is more of the GPS system that guides each individual life". It is actually a book for every rational person". Joan Bareth, (NM, NYU) \* "Many authors have written on a variety of related subjects on human relationships. But this book practically touches on every aspect of human life, political, socio-religious, spiritual etc and this makes it unique for everybody to read". Mr. Andrew Clerico (Fixed Income Portfolio Manager, NY) "Sex has no religion - I agree. Your book is as exciting as the Action Alert Tonic - AAT you have provided for the young generation and society. Congratulations!" Dr. Innocent E. Gubor (Upstate University, SYR, NY)

### **Meaningful Relationships -**

Steve Duck 1994-05-11  
Meaningful Relationships challenges the reader to step off traditional academic pathways in the pursuit of understanding the nature of human relationships and plunge into this most important theoretical advance in the field to date. The author, Steve Duck, argues that relationships are never "done deals" but, rather, are continually unfolding and in need of perpetual responsive action and construction. Central to this discussion is the author's contention that relationships are solidly based in the recognition of shared meaning discovered in the way we metaphorically represent the world to ourselves and to others through everyday talk and symbols. Theories presented in Meaningful Relationships do not unfold in a sequential manner but rather are approached from different angles showing simultaneous relationships in different

contexts. An outstanding addition to the Sage Series on Close Relationships, this book is stimulating in its novel approach and will be of interest to scholars and students in close relationships, psychology, interpersonal communication, sociology, family studies, and social work.

*Encyclopedia of Human Relationships* - Harry T. Reis  
2009-03-15

Library Journal Best Reference  
2009 "An excellent gateway to further examination of any of the subdisciplines of relationship science, or as a research tool in its own right."  
—Library Journal Relationships are fundamental to nearly all domains of human activity, from birth to death. When people participate in healthy, satisfying relationships, they

live, work, and learn more effectively. When relationships are distressed or dysfunctional, people are less happy, less healthy, and less productive. Few aspects of human experience have as broad or as deep effects on our lives. The *Encyclopedia of Human Relationships* offers an interdisciplinary view of all types of human associations—friends, lovers, spouses, roommates, coworkers, teammates, parents and children, cousins, siblings, acquaintances, neighbors, business associates, and so forth. Although each of these connections is unique in some respect, they share a common core of principles and processes. These three volumes provide a state-of-the-art review of the extensive theories, concepts, and empirical findings about human relationships. Key Features

*Interpersonal Relations In Nursing* - Hildegard E. Peplau, RN 1991-06-20

Originally published in 1952 by a towering figure in nursing history, this book stresses the then novel theory of interpersonal relations as it was relevant to the work of nurses. Her framework suggested that interaction phenomena that occur during patient-nurse relationships have qualitative impact on patient outcomes. While the past four decades have seen a substantial expansion in the use and understanding of interpersonal theory, such as cognitive development and general systems theory, this classic book remains a useful foundation for all nurses as so much subsequent work used this work as its starting point. Springer Publishing Company is delighted to make this book available again.

**Interpersonal Relationships in Education: From Theory to Practice** - David Zandvliet  
2014-08-07

This book brings together recent research on interpersonal relationships in education from a variety of perspectives including research from Europe, North America and Australia. The work clearly demonstrates that positive teacher-student relationships can contribute to student learning in classrooms of various types. Productive learning environments are characterized by supportive and warm interactions throughout the class: teacher-student and student-student. Similarly, at the school level,

teacher learning thrives when there are positive and mentoring interrelationships among professional colleagues. Work on this book began with a series of formative presentations at the second International Conference on Interpersonal Relationships in Education (ICIRE 2012) held in Vancouver, Canada, an event that included among others, keynote addresses by David Berliner, Andrew Martin and Mieke Brekelmans. Further collaboration and peer review by the editorial team resulted in the collection of original research that this book comprises. The volume (while eclectic) demonstrates how constructive learning environment relationships can be developed and sustained in a variety of settings. Chapter contributions come from a range of fields including educational and social psychology, teacher and school effectiveness research, communication and language studies, and a variety of related fields. Together, they cover the important influence of the

relationships of teachers with individual students, relationships among peers, and the relationships between teachers and their professional colleagues.

**Labor in the Tourism and Hospitality Industry** -

Abdallah M. Elshaer  
2019-05-28

An organization's workforce is arguably the greatest asset of any organization, and tourism and hospitality is an extremely labor-intensive industry. This volume takes an in-depth look at workforce issues in the tourism and hospitality industry, focusing on labor skills, ethics, rights, and more. It examines manpower planning beyond forecasting estimates to include investigative techniques in a

way that offers insight for economic planning in both tourism and tourism education. The authors use economic, sociological, and psychological analysis and take a pragmatic stance on the challenges of the workforce. The authors look at the specifics of the labor market of the tourism and hospitality industry, discussing the current status of the industry's organizations and how they are suffering labor shortages (qualitative or quantitative) and constant turnover—resulting in significant costs to organizations. Topics such as low wages and overdependence on tipping, workforce diversity, technological change resistance, and seasonality issues, and more are examined. The volume also provides a section on labor rights in the tourism and hospitality industry, which looks at labor trafficking and issues in social justice and human rights. Key features:

- Provides an in-depth understanding of tourism employment
- Presents a critical analysis of labor supply

and demand in the tourism and hospitality industries • Considers the need for specific labor skills and training • Examines the reasons for labor shortages and turnover in the tourism and hospitality industry • Discusses labor ethics and social responsibility in hospitality/tourism organizations
