Mind, Language And Society - John R Searle 2008-08-04

Disillusionment with psychology is leading more and more people to formal philosophy for clues about how to think about life. But most of us who try to grapple with concepts such as reality, truth, common sense, consciousness, and society lack the rigorous training to discuss them with any confidence. John Searle brings these notions down from their abstract heights to the terra firma of real-world understanding, so that those with no knowledge of philosophy can understand how these principles play out in our everyday lives. The author stresses that there is a real world out there to deal with, and condemns the belief that the reality of our world is dependent on our perception of it.

Phraseology in English Academic Writing - Peter Andrew Howarth 1996-01-01

This study examines the use of prefabricated language (conventional lexical collocations) in the production of native and non-native writers of English. It first develops a framework for the description of restricted collocations and then reviews experimental research into the psycholinguistic processing of prefabricated language. Computer-based corpora of native and advanced non-native academic writing are analysed to discover to what extent and how such collocations are used in formal written English. Pedagogical implications are then considered, and the final part of the study examines the selection and presentation of restricted collocations in general and phraseological dictionaries for learners. The conclusion suggests that advanced learners need specialist collocational dictionaries, and the results of this research help to establish principles for the design of such dictionaries.

ENGLISH LITERATURE ADVANCING THROUGH HISTORY 3 – The Seventeenth Century - Petru Golban 2021-12-24

The present book is third in a series of works which aim to expose the complexity and essence, power and extent of the major periods, movements, trends, genres, authors, and literary texts in the history of English literature. Following this aim, the series will consist of monographs which cover the most important ages and experiences of English literary history, including Anglo-Saxon or Old English period, the Middle Ages, the Renaissance, the Restoration, neoclassicism, romanticism, Victorian Age, and the twentieth-century and contemporary literary backgrounds. The reader of these volumes will acquire the knowledge of literary terminology along with the theoretical and critical perspectives on certain texts and textual typology belonging to different periods, movements, trends, and genres. The reader will also learn about the characteristics and conventions of these literary periods and movements, trends and genres, main writers and major works, and the literary interaction and continuity of the given periods. Apart

from an important amount of reference to literary practice, some chapters on these periods include information on their philosophy, criticism, worldview, values, or episteme, in the Foucauldian sense, which means that even though the condition of the creative writing remains as the main concern, it is balanced by a focus on the condition of thought as well as theoretical and critical writing during a particular period. A Comparison of 20th Century Theories of Style (in the Context of Czech and British Scholarly Discourses) - Michal Křístek 2016-01-01

Práce poskytuje srovnání teoretických přístupů k problematice stylu, a to v rámci českého a anglosaského (především britského) kontextu. Cílem bylo ukázat a srovnat odlišná metodologická pojetí založená na odlišných teoretických východiscích – proto byly zvoleny dva odlišné kulturní okruhy: pozornost je však samozřejmě věnována také vztahů mezi nimi. Dvacáté století bylo vybráno úmyslně, jako období, v němž se v obou prostředích stylistika konstitovala jako moderní teoretická disciplína opírající se o základnu lingvistiky a literární vědy. Práci mohou využít jak domácí, tak zahraniční studenti a vyučující, především bohemisté a anglisté.

What does it mean to read one nation's literature in another language? The considerable popularity of Russian literature in the English-speaking world rests almost entirely upon translations. In *The Translator and the Text*, Rachel May analyzes Russian literature in English translation, seeing it less as a substitute for the original works than as a subset of English literature, with its own cultural, stylistic, and narrative traditions.

This book presents an introduction to stylistics for students of literature. It does not presuppose linguistic knowledge, but it approaches literature in a linguistic way. A Dictionary of Stylistics - Katie Wales 2014-09-11

Reviews of the first edition: '...a work of high seriousness...manna from rhetorical heaven for students and researchers with a lot of hard graft ahead of them...' (English Today) '...an impressive single-author reference work...' (English) '...Not only is this volume indispensable for anyone, students or academics, working in any field related to stylistics, it is, like all the best dictionaries, a very good read...' (Le Monde) Over the past ten years there have been striking advances in stylistics. These have given rise to new terms and to revised thinking of concepts and re-definitions of terms. A Dictionary of Stylistics, 2nd Edition contains over 600 alphabetically listed entries: fully revised since the first and second editions, it contains many new entries. Drawing material from stylistics and a range of related disciplines such as sociolinguistics, cognitive linguistics and traditional rhetoric, the revised Third Edition provides a valuable reference work for students and teachers of stylistics, as well as critical discourse analysis and literary criticism. An Introduction to Cognitive Linguistics - Friedrich Ungerer 2013-11-12

Learning About Language is an exciting and ambitious series of introductions to fundamental topics in language, linguistics and related areas. The books are designed for students of linguistics and those who are studying language as part of a wider course. Cognitive Linguistics explores the idea that language reflects our experience of the world. It shows that our ability to use language is closely related to other cognitive abilities such as categorization, perception, memory and attention allocation. Concepts and mental images expressed and evoked by linguistic means are linked by conceptual metaphors and metonymies and merged into

more comprehensive cognitive and cultural models, frames or scenarios. It is only against this background that human communication makes sense. After 25 years of intensive research, cognitive-linguistic thinking now holds a firm place both in the wider linguistic and the cognitive-science communities. An Introduction to Cognitive Linguistics carefully explains the central concepts of categorization, of prototype and gestalt perception, of basic level and conceptual hierarchies, of figure and ground, and of metaphor and metonymy, for which an innovative description is provided. It also brings together issues such as iconicity, lexical change, grammaticalization and language teaching that have profited considerably from being put on a cognitive basis. The second edition of this popular introduction provides a comprehensive and accessible up-to-date overview of Cognitive Linguistics: Clarifies the basic notions supported by new evidence and examples for their application in language learning Discusses major recent developments in the field: the increasing attention paid to metonymies, Construction Grammar, Conceptual Blending and its role in online-processing. Explores links with neighbouring fields like Relevance Theory Uses many diagrams and illustrations to make the theoretical argument more tangible Includes extended exercises Provides substantial updated suggestions for further reading.

Media Linguistics in South Asia - Ali R Fatihi 2022-09-30

The tone and texture of the language of media have changed considerably due to the rapid expansion of media in recent times and advancements in communication technologies. This book examines new ways to conduct linguistic explorations into the myriad of forms news is being presented and consumed. The volume contributes to the emerging field of media linguistics by measuring and analysing the associations between linguistics and the news discourse. It extends the conceptualization of language-media relations in sociolinguistics beyond the notions of 'influence' and 'effect' and broadens the theoretical and empirical scope of the discipline. The author discusses different perspectives of media linguistics; issues of variation in language of media; question of plurilingual resources; parallel language use in media and textuality of news genres. He further analyses the dynamics of news reportage by studying the coverage of conflicts, violence and dissent in South Asian media in recent decades along with the reportage of cricket headlines and news. Comprehensive and topical this volume will be useful for scholars and researchers of linguistics, media linguistics, applied linguistics, media studies, media sociology, sociology, cultural studies and South Asian studies.

Multilingualism and Applied Comparative Linguistics (Volume II) - Frank Boers 2009-10-02

In February 2006 the first international conference on Multilingualism and Applied Comparative Linguistics (MACL) was held in Brussels, Belgium. cultural linguistics, terminography, translation studies and studies of specialised languages. The present book is the second of two volumes containing a selection from the approximately 120 papers that were presented at that three-day event. The book comprises five chapters, reflecting different research perspectives on cross-linguistic and cross-cultural communication. The first chapter covers research articles on metaphors and planned languages. The second chapter comprises articles dealing with language attitudes, language proficiency and language practices in cross-linguistic and cross-cultural, communicative contexts. Chapter three features articles in the field of discourse-analysis research. In the fourth chapter research is presented that pertains to terminology and specialised languages. Finally, chapter five deals with translation studies.

This book gives readers a present and critical view of different language and linguistic issues in selected Asian contexts. The language aspect of the manuscript explores various areas of English language learning and teaching while the linguistic aspect looks at different fields such as sociolinguistics, semantics, stylistics, corpus-based studies, translation studies and cultural studies. These aspects also provide distinct tangents in researching language for they offer significant points of view and outcomes in understanding the influence and/or the function of cultures when dealing with either spoken or written discourses involving native or non-native speakers. Such dynamics are instrumental in bringing about wider range of topics pertinent to the transdisciplinary nature of the current research theme in this part of the world. Substantially, the major sub-disciplines included in the manuscript frame both theoretical and hands-on implications for more rigorous innovations and expansions in the respective area of investigation.

Handbook of Business Discourse - Francesca Bargiela-Chiappini 2009-05-12

Theory of Literature - Rene Wellek 2024-04-02

Theory of Literature was born from the collaboration of Ren Wellek, a Vienna-born student of Prague School linguistics, and Austin Warren, an independently minded "old New Critic." Unlike many other textbooks of its era, however, this classic kowtows to no dogma and toes no party line. Wellek and Warren looked at literature as both a social product--influenced by politics, economics, etc.--as well as a self-contained system of formal structures. Incorporating examples from Aristotle to Coleridge, written in clear, uncondescending prose, Theory of Literature is a work which, especially in its suspicion of simplistic explanations and its distrust of received wisdom, remains extremely relevant to the study of literature today.
