Literacy and second language learning for the linguistic integration of adult migrants - Fernanda Minuz 2022-06-15

Language skills foster, among other things, social inclusion, access to education and employment. Within this context, non-literate or low-literate migrants have specific educational needs. This reference guide is meant for language educators, curriculum designers and language policy makers in their endeavour to design, implement, evaluate and improve curricula tailored toward the specific needs of non- and low-literate adult migrants. This group of migrants faces the complex and demanding task of learning a language while either learning to read and write for the first time or developing their literacy skills. They rarely receive adequate instruction in terms of hours of tuition and targeted teaching approaches, whereas they are very often requested to take a compulsory written test. The reference guide contains: a definition of target users and learners; the rationale related to the development of the descriptors; principles for teaching literacy and second languages; scales and tables of descriptors; aspects of curriculum design at the macro, meso and micro levels and recommendations on assessment procedures and tools within the learning environment. The guide also contains descriptors that build on the Common European Framework of Reference for Languages (CEFR) and the CEFR Companion volume up to the A1 level for adult migrants, with special attention given to literacy learners.

ESL Standards for Pre-K-12 Students - Teachers of English to Speakers of Other Languages 1997

The guide outlines performance standards for each of three broad goals of English-as-a-Second-Language teaching in elementary and secondary education. The three goals include: use of English to communicate in social settings; use of English to achieve academically in all content areas; and use of English in socially and culturally appropriate ways. Within each of these three goals, three more specific performance standards are enumerated. An introductory section explains the rationale, origins, and use of these standards. Subsequent sections, one for each grade group (pre-K-3, 4-8, 9-12), detail appropriate descriptors and progress indicators for each standard for students at that level. In addition, a brief vignette illustrates their use in the classroom, and some further discussion follows. A glossary is included and supporting documentation is appended. Contains 57 references. Practical Language Testing - Glenn Fulcher 2013-11-26
Practical Language Testing equips you with the skills, knowledge and principles necessary to understand and construct language tests. This intensely practical book gives guidelines on the design of assessments within the classroom, and provides the necessary tools to analyse and improve assessments, as well as deal with alignment to externally imposed standards. Testing is situated both within the classroom and within the larger social context, and readers are provided the knowledge necessary to make realistic and fair decisions about the use and implementation of tests. The book explains the normative role of large scale testing and provides alternatives that the reader can adapt to their own context. This fulfils the dual purpose of providing the reader with the knowledge they need to prepare learners for tests, and the practical skills for using assessment for learning. Practical Language Testing is the ideal introduction for students of applied linguistics, TESOL and modern foreign language teaching as well as practicing teachers required to design or implement language testing programmes. The book is supported by frequently updated online resources at <http://languagetesting.info/> including sets of scenarios providing resources to study aviation English assessment, call centre assessment, military language assessment, and medical language assessment. The materials can be used to structure debates and seminars, with pre-reading and video activities. Practical Language Testing was commended as a 2012 runner-up of the prestigious SAGE/ILTA Award for Best Book on Language Testing.
