Economic Growth and Development in Ethiopia -

Almas Heshmati 2018-04-27

This volume is a collection of selected empirical studies on determinants of economic growth and development in Ethiopia. The core argument for editing this book is to provide an up-to-date picture of the state and patterns of growth and development in Ethiopia. Ethiopia has been under focus in the past due to draughts, war, famine, development changes and the effects of global economic crisis in the country. A main contribution of this volume is that it helps identify selected important determinants of growth and development in Ethiopia and provides an estimation of their effects using up-to-date data, modelling and methods. Taken together the studies provide a comprehensive picture of the state of growth and development, their

measurements, causal relationships and evaluation of efficient policies and practices in achieving progress in Ethiopia. The issues covered represent major challenges to the government and development organizations who are aiming at achieving higher growth and alleviating poverty in the country. The studies cover transition from rural agriculture to urban industry and the development of services. *Business, Industry, and Trade in the Tropics* - Jacob Wood 2022-03-22

The tropics is an area of enormous opportunity and potential. The countries situated between the Tropics of Cancer and Capricorn are largely developing in nature. There is huge interest in the types of business investments made in Southeast Asia, Central Africa, and the Amazonian tropical belts. These tropical regions continue to face

opportunities and challenges in attracting foreign direct investments as well as the need to complement and/or compete with larger economies external to the tropics. This book provides an empirical assessment of the key sociocultural, economic, environmental, and political factors that influence the business dynamics of organizations operating within the tropics. It will address but is not limited to topics such as attracting businesses to the tropics, facilitating smooth, stable conditions for business operations and sustainability, national institutions, and regulations that shape the way business is done, and the increasing deployment of new technologies and entrepreneurial innovations which are defining the global tropics as a distinct business region. It will offer readers a key focus for developing a deeper understanding of the factors

and frameworks that influence and shape business activity in the area. While the primary audience for the book consists of academics and students from the fields of economics (environmental economics, developmental economics), business, international trade, tourism, and area studies, it will also provide a practical resource for government policy analysts wanting to fully appreciate some of the key economic and business issues facing the region. Youth and Employment in Sub-Saharan Africa - Hiroyuki Hino 2014-06-05 It is widely acknowledged that youth unemployment is one of the most critical challenges facing countries in Sub-Saharan Africa. This volume brings together an eminent group of international scholars to analyse the extent and complex nature of this joblessness, and offer a set of evidence-based policy choices that could

contribute to solving the problem in the short- and long-run. Part I reviews the existing literature on youth unemployment and underemployment in Sub-Saharan Africa from microeconomic and macroeconomic perspectives, while Part II goes on to present detailed country studies of Ethiopia, Ghana, Kenya and South Africa. These studies offer a deep understanding of the situation on the ground and consider country-specific solutions. Throughout the book it is argued that the standard ILO definition of unemployment is too narrow to correctly portray employment situations in Sub-Saharan Africa. Several alternative measures of unemployment are presented, which show that joblessness is far more pervasive than commonly assumed in the literature. This volume will be of interest to academics and policy makers involved in African development.

Education for Children with Disabilities in Addis Ababa, Ethiopia -

Margarita Schiemer
2017-08-02

This book is open access under a CC BY 4.0 license. This book presents insights into the lived realities of children with disabilities in primary schools in Addis Ababa, Ethiopia. It examines specific cultural and societal characteristics of Ethiopia that influence the education of children with disabilities. The book presents findings drawn from interviews with, and participant observation of the schoolchildren, family members, teachers and other “experts”, and places these findings in a cultural-historical context. The multidimensional approach taken allows for, on the one

hand, the provision of a historical grounding of the book, explaining the main historical junctures and their implications for education, and the discussion of the role of culture and society as barriers and facilitators of education. On the other hand, it gives the book a more personal angle, allowing the reader to gain insight into what it means to feel like a family, develop a sense of belonging, and trying to move toward educational equity.

Ethiopia - 1998-01-01

After being immersed in almost three decades of civil conflict, the prevailing peace and political stability

in Ethiopia allowed its government to focus on rebuilding its economy. As an integral part of this undertaking, the Federal Democratic Republic of Ethiopia is seeking to overhaul the landscape of human capital development in the country. This report discusses the situation and trends in education, health, nutrition, and population. It also examines the barriers to improvement from the points of view of Ethiopian households and public and private suppliers of services. It also attempts to identify the means by which the government can use public resources more effectively.

development and public
policy the Forum for Social
Studies is undertaking a
project of research and
public dialogue on a number
of selected topics on the
theme of 'Prospects and
Challenges for Inclusive and
Participatory Development
in Ethiopia'. The aim is to
enable researchers and
professionals to present
evidence-based papers to
stimulate debate and
reflection. This first book in
the program looks at the
impact of development or
lack of it, on specific social
groups, namely women,
young people and
vulnerable groups that
should be entitled to decent
social care.

*International Handbook of
Curriculum Research* -
William F. Pinar 2013-10-15
Continuing its calling to
define the field and where it
is going, the Second Edition
of this landmark handbook
brings up to date its
comprehensive reportage of
scholarly developments and

school curriculum initiatives worldwide, providing a panoramic view of the state of curriculum studies globally. Its international scope and currency and range of research and theory reflect and contribute significantly to the ongoing internationalization of curriculum studies and its growth as a field worldwide. Changes in the Second Edition: Five new or updated introductory chapters pose transnational challenges to key questions curriculum research addresses locally. Countries absent in the First Edition are represented: Chile, Colombia, Cypress, Ethiopia, Germany, Iran, Luxembourg, Nigeria, Peru, Poland, Portugal, Singapore, South Africa, Spain, and Switzerland. 39 new or updated chapters on curriculum research in 34 countries highlight curriculum research that is not widely known in North America. This handbook is

an indispensable resource for prospective and practicing teachers, for curriculum studies scholars, and for education students around the world.

Empowering Adolescent Girls in Developing Countries - Caroline Harper
2018-02-13

The Open Access version of this book, available at <http://www.tandfebooks.com/doi/view/10.4324/9781315180250>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license Adolescence is a pivotal time in a girl's life. The development of educational, physical, psychosocial, familial, political and economic capabilities enable girls to reach their full potential and contribute to the wellbeing of their families and society. However, progress is still significantly

constrained by discriminatory gender norms and the related attitudes and practices which restrict girls' horizons, restrain their ambition and, if unfettered, allow exploitation and abuse. Empowering Adolescent Girls in Developing Countries explores the detrimental impact of discriminatory gender norms on adolescent girls' lives across very different contexts. Grounded in four years of in-depth research in Ethiopia, Nepal, Uganda and Viet Nam, the book adopts a holistic approach, recognising the inter-related nature of capabilities and the importance of local context. By exploring the theory of gendered norm change, contextualising and examining socialisation processes, the book identifies the patriarchal vested interests in power, authority and moral privilege, which combine in

attempts to restrict and control girls' lives. Throughout the book, *Empowering Adolescent Girls in Developing Countries* demonstrates how efforts to develop more egalitarian gender norms can enable disadvantaged adolescent girls to change the course of their lives and contribute to societal change. Accessible and informative, the book is perfect for policy makers, think tanks, NGOs, activists, academics and students of gender and development studies.

On Results of the Reform in Ethiopia's Language and Education Policies -

Catherine Griefenow-Mewis 2009

This publication reflects the results of the Ethiopian education reform as well as the exceptional efforts that multiethnic Ethiopia undertakes in order to cope with the challenges arising from the population explosion. More than 55 per cent of the 77 million Ethiopians are under the age of 18 years. The great social and political changes started in Ethiopia at the

beginning of the 1990s have resulted in the substitution of the educational system based on Amharic and English by one which uses a multilingual approach. According to the Ministry of Education 22 out of the 84 languages spoken in Ethiopia are now used as media of instruction in primary schools. The book presents the lectures delivered at the workshop "On the Results of the Reform in Ethiopia's Language and Education Policy" held at Addis Ababa University in April 2006 by Ethiopian education experts and a German research team. Their contribution has facilitated a subsumption into the historical context and has given insight into the analyses of the use of 8 Ethiopian languages in primary schools in different regions of the country.

an introduction and advance knowledge to the field.

Secondary Education in Ethiopia - Rajendra Joshi
2012-11-01

This book discusses reforms that should be undertaken in secondary education to support Ethiopia's transition from a low- to middle-income economy. The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students, including those who may not pursue higher education.

Teen Lives around the

World: A Global Encyclopedia [2 volumes]

- Karen Wells 2019-11-08

Teenagers are living in a rapidly changing and increasingly interconnected yet unequal world. Whether they live in Australia or Zimbabwe, they have in common that they are between childhood and adulthood and increasingly aware of how inequality is affecting their lives and futures. This encyclopedia gives a different perspective based on the experiences of teens in 60 countries. Each entry gives the reader a brief sketch of a country to help readers to understand how geography, history, economics, and politics shape teen life. The entries include a country overview and cover the following topics: Schooling and Education; Extracurricular Activities: Art, Music, and Sports; Family and Social Life; Religions and Cultural Rites of Passage; Rights and Legal Status; and Issues Today. Special sidebars,

called Teen Voices, appear throughout the text, and include a description of a typical day in the life of a teen in various countries. Students will be able to gain a better understanding of what life is like around the world for their peers and will be able to easily make cross-cultural comparisons between different countries.

Bibliographia Aethiopica II -

Hans Wilhelm Locket 1998
Erstmals wird hier die Fülle der englischsprachigen Äthiopienliteratur geordnet dargeboten. In 100 Sections führt der Autor alle für die wissenschaftliche

Beschäftigung mit Athiopien wichtigen Buch- und Zeitschriftenbeiträge zum Beispiel zur "History of Research", "Archaeology", "Religion", aber auch Fragen der "Sociology", "Agriculture", "Zoology" und "Medical Sciences" auf. Wie im Falle der deutschsprachigen Literatur ("Bibliographia Aethiopica: Die athiopienkundliche Literatur des deutschsprachigen Raumes" = Aethiopistische Forschungen 9 [1982]) berücksichtigt der Autor auch alle ihm zugänglichen Besprechungen, womit bei einer Aufnahme von mehr als 24.000 Titeln eine Art "Bibliographic Encyclopedia" entstanden ist.

(Re)Constructing Memory: School Textbooks and the Imagination of the Nation -

James H. Williams

2014-08-08

This book examines the shifting portrayal of the nation in school textbooks in 14 countries during

periods of rapid political, social, and economic change. Drawing on a range of analytic strategies, the authors examine history and civics textbooks, and the teaching of such texts, along with other prominent curricular materials—children's readers, a required text penned by the head of state, a holocaust curriculum, etc.. The authors analyze the uses of history and pedagogy in building, reinforcing and/or redefining the nation and state especially in the light of challenges to its legitimacy. The primary focus is on countries in developing or transitional contexts. Issues include the teaching of democratic civics in a multiethnic state with little history of democratic governance; shifts in teaching about the Khmer Rouge in post-conflict Cambodia; children's readers used to define national space in former republics of the

Soviet Union; the development of Holocaust education in a context where citizens were both victims and perpetrators of violence; the creation of a national past in Turkmenistan; and so forth. The case studies are supplemented by commentary, an introduction and conclusion. *The Oxford Handbook of the Ethiopian Economy* - Fantu Cheru 2019-01-10

From a war-torn and famine-plagued country at the beginning of the 1990s, Ethiopia is today emerging as one of the fastest-growing economies in Africa. Growth in Ethiopia has surpassed that of every other sub-Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years. The government has set its eyes on transforming the country into a middle-income country by 2025, and into a leading manufacturing hub in

Africa. The Oxford Handbook of the Ethiopian Economy studies this country's unique model of development, where the state plays a central role, and where a successful industrialization drive has challenged the long-held erroneous assumption that industrial policy will never work in poor African countries. While much of the volume is focused on post-1991 economic development policy and strategy, the analysis is set against the background of the long history of Ethiopia, and more specifically on the Imperial period that ended in 1974, the socialist development experiment of the Derg regime between 1974 and 1991, and the policies and strategies of the current EPRDF government that assumed power in 1991. Including a range of contributions from both academic and professional standpoints, this volume is a key reference work on the

economy of Ethiopia.
