**Gilbert Foliot and His Letters** - Dom Adrian Morey 2008-09-04

Gilbert Foliot, successively Abbot of Gloucester and Bishop of Hereford and London, and archenemy of Archbishop Thomas Becket, is a figure of the first importance in the English Church of the twelfth century. Dom Adrian Morey and Professor Christopher Brooke's study of Foliot's life and works, *Gilbert Foliot and his Letters*, was published in 1965. Foliot left a substantial collection of letters and charters which are a valuable source for the period. This edition consists of a critical Latin text with footnotes; all the known manuscripts have been collated, the letters dated (often for the first time) and all the circumstances of their composition discussed. The letters are arranged chronologically, except for a few groups which have been kept together; the charters alphabetically by cathedrals and monastic houses. In their introduction the editors discuss the various manuscripts, and appendices include biographical notes on the chief people mentioned in the text. There is a substantial bibliography.

In this lavishly illustrated book, more than 500 magnificent pieces are presented in color, together with detailed descriptions. These chapters are further illustrated with historical and contemporary photographs of jewellery being worn.

**The Governor of Desire** - Elizabeth Seydel Morgan 1993-11-01

In her second collection of verse Elizabeth Seydel Morgan establishes herself as a poet of fierce honesty and originality. *The Governor of Desire* examines the world through the lens of our emotions, a perspective from which we see how everything connects—nature, politics, passion, terror, anger, grief. Morgan's poems are miracles of perception and grace. They shine with the sort of luster that comes only with unrelenting rigor and flawless craftsmanship. Tough yet tender, haunting yet lyrical, they are remarkable fusions—like governed desire—of form and content. The lean, sure syncopation, for instance, of "Do You Remember Where You Were?" deftly juggles recollections of the Beatles' first hit recording and reflections on the raw violence of our recent history. The elegiac "What Is the Most Elvis Ever Weighed?" introduces a topic we expect to be played as farce but that develops into a heart-breaking evocation of lives adrift, of dreams confounded, of youth and beauty vanished. In "Bear in Mind," the ingenuity and complexity of Morgan's comparisons mute our growing sense of unease, and make the sudden shift from metaphor to reality—"when the towering nightmare/ blacks out the stars"—all the more terrifying. Morgan's startling imagery seems not only natural but inevitable,

as in "Define Space," in which the stark absence of a loved one is personified as a kind of spiritualist of negation: Space is not what is not, nor the object of rockets; it's the way they get where they're going. It's the cold blue absence of you that bristles me into the future. Space is the lively medium— that made-up lady we have trouble believing ,who goes into a trance of not-being, rolls her eyes toward the place where you could have gone and asks us all here to hold hands. Alive with mystery and beauty, these poems illuminate the vicissitudes of our common experience. They are the mark of a writer of rare gifts.

The Friends of Freeland - Brad Leithauser 1998-09-08

In this roomy, bawdy, exuberantly comic novel, Brad Leithauser takes us to an imaginary island-country, Freeland, during a crucial election year. Freeland occupies its own place in the North Atlantic, somewhere between Iceland and Greenland. A geological miracle, it is desolate ("What green is to Ireland, gray is to Freeland") -- and inspiring. The "friends" of the title are Hannibal, an expansive, lovable, unruly giant of a man who has been

President of Freeland for twenty years, and Eggert, his shrewd, often prickly, always devious sidekick and adviser, who is Poet Laureate of Freeland and the book's narrator. As the book opens, Freeland -- long happily isolated and stubbornly independent -- is in trouble. The sins of the rest of the world have begun to wash up on its shores in the form of drugs, restless youth, and a polluted, fished-out ocean. And, to add to the complications, when Hannibal, who has promised to step down as president, decides to run again, the opposition imports three "electoral consultants" from the United States. As the story unfolds, the histories of the friends are revealed. While Hannibal is Fate's adored, Eggert travels perpetually under a cloud. Orphaned early, he must make his way by his wits. We follow him from his youth as he adventures Down Below (any place south of Freeland), collecting women, lovers, children, restlessly churning out fifty books in his search for love and admiration, returning home at last to raise a family and to serve his friend in his political hour of need. This huge, stunning, magical book brims with pleasures: delicious satire as the independent-minded natives meet the U.S.-trained "spin doctors"; a vibrant comic-strip vitality; and an edgy poignancy. Best of all, Leithauser has created a whole world, at once uncannily like and unlike our own. Readers who journey to Freeland will find it both a land of wonders and an ideal place from which to view the world they've left behind.

Duncan Clarke begins by placing African oil issues in their historical context before tackling the issues of power, nationalism and different parties' strategies for control that have led to today's oil scene. This book is the ultimate reference work on oil in Africa - which is vital to everyone's future around the world.

[The Hellenistic Aesthetic](#) - Barbara Hughes Fowler 1989

"Fowler's . . . own insights are apparent throughout, and they seem to distill the personal appreciation and understanding of a scholar who has devoted much of her career to both contemplating and enjoying Hellenistic poetry. . . . [This book] would make an excellent background text for courses in later Greek and Roman art, and it can be read with profit by anyone interested in exploring the character of Hellenistic culture."--J. J. Pollitt, *American Journal of Archaeology* "Outstanding is the range of examples discussed both in poetry and art. Theocritus, Callimachus, Appolonius, the epigrammatists, and others--that is, the major figures of the time--are considered at length and in several different contexts. Passages are quoted in the original Greek, translated, and analyzed. Fowler's sensitivity to poetic forms, evident in her other published writings, is again evident here. In addition, however, the philosophical context is not overlooked. . . . Also highly commendable are the liberal references to works of art. Sculpture in the round and in relief, portraits, terracotta

figurines, original paintings (grave stelai) and Campanian murals, mosaics, gold and silver vessels, and jewelry are introduced at various points. Every work of art discussed is illustrated in astonishingly clear photographs, which are interspersed in the body of the text."--Christine Mitchell

Havelock "The Hellenistic Aesthetic provides classicists with their first thorough discussion of the aesthetic unity found in Hellenistic art and literature. . . . Fowler examines parallels both in subject matter and in artistic approach among a diverse group of literary genres and artistic forms. In twelve chapters, The Hellenistic Aesthetic surveys Alexandrian epigrams, pastorals, epics, sculptural groups, mosaics, paintings, and jewelry to supply a convincing, and frequently unexpected, picture of a unified aesthetic vision."--Jeffrey Buller, Classical Outlook

From such classics as Musso & Frank and The Brown Derby in the 1920s to the see-and-be-seen crowds at Chasen's, Romanoffs, and Ciro's in the mid-20th century to the dawn of California cuisine at Ma Maison and Spago Sunset in the 1970s and '80s, L.A.'s Legendary Restaurants celebrates the famous locations where Hollywood ate, drank, and played. *Coyote Medicine* - Lewis Mehl-Madrona 2011-01-11

Hailed by Dr. Andrew Weil as a book "that must be brought to all who seek true health," Coyote Medicine is an engaging and essential testament to the power of alternative healing and recovery methods that lie beyond the confines of Western medicine. Inspired by his Cherokee grandmother's healing ceremonies, Lewis Mehl-Madrona enlightens readers to "alternative" paths to recovery and health. Coyote Medicine isn't about eschewing Western medicine when it's effective, but about finding other answers when medicine fails: for chronic sufferers, patients not responding to medication, or "terminal" cases that doctors have given up on. In the story of one doctor's remarkable initiation into alternative ways to spiritual and physical health, Coyote Medicine provides the key to untapped healing methods available today.
