Shining a Light - Lisa French 2009-01-01

Shining a Light: 50 Years of the Australian Film Institute, traces the progress of the film and television industries in Australia - as well as screen culture within Australia over the past half century - through the lens of one key organisation, the Australian Film Institute (AFI). Shining a Light offers a timely and significant contribution to scholarship on Australian cinema, published at a critical time in Australian film history. The authors, Lisa French and Mark Poole, offer an insider's view through 27 interviews with key players on the local scene. The book also includes a listing of every AFI Award that has been given since 1958, including the nominees and winners of each award category. This is the first time that such an exhaustive list of AFI nominees and winners has been published.

What A Waste - Jess French 2019-04-02

In this informative book on recycling for children, you will find everything you need to know about our environment. The good, the bad, and the incredibly innovative. From pollution and litter to renewable energy and plastic recycling. This educational book will teach young budding ecologists about how our actions affect planet Earth and the big impact we can make by the little things we do. Did you know that every single plastic toothbrush ever made still exists? Or that there is a floating mass of rubbish larger than the USA drifting around the Pacific Ocean? It is not all bad news though. While this is a knowledge book that explains where we are going wrong, What a Waste also shows what we are getting right! Discover plans to save our seas. How countries are implementing green projects worldwide, and how to turn waste into something useful. The tiniest everyday changes can make all the difference to ensure our beautiful planet stays lush and teeming with life. It is a lively kid's educational book with fabulous illustrations and fun facts about the world broken into easy to digest bite-sized bits. Each page can be looked at in short bursts or longer reads for more detail, making it a great children's book for a range of age groups. Get Involved - Make A Difference! Almost everything we do creates waste, from litter and leftovers to factory gases and old gadgets. Find out where it goes, how it affects our planet and what we can do to reduce the problem. From how to make your home more energy and water efficient, to which items can be recycled and tips for grocery shopping, this book is packed full of ideas on how you can get involved to make our planet a better place to live. This environment book for children has a wealth of ideas for becoming a planet-defending hero: - Discover shocking facts about the waste we produce and where it goes - Learn where about our Earth's limited resources and how to take some pressure off - Your trash is another man's treasure - Small changes to take your home from wasteful to super resource efficient - Dive into saving our oceans and super recycling - And much, much more What a Waste is one of several nature books for kids written by Jess French, a passionate conservationist and veterinarian committed to protecting the beautiful world we live in.

The Comprehension Toolkit - Stephanie Harvey 2005

Grades 3-6 "Active literacy is the means to deeper understanding and diverse, flexible thinking, and is the hallmark of our approach to teaching and learning. Reading, writing, talking, listening, and investigating are the cornerstones of active literacy. The Toolkit captures the language of thinking we use to explicitly teach kids to comprehend the wide variety of informational text they encounter. Through the Toolkit lessons, we

demonstrate how the kids adopt and adapt our teaching language as their learning language." - Stephanie Harvey and Anne Goudvis In The Comprehension Toolkit, Stephanie Harvey and Anne Goudvis have created an intensive curricular resource designed to help students understand, respond to, and learn from nonfiction text. By actively engaging students in reading, talking, and writing about information and ideas, The Comprehension Toolkit provides a foundation for developing independent readers and learners across the curriculum and throughout the school year. Framed around the Gradual Release of Responsibility approach, The Comprehension Toolkit provides scaffolded comprehension strategy instruction. First through modeling and guided practice, then releasing responsibility to students through collaborative practice, independent practice, and application, the Toolkit's lessons teach students to use comprehension strategies flexibly in a variety of texts, topics, and subject areas. Professional Support A series of resources introduce, support, and extend the Toolkit's core lessons. The Teacher's Guide outlines the thinking behind the Toolkit and describes its components, instructional design, and assessment options. The Resources for The Comprehension Toolkit CD-ROM provides an array of print and video resources including a photographic overview of an Active Literacy Classroom, downloadable research articles, templates, assessment masters, and full-colour lesson text. Extend and Investigate helps you extend the Toolkit's comprehension strategies across the curriculum and throughout the year. It provides strategies for content area reading and research, textbook reading, test reading, and a variety of practical bibliographies. 6 Strategy Clusters The 26 strategy lessons in The Comprehension Toolkit are organized into six Strategy Cluster books. Informational Text A series of short, engaging, real-world informational texts provide an effective context for using and practising the Toolkit's comprehension strategies. The Source Book of Short Text provides two kinds of nonfiction text: Lesson Text, 24 articles from children's magazines; and Nonfiction Short Text, 43 short informational articles specially written for the Toolkit.

Behavioral Neuroscience of Orexin/Hypocretin - Andrew J. Lawrence (Professor of behavioural neuroscience) 2017

This issue of Current Topics in Behavioral Neuroscience focuses on the neuropeptide orexin (hypocretin) and brings together scientists from around the world who will provide a timely discussion of how this peptide regulates behavior. This is a fast-moving field, and with the incorporation of novel technologies, new breakthroughs are likely to continue. For

example, the use of optogenetic approaches has enabled the identification of the role of orexin-containing neurons in arousal states, critical for higher order functioning. From a clinical perspective, genetic polymorphisms in hypocretin/orexin and orexin receptors are implicated in a number of psychiatric disorders. In addition, advanced clinical trials are currently underway for orexin receptor antagonists in the treatment of insomnia and sleep disorders. We aim to capture a broad audience of basic scientists and clinicians.

TreeTops Myths and Legends - Oxford 2010-01-21

These exciting new TreeTops Myths and Legends are guaranteed to appeal to all your junior readers - whatever their cultural background, gender or enthusiasms. These are the oldest and most enduring stories in the world, retold by leading contemporary children's authors to bring out all of the action, drama, humour and depth of the original stories in a way that makes them as exciting and meaningful today as ever. The strand is comprised of 24 books, telling a total of around 65 traditional stories from around the world. All of the stories are fully illustrated with stunning, vibrant images. The stories are carefully levelled, making them accessible to the average 7-11 year old reader. A thought-provoking letter from the author explains something about the background of the stories and the process of writing or retelling them. The letter also encourages the reader to make links between stories in a collection - prompting a fascinating investigation of the similarities and differences between stories that have evolved from different cultures around the world. Free teaching notes with each pack offer suggestions on how to develop higher order comprehension and writing skills. They also provide short introductions to many of the stories and discussion points to promote meaningful speaking and listening, and reflective reading. The stories are ideal for making strong links to other areas of curriculum.
