Forensic Pathology of Trauma - Michael J. Shkrum 2007-11-06

The practice of forensic pathology includes the collection and analysis of evidence in relation to a corpse in order to establish the cause of death. Knowledge of the cause of death contributes to the determination of the manner of death by medical examiners and coroners, who are occasionally assisted by law enforcement officers. In the process of establishing the cause and manner of death, representatives of various investigative bodies have several responsibilities, including explaining the death to family members, attempting to reduce the risk of similar deaths in the future, and, if applicable, apprehending the individuals who are responsible for the death. The most well-known and popular role of a forensic pathologist is in the investigation of cases of suspicious death; however, most medicolegal autopsies involve unexpected deaths that are above suspicion, many of which are caused by trauma (trauma being defined as any physical force or agent that causes bodily harm). The purpose of *Forensic Pathology of Trauma: Common Problems for the Pathologist* is to provide practical advice and information about the conduct of the forensic autopsy in cases of trauma, and to offer guidance about the analysis of the autopsy findings in these cases.

Constitutional Identity - Gary J. Jacobsohn 2010-10-25

"Argues that a constitution acquires an identity through experience--from a mix of the political aspirations and commitments that express a nation's past and the desire to transcend that past. It is changeable but resistant to its own destruction and manifests itself in various ways, as Jacobsohn shows in examples as far flung as India, Ireland, Israel, and the United States. Jacobsohn argues that the presence of disharmony--both the tensions within a constitutional order and those that exist between a constitutional document and the society it seeks to regulate--is critical to understanding the theory and dynamics of constitutional identity"--Jacket.

The Challenge of Crime in a Free Society - United States. President's Commission on Law Enforcement and Administration of Justice 1967

This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

The Dare - Harley Laroux 2021-01-26

Warning: This erotica contains scenes and elements that may be disturbing to some readers. Please review

the full content warning below. Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The "freak," Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? This book contains intense fantasy scenes of hard kinks/edgeplay, graphic sex, and harsh language. It is intended only for an adult audience. Beware: this is a dark, weird, kinky read. The activities depicted therein are dangerous and are not meant to be an example of realistic BDSM. Reader discretion is advised. Kinks/Fetishes within: erotic humiliation, fearplay, painplay, knifeplay, consensual non-consent (CNC), orgasm denial, boot worship, spanking, crying, blowjobs, clowns, group sexual activities, spit, bondage, public play, bloodplay.

The Local Relevance of Human Rights - Koen De Feyter 2011-09-08

Do human rights offer real protection when disadvantaged groups invoke them at the local level in an attempt to improve their living conditions? If so, how can we make sure that the experiences of those invoking human rights at the local level have an impact on the further development of human rights (at national and other levels) so that the local relevance of human rights increases? Since the adoption of the Universal Declaration of Human Rights (UDHR) on 10 December 1948, numerous international documents have reaffirmed human rights as global norms. This book examines what factors determine whether appeals to human rights that emanate from the local level are successful, and whether the UDHR adequately responds to threats as currently defined by relevant groups or whether a revision of some of the ideas included in the UDHR is needed in order to increase its contemporary relevance.
