**Drumsense** - Colin Woolway 2003-06  
The idea of Drumsense is to provide a support system to bring together like minded teachers from all over the United Kingdom, and training them to use the same programme. This programme will determine a standard of teaching, and a diploma will be created to recognise this standard. The teachers are required to fly the Drumsense flag in order to achieve this diploma. Its approach to beginners. The programme is based on the Drumsense books, which take the complete novice through the basics of drumkit playing, like a foundation course. It is this programme that sets the contemporary standard for drumkit teaching which will be used by modern teachers across the country. It is also the first programme to be aimed at private and peripatetic (schools) teachers. If a Drumkit student is having lessons at school, using the Drumsense books, but decides to switch to private lessons, he or she simply looks for a teacher using the Drumsense programme, and continues from where they left off with the new teacher. Or, if a students is having private lessons in Southampton, and decides to move home to Glasgow, lessons can

continue with a Drumsense teacher in that area. then a teacher trained in the Drumsense programme could 'fill in' without any problem. Teachers could even train their own deputies to take over in emergencies.

**Bebop** - Thomas Owens 1996-05-23  
"When bebop was new," writes Thomas Owens, "many jazz musicians and most of the jazz audience heard it as

radical, chaotic, bewildering music." For a nation swinging to the smoothly orchestrated sounds of the big bands, this revolutionary movement of the 1940s must have seemed destined for a short life on the musical fringe. But today, Owens writes, bebop is nothing less than "the lingua franca of jazz, serving as the principal musical language of thousands of jazz musicians." In *Bebop*, Owens conducts us on an insightful, loving tour through the music, players, and recordings that changed American culture. Combining vivid portraits of bebop's gigantic personalities with deft musical analysis, he ranges from the early classics of modern jazz (starting with the 1943 Onyx Club performances of Dizzy Gillespie, Max Roach, Oscar Pettiford, Don Byas, and George Wallington) through the central role of Charlie Parker, to an instrument-by-instrument look at the key players and their innovations. Illustrating his discussion with numerous musical excerpts, Owens skillfully demonstrates why bebop was so revolutionary, with fascinating glimpses of the tempestuous jazz world: Thelonious Monk, for example, did "everything 'wrong' in the sense of traditional piano technique...Because his right elbow fanned outward away from his body, he often hit the keys at an angle rather than in parallel. Sometimes he hit a single key with more than one finger, and divided single-line melodies between two hands." In addition to his discussions of individual instruments and players, Owens examines ensembles, with their sometimes volatile collaborations: in the Jazz Messengers, Benny Golson told of how his own mellow saxophone playing would get lost under Art Blakey's furious drumming: "He would do one of those famous four-bar drum rolls going into the next chorus, and I would completely disappear. He

would holler over at me, 'Get up out of that hole!'" In this marvelous account, Owens comes right to the present day, with accounts of new musicians ranging from the Marsalis brothers to lesser-known masters like pianist Michel Petrucciani. Bebop is a jazz-lover's dream--a serious yet highly personal look at America's most distinctive music.

*Rock Drumming with Quintuplets* - Joel Rothman 1984

*Best Seat in the House* - Jerry Shirley 2011

(Book). Here is a hard rock memoir essentially an authorized bio on the endearing British rock band Humble Pie as told from the drum throne and

backstage hallways during the emerging days of the Seventies classic rock era. In 1969, Jerry Shirley was chosen to drum in a new band led by Steve Marriott and Peter Frampton. He had just turned 17. Along with bassist Greg Ridley, and manager Dee Anthony, the Pie started a 6-year journey that stormed the US and defined Arena Rock bigger sound, bigger contracts, and bigger parties. Along the way Jerry meets with future legends that make for a star-studded bio and rare glimpse into the rock music industry. Written in his own voice and with a wicked musician sense of humor, Jerry details the vibrant scene that created the explosive sound of heavy rock. He explains how sessions were conducted by iconic engineers like Glyn Johns and Eddie Kramer, describes his session work with Syd Barrett and George Harrison and tells amusing tales like drum shopping with the Who's Keith Moon. What was it like to perform a sold-out show at Shea Stadium, play for 250,000 in Hyde Park, charter a private jet for tour, record the trend-setting live record at the Fillmore East (that spawned the FM radio staple "I Don't Need No Doctor"), get hyped for the stage by Dee Anthony, and deal with the drugs and excesses of this inhibitive era of rock? This book definitely answers those question as well as "What was it like to meet, play, record, tour, party, and fight with cult hero Steve Marriott?" No other book can cover it like this.
