Naval Expenditures - United States. Navy Department. Bureau of Supplies and Accounts 1941

At the Creation - Herbert Wagner 2003

At the Creation by Herbert Wagner brings to life the human side of Harley-Davidson's quest to motorize the bicycle and then to promote it as a powerful, fast, reliable, and thrilling means of personal transportation. This book examines the origins of two-wheeled transportation from a time when combining the gasoline engine with the bicycle was the province of dreamers and con men. This is the definitive account of the beginnings of the only American motorcycle brand to ultimately succeed and survive. Backed by a decade of research, At the Creation documents for the first time the early years of the Harley-Davidson motorcycle in its birthplace of Milwaukee, Wisconsin, an area that was an early center of motorcycle manufacturing. Previous books on Harley-Davidson have failed to adequately cover this critical period, which has been described as the "era of mystery" by Harley-Davidson company historian Martin Jack Rosenblum. At the Creation takes on several long-standing puzzles and myths, and then, through the use of period documents and original photographs, recreates the actual events of Harley's first years as they most plausibly occurred.

A City At War - Richard L. Pifer 2014-03-07

Milwaukeeans greeted the advent of World War II with the same determination as other Americans. Everyone felt the effect of the war, whether through concern for loved ones in danger, longer work hours, consumer shortages, or participation in war service organizations and drives. Men and women workers produced the essential goods necessary for victory—the vehicles, weapons, munitions, and components for all the machinery of war. But even in wartime there were labor conflicts, fueled by the sacrifices and tensions of wartime life. A City at War focuses on the experience of working men and women in a community that was not a wartime boom town. It looks at the stands of the CIO and the AFL against low wartime wages, and at women in unionized factories facing the perceptions and goals of male workers, union leaders, and society itself. Here is a social history of wartime Milwaukee and its workers as they laid the groundwork for a secure postwar future.
