The Transformation of American Political Culture and the Impact on Foreign Strategy - PAN Yaling 2021-12-31

This book examines the interplay between political culture and diplomatic strategy in the U.S., revealing the transformation of

American political culture and its impact on the country's foreign strategy. The theoretical pivot of this study is an analysis of the dynamics of political culture and the mechanisms of the interaction between political culture and diplomatic strategy. Given this premise, the core chapters revisit the historical transformations of American political culture and analyze the responses and countermeasures taken to attempt to reverse the perceived decline in American hegemony during the presidencies of George W. Bush, Barack Obama, and Donald Trump, factors interwoven with security, economic, and institutional crises. The discussion describes the landscape and evolution of contemporary American political culture and the correlated adjustments of U.S. global strategy over the course of the twenty first century. Given the myriad of challenges and political legacies left by its predecessors, the author gives a pessimistic prognosis of the prospect of resolving America's political plight by the Joe Biden administration. The title will be a valuable reference for academic and general readers interested in American politics, U.S. diplomatic strategy, and international relations.

Ethnic Boundaries in Turkish Politics - Zeki Sarigil 2018-09-04

The Kurdish Movement in Turkey's growing alliance with Islam One of the fault lines of Turkish politics traditionally has been the divide between religious and secular movements. However, as Zeki Sarigil argues, the secular Kurdish movement in Turkey has increasingly become aligned with Islam. As a result, Islam has become part of the movement's political discourse, strategies and actions. Ethnic Boundaries in Turkish Politics traces the evolving relations between the leftist, secular Kurdish movement and Islam, from an apathetic and/or antagonistic attitude in the 1970s and 1980s to an increasingly Islam-friendly approach in the 1990s to an attitude of accommodation and the rise of Kurdish-Islamic synthesis in the early 2000s. Based on 104 interviews in several provinces in Turkey (primarily Ankara, Diyarbakir, Istanbul, and Tunceli) between 2011 and 2015 as well as ethnographic data, public opinion surveys and statements from the Kurdistan Workers' Party (PKK) and Kurdish leaders, Sarigil shows how the secular Kurdish movement increasingly has been endorsing Islam and Islamic actors. The reasons for this Islamic opening are global, national, and

local; Sarigil demonstrates that a group of strategic and ideological factors have encouraged and/or forced Kurdish leaders to redraw symbolic and social boundaries of the movement. Namely, with the end of the Cold War support for Marxist ideas collapsed, creating increasingly more favorable responses towards religion. In addition, the movement's need to expand its social basis and popularity; electoral politics; and legitimacy struggles against rival political actors were other major factors, which triggered the Kurdish movement's boundary expansion (i.e. its Islamic opening). The study also shows that the Kurdish boundary making was not without any tension or contestation. The boundary expansion by Kurdish ethnopolitical elites triggered both internal and external boundary contestations. The movement's embrace of Islam on a more widespread level has major ramifications for politics in Turkey and in the region. Ethnic Boundaries in Turkish Politics has important insight into the PKK, modern Turkish and Islamic societies and highlights the increasing role of Islam in global politics.

Radical Identity Politics - Torben Bech Dyrberg 2020-07-31

This book outlines significant traits of radical leftist identity politics. In this type of discourse, arguments are organized around global friend/enemy schemes in ways that are at odds with the right/left matrix of democracy. This is shown by combining discourse analysis of how leftist critics argue in public debates centred on their reactions to the Charlie Hebdo massacre in 2015 and theoretical discussions on leftist identity politics orbiting around Schmitt, Marcuse and Mouffe. It is argued that the friend/enemy approach sacrifices the egalitarian and libertarian core values of the Left, leading it to adopt positions used to brand the reactionary Right. It also

holds that leftist identity politics undermines democracy by moralizing enmity and stigmatizing dissent, and by promoting an elitist and relativist agenda. Against this background, the book looks at the nature of the right/left distinction and its political functions in modern democracy. This is further elaborated in relation to the works of Foucault and Rawls's analyses of parrhesia (free speech) and public reason, which provide a more fruitful approach to right/left and democracy than those based on enmity. For Foucault and Rawls, a vibrant pluralist democracy relies on the autonomy of politics, which secures a space in which citizens are free and equal, which is crucial for free speech and assembly. They focus on issues related to the autonomy of politics and the freestanding nature of public reason; right/left as lateral political orientation coupled with fairness as political justification and the links between regime form and political community as decisive for democracy.

Looking at the studies of analysts such as Putnam it assesses its usefulness and highlights attitudes within society. Revealing attitudes from society towards their democratic structures and how voting turnout, declining political membership and increasing pressure groups have seen a different approach from society towards democratic institutions. The role of religion within this framework and a selection of key thinkers on the matter of how this civil society and religion fit and act together. Revolutionizing Economic and Democratic Systems - Kenneth Nordberg 2016-11-23

This book responds to an increasingly pluricentric, reflexive, and flexible society as a result of globalization and economic liberation from the bureaucratic-political system. The third industrial revolution saw citizens, companies, and the economy acting in functional networks rather than in static ones, making top-down governing ever more difficult. Despite this, society systems created in the wake of the second industrial revolution linger on and must adapt to the globalized, digitized reality

in order to stay necessary and relevant. Through a theoretical discussion and four empirical cases studying governance and innovation systems, this volume is the first to describe the causes behind the impasse Western society seems to find itself in and suggests inclusive economic and democratic structures working in a bottom-up fashion as a way out. By understanding local circumstances as well as the innovative power of inclusive and participative structures, we can begin to pave the way to legitimate governance and growth. This book adds to the academic literature on democracy, governance, economy, and innovation systems for researchers and scholars of political science, social science, and economics.

Post-Secular Society - Gustaaf Geeraerts 2017-07-28

Post-Secular Society argues for several characteristics of the secular: the experience of living in a secular age and the experience of living without religion as a normal condition. Religion in the West is often seen as marked by both innovation and disarray. In spite of differing approaches and perspectives

of secularization, rational choice and de-secularization, many scholars agree that the West is experiencing a general "resurgence" of religion across most Western societies. Post-Secular Society discusses the changes in religion related to globalization and New Age forms of popular religion. The contributors review religion that is rooted in the globalized political economy and the relationship of post-secularism to popular consumer culture. Also reviewed is innovative discourse as a religious belief system, theories of the post-secular, religious, and spiritual well-being, and healing practices in Finland and environmentalism. This paperback edition includes a new preface by Peter Nynas.

Citizenship, Identity and Social Movements in the New Hong Kong - Wai-man Lam 2017-09-11

Hong Kong's 'Umbrella Revolution' has been widely regarded as a watershed moment in the polity's post-1997 history. While public protest has long been a routine part of Hong Kong's political culture, the preparedness of large numbers of citizens to participate in civil disobedience represented a new moment for Hong Kong society, reflecting both a very high level of politicisation and a deteriorating relationship with Beijing. The transformative processes underpinning the dramatic events of autumn 2014 have a wide relevance to scholarly debates on Hong Kong, China and the changing contours of world politics today. This book provides an accessible entry point into the political and social cleavages that

underpinned, and were expressed through, the Umbrella Movement. A key focus is the societal context and issues that have led to growth in a Hong Kong identity and how this became highly politically charged during the Umbrella Movement. It is widely recognised that political and ethnic identity has become a key cleavage in Hong Kong society. But there is little agreement amongst citizens about what it means to 'be Hong Konger' today or whether this identity is compatible or conflicting with 'being Chinese'. The book locates these identity cleavages within their historical context and uses a range of theories to understand these processes, including theories of nationalism, social identity, ethnic conflict, nativism and cosmopolitanism. This theoretical plurality allows the reader to see the new localism in its full diversity and complexity and to reflect on the evolving nature of Hong Kong's relationship with Mainland China.

The Politics of Vietnamese Craft -
Jennifer Way 2019-10-03

Jennifer Way's study *The Politics of
Vietnamese Craft* uncovers a little-
known chapter in the history of
American cultural diplomacy, in which

Vietnamese craft production was
encouraged and shaped by the US State
Department as an object for
consumption by middle class America.
Way explores how American business
and commerce, department stores, the
art world and national museums
variously guided the marketing and
meanings of Vietnamese craft in order
to advance American diplomatic and
domestic interests. Conversely,
American uses of Vietnamese craft
provide an example of how the United
States aimed to absorb post-colonial
South Vietnam into the 'Free World',
in a Cold War context of American
anxiety about communism spreading
throughout Southeast Asia. Way
focuses in particular on the part
played by the renowned American
designer Russel Wright, contracted by
the US International Cooperation
Administration's aid programs for
South Vietnam to survey the craft
industry in South Vietnam and manage
its production, distribution and
consumption abroad and at home. Way
shows how Wright and his staff
brought American ideas about
Vietnamese history and culture to
bear in managing the making of
Vietnamese craft.
