The 1985 Si introduced Honda's new Programmed Fuel Injection system. In answer to European criticism about a lack of power, a 16V 1600cc engine arrived here in 1986 giving 125bhp. Sport Compacts - Alan Paradise

Western Washington State -
Two cantankerous characters,
fifty somethings fall in love - a
lady state trooper and a
software mogul. She is
widowed, he is a confirmed

bachelor. Sparks fly, but a relationship is born or should we say reborn - they do not remember their first meeting as children who shared many interests. She was seven and he was nine when they met on that Whidbey Island beach long ago. Little did the lovers know of the coming storm - it would put their very lives on the line. They were troubled with premonitions. Fate would put them together at the wrong place at the wrong time - or so it seems, in the path of dangerous fanatics. Thrust into the fire, these defenders of the homeland and a handful of others faced the fight of their life on that icy wet November

night against a determined terrorist cell with big plans. Would the couple survive to their wedding day? Would they even survive the night? Divine intervention from another character of supernatural persuasion, which had followed them from their very births, might help their odds. This 'secret' friend could have been responsible for incidents and accidents in their past that led up to this stormy November night. "That hillbilly angel is meddlin' agin' " The author, Eric G. Waggoner was born May 24, 1956 in Everett, Washington and has lived in western Washington most of his life. He is a production worker at the

Boeing Company in Everett and a freelance writer. This is his first novel offering, a dark somewhat romantic comedy with a good helping of dangerous adventure and explosive action involving a couple of cantankerous hillbillies. He cites various influences - Hunter S.

Thompson, Tom Robbins, Ken Kesey, James Michener and others too numerous to mention. A teller of tall tales, he hopes this is tall enough for you. Eric now lives in Marysville with his wife and his 16 year old daughter.

The first book of its kind, [How to Rebuild the Honda B-Series Engine](#) shows exactly how to rebuild the ever-popular Honda B-series engine. The book explains variations between the different B-series designations and elaborates upon the features that make this engine family such a tremendous and reliable design. Honda B-series engines are some of the most popular for enthusiasts to swap, and they came in many popular Honda and Acura models over the years, including the Civic, Integra, Accord, Prelude, CRX,

del Sol, and even the CR-V. In this special Workbench book, author Jason Siu uses more than 600 photos, charts, and illustrations to give simple step-by-step instructions on disassembly, cleaning, machining tips, pre-assembly fitting, and final assembly. This book gives considerations for both stock and performance rebuilds. It also guides you through both the easy and tricky procedures, showing you how to rebuild your engine and ensure it is working perfectly. Dealing with considerations for all B-series engines-foreign and domestic, VTEC and non-VTEC-the book also illustrates many of the wildly vast

performance components, accessories, and upgrades available for B-series engines. As with all Workbench titles, this book details and highlights special components, tools, chemicals, and other accessories needed to get the job done right, the first time. Appendices are packed full of valuable reference information, and the book includes a Work-Along-Sheet to help you record vital statistics and measurements along the way. You'll even find tips that will help you save money without compromising top-notch results. *Popular Science* - 1992-06 Popular Science gives our readers the information and
