Alice in Wonderland - Lewis Carroll 2009-01-01

Alice in Wonderland (also known as Alice's Adventures in Wonderland), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

The Stupid Country - Chris Bonnor 2007

With insight, passion, and a great sense of urgency Chris Bonnor and Jane Caro show how government, anxious parents, the church, and ideology are combining to undermine public schools. The Stupid Country is not a one-sided defence of public education. But it challenges readers to consider whether the current path risks the health of public schools and everything they have created--prosperity, unity, stability--

even, perhaps, democracy.

The Everything Store - Brad Stone 2013-10-15

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite

innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

How All Politics Became Reproductive Politics - Laura Briggs 2018-08-14

Today all politics are reproductive politics, argues esteemed feminist critic Laura Briggs. From longer work hours to the election of Donald Trump, our current political crisis is above all about reproduction. Households are where we face our economic realities as social safety nets get cut and wages decline. Briggs brilliantly outlines how politicians' racist accounts of reproduction—stories of Black

“welfare queens” and Latina “breeding machines”—were the leading wedge in the government and business disinvestment in families. With decreasing wages, rising McJobs, and no resources for family care, our households have grown ever more precarious over the past forty years in sharply race-and class-stratified ways. This crisis, argues Briggs, fuels all others—from immigration to gay marriage, anti-feminism to the rise of the Tea Party.

"Ddu is nicer than Human" is a PDF version of "Nabarava" an e-pub-type E-book published in six volumes. We bound up six volumes into one, so we do not wish to have duplicate

purchases by readers who have already purchased in single volume. Dianus King's worldview is all new and vast. The key to his worldview in the Nabarava series is the Grumm World. There are six stories in "Ddu is nicer than Human" that are independent, and connected like a puzzle. Nabarava's main characters are Cukang, Bangku and Cudangs, but Dianus King made the minor characters through Storyteller and Mini versions into main characters. This unique composition allows readers to understand the Grumm World in a variety of ways. To explain briefly with the character, this is what it is. O, K, and Qonya shows how interesting public transportation is. Gisaro, who is tone-deaf, gives information that there are Coucouos on the Grumm planet that are similar to dinosaurs on Earth. Dalgma tells us that there are many craftsmen living on the continent of Jaran. Nomudara, who makes Romendery candy, tells the story of Ddus' love. Masiddama tells friendships

with her Earth friend by food-related stories. During your trip to Grumm World with this work, your smartphone will turn into a wonderful paper book. It also recommends Nabarava OST, which invigorates the trip. "Contents" 1. Uco's Lucky Horn 2. DJ Dalgma 3. Nomudara's Candy Shop 4. The Elderly Woman Masiddama's A Box Lunch 5. We Are All Made of Stars - Rowan Coleman 2016-07-26

"Fans of Jojo Moyes will love We Are All Made of Stars" (Good Housekeeping). "A beautiful web of a book" (Jodi Picoult), this life-affirming novel tells an unforgettable story about second chances, the power of words, and the resilience of the heart. A dedicated nurse, Stella finds comfort at the hospice where she works the late shift, especially since her husband returned from Afghanistan—cold, distant, and shattered by painful memories he refuses to share. The

hospice at night is another world, where the dying receive closure by creating the letters that Stella helps them write. The pages are filled with love and humor, sometimes regret, and, occasionally, even instructions for a perplexed husband on how to run appliances. There's one rule: The letters are mailed only after the patient has passed. Suddenly Stella is faced with a dilemma: A woman under her care, Grace, has written a confession to the son she abandoned many years before. The letter clearly needs to be read before Grace dies. But if Stella mails it now, she breaks the rule—and risks tampering not only with Grace's wishes but also with fate. Navigating passion and grief, loyalty and loss, and a marriage threatened by silence and secrets, Stella discovers that letters hold a special power: granting solace, saving memories, nurturing relationships. As the words endure, love redeems. Praise for *We Are All Made of Stars* "A beautiful web of a book that

reminds us of how we are all connected, and how to die—and live—without regrets. Is that a tear in my eye? Idiot America - Charles Pierce
2010-05-04

NATIONAL BESTSELLER The three Great Premises of Idiot America: · Any theory is valid if it sells books, soaks up ratings, or otherwise moves units · Anything can be true if someone says it loudly enough · Fact is that which enough people believe. Truth is determined by how fervently they believe it With his trademark wit and insight, veteran journalist Charles Pierce delivers a gut-wrenching, side-splitting lament about the glorification of ignorance in the United States. Pierce asks how a country founded on intellectual curiosity has somehow deteriorated into a nation of

simpletons more apt to vote for an American Idol contestant than a presidential candidate. But his thunderous denunciation is also a secret call to action, as he hopes that somehow, being intelligent will stop being a stigma, and that pinheads will once again be pitied, not celebrated. Erudite and razor-sharp, Idiot America is at once an invigorating history lesson, a cutting cultural critique, and a bullish appeal to our smarter selves.

Nineteen Eighty-Four - George Orwell 2021-01-09

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the

authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember

what life was like before the Party came to power.

He did not care about his soldiers, he did not care about the theatre; he only liked to go out walking to show off his new clothes. He had a coat for every hour of the day; and just as they say of a king, 'He is in the council-chamber,' they always said here, 'The Emperor is in the

wardrobe.' In the great city in which he lived there was always something going on; every day many strangers came there. One day two impostors arrived who gave themselves out as weavers, and said that they knew how to manufacture the most beautiful cloth imaginable. Not only were the texture and pattern uncommonly beautiful, but clothes which were made of the stuff possessed this wonderful property that they were invisible to anyone who was not fit for his office, or who was unpardonably stupid. 'Those must indeed be splendid clothes,' thought the Emperor. 'If I had them on I could find out which men in my kingdom are unfit for the offices they hold; I could distinguish the wise from the stupid! Yes, this cloth must be woven for me at once.' And he gave both the impostors much money, so that they might begin their work. They placed two weaving- looms, and began to do as if they were working, but they had not the least thing on the looms. They also demanded the

finest silk and the best gold, which they put in their pockets, and worked at the empty looms till late into the night. 'I should like very much to know how far they have got on with the cloth,' thought the Emperor. But he remembered when he thought about it that whoever was stupid or not fit for his office would not be able to see it. Now he certainly believed that he had nothing to fear for himself, but he wanted first to send somebody else in order to see how he stood with regard to his office. Everybody in the whole town knew what a wonderful power the cloth had, and they were all curious to see how bad or how stupid their neighbour was. 'I will send my old and honoured minister to the weavers,' thought the Emperor. 'He can judge best what the cloth is like, for he has intellect, and no one understands his office better than he.' Now the good old minister went into the hall where the two impostors sat working at the empty weaving- looms. 'Dear me!' thought the old minister, opening his eyes

wide, 'I can see nothing!' But he did not say so. Both the impostors begged him to be so kind as to step closer, and asked him if it were not a beautiful texture and lovely colours. They pointed to the empty loom, and the poor old minister went forward rubbing his eyes; but he could see nothing, for there was nothing there. 'Dear, dear!' thought he, 'can I be stupid? I have never thought that, and nobody must know it! Can I be not fit for my office? No, I must certainly not say that I cannot see the cloth!' 'Have you nothing to say about it?' asked one of the men who was weaving.

Alice - Lewis Carroll

2018-08-27

Alice was beginning to get very tired of sitting by her sister on the bank, and of having nothing to do: once or twice she had peeped into the book her sister was reading, but it had no pictures or conversations in it, 'and what is the use of a book,' thought Alice 'without pictures or conversations?' So she was considering in her own mind

(as well as she could, for the hot day made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be worth the trouble of getting up and picking the daisies, when suddenly a White Rabbit with pink eyes ran close by her. There was nothing so very remarkable in that; nor did Alice think it so very much out of the way to hear the Rabbit say to itself, 'Oh dear! Oh dear! I shall be late!' (when she thought it over afterwards, it occurred to her that she ought to have wondered at this, but at the time it all seemed quite natural); but when the Rabbit actually took a watch out of its waistcoat-pocket, and looked at it, and then hurried on, Alice started to her feet, for it flashed across her mind that she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take out of it, and burning with curiosity, she ran across the field after it, and fortunately was just in time to see it pop down a large rabbit-hole under the hedge. In another moment

down went Alice after it, never once considering how in the world she was to get out again. The rabbit-hole went straight on like a tunnel for some way, and then dipped suddenly down, so suddenly that Alice had not a moment to think about stopping herself before she found herself falling down a very deep well.

The Turn of the Screw, originally published in 1898, is

a novella written by Henry James. The story, a part of Gothic and ghost story genres, first appeared in serial format in Collier's Weekly magazine (27 January - 16 April 1898). In October 1898 it appeared in *The Two Magics*, a book published by Macmillan in New York City and Heinemann in London.
