

# Ignou Mca Semester 1 Question Papers With Answers

Right here, we have countless book **Ignou Mca Semester 1 Question Papers With Answers** and collections to check out. We additionally give variant types and with type of the books to browse. The adequate book, fiction, history, novel, scientific research, as well as various supplementary sorts of books are readily reachable here.

As this Ignou Mca Semester 1 Question Papers With Answers , it ends occurring physical one of the favored books Ignou Mca Semester 1 Question Papers With Answers collections that we have. This is why you remain in the best website to see the amazing book to have.

## **Black Iron** - Franklin Veaux 2018

It's 1855, but not as we know it. The schism between the One True French Catholic Church and the heretical Italian Catholic Church has stoked three centuries of conflict, imploding the dream of European ascendancy. Thousands flee the Spanish Inquisition for havens in Germany, France, Britain and the colonies of the New World. The face and character of London has been indelibly altered by generations of refugees. Tasked with keeping order and preserving the ecumenical vision of the Holy French Catholic Church in the face of throngs clamoring for traditional British values, the London police find themselves in an awkward position. And nobody is quite sure how to deal with the technological innovation of animates: mindless laborers crafted from the body parts of the dead. A murderous plot with far-reaching implications casts a city torn between renaissance and tyranny as the unwitting catalyst for unspeakable global calamity. The fate of this world lies, as it often does, in the hands of a motley and disparate crew brought together by inglorious serendipity. Ironworks and iron fists will take London, and the Old World with it, to the cutting edge of a treacherous new century.

## **University of Delhi** - Rph Editorial Board 2020-10

This comprehensive book is specially developed for the candidates of Delhi University: B.Tech (Information Technology & Mathematical Innovations) Entrance Exam. This book includes Model Paper & Study Material for the purpose of practice of questions based on the latest pattern of the examination. Detailed Explanatory Answers have also been provided for the selected questions for Better Understanding of the Candidates.

## **MCS-013: Discrete Mathematics** - Dr. DK Sukhani

This book is useful for IGNOU BCA & MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-013: Discrete Mathematics Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Discrete Mathematical Structures, Formal Methods: Introduction and Analogy, Abstraction. Fundamentals: Sets & Relations- Sets, Types of Sets, Multi Sets, Operations on Sets, Relations and Properties of Relations, Representation of Relations, Equivalence Relation, Closures of Relations, Methods of Proof-Direct Proofs, Indirect Proofs, Mathematical Induction, Method of Contradiction. Combinatorics: Permutations and Combinations, Pigeon Hole Principle, Principle of Inclusion and Exclusion, Generating Functions. Mathematical Logic, Posets and Lattices: Partial Order Set, Bounding Elements, Well Ordered Set, Topological Sorting, Lattices, Principle of Duality, Bounded, Distributed, and Complemented Lattices, Proposition and Propositional Calculus. Graphs and Group Theory: Basic Introduction of Graphs- Types of Graphs, Path and Circuits, Eulerian Path and Circuits, Hamiltonian Path and Circuits, Shortest Path Algorithms, Group. Definitions and Properties, Coset & Subgroup, Normal subgroup, Homomorphism of groups, Cyclic Group, Permutation Group. Finite State Machines and Languages:

Grammar and Languages- Phrase structure Grammar, Types of Grammars and Languages, Finite State Machines and Languages, Minimization of Finite State Machines.

## **DBMS Lab Manual** - Jitendra Patel 2012-12-01

This manual is specially written for Students who are interested in understanding Structured Query Language and PL-SQL concepts in the Computer Engineering and Information technology field and wants to gain enhance knowledge about power of SQL Language in Relational Database Management System Development. The manual covers practical point of view in all aspects of SQL and PL/SQL including DDL, DML, DCL sublanguages, also there are practices for Views, Group by, Having Clause. All PL-SQL concepts like Condition and Loop Structures, Functions and Procedures, Cursor, Triggers, Locks are illustrated using best examples

## **ACCA F4 Corporate and Business Law (Global)** - BPP

Learning Media 2017-02-17

BPP Learning Media is an ACCA Approved Content Provider. Our partnership with ACCA means that our Study Texts, Practice & Revision Kits and iPass (for CBE papers only) are subject to a thorough ACCA examining team review. Our suite of study tools will provide you with all the accurate and up-to-date material you need for exam success.

## **Food Production Operations** - CHEF PARVINDER S. BALI

2021-01-27

Food Production Operations, 3e is a comprehensive text designed for students of degree and diploma courses in hotel management. The book aims to introduce students to the world of professional cookery.

## **PROGRAMMING IN C++** - Suresh Kumar Mandala & Neelima

Gurrapu 2021-05-06

This book is intended to teach the design and analysis of basic data structures and their implementation in an object-oriented language. In this edition, the language happens to be C++. This book is not intended to act as an introduction to the C++ programming language. Readers of this book need only be familiar with the basic syntax of C++ and similar languages. Those wishing to work with the accompanying source code should have some experience programming in C++. This book is also not intended as an introduction to the C++ Standard Template Library or the generic programming paradigm that the STL embodies. This book describes implementations of several different data structures, many of which are used in implementations of the STL. The contents of this book may help an STL programmer understand how some of the STL data structures are implemented and why these implementations are efficient.

## **System Analysis & Design Hand Book** - Dr. V.K. Jain

2000-12-02

This book has been designed to examine some basic systems concepts that are useful in understanding the role and development of information systems for business. When the overall relationships of a system, or of its component systems is sufficiently stable so that reliable predictions can be made about the systems outputs, the entire system or sub-system can be automated to produce wonderful results. Chapter 1: Systems Chapter 2: Business Systems & Information Chapter

3: Project Selection and Preliminary Investigation  
Chapter 4: Feasibility Surveys  
Chapter 5: System Analysis Methods  
Chapter 6: Logical Design of System: Structured Approach  
Chapter 7: Physical Design of the System  
Chapter 8: Database Concepts  
Chapter 9: Systems controls  
Chapter 10: Quality Assurance and Testing  
Chapter 11: Hardware and Software Selection

**English Studies in India** - Banibrata Mahanta 2018-11-03  
This volume is a collection of scholarly papers that explore the complex issues concerning English Studies in the present Indian context. The discussions in this volume range from historical perspectives to classroom-specific pedagogies, from sociological and political hierarchies to the dynamics of intellectual development in the English language environment. Interrogating both policy and practice pertaining to English Studies in the context of Indian society, culture, history, literature and governance, the chapters seek to formulate contemporary perspectives to these debates and envision alternative possibilities. Since the introduction of English to India more than 2 centuries ago, the language has transmuted the very fabric of Indian society, culture, history, literature and governance. The idea of India cannot be conceived in its entirety without taking into consideration the epistemological role that English has played in its formation. The present globalized world order has added dimensions to English Studies which are radically different from those of India's colonial and postcolonial past. It is therefore imperative that the multitudinous shades and shadows of the discipline be re-examined with inputs drawn from the present context. This volume is for scholars and researchers of English literature and language studies, linguistics, and culture studies, and others interested in exploring new paradigms of engagement with the disciplinary formulation of English Studies in India.

**MPC-003: PERSONALITY: THEORIES AND ASSESSMENT** - BK SAHNI 2017-05-28

This book is useful for IGNOU MA PSYCHOLOGY first year groups of students. It contains previous years important solved answers that enable students learn about the subject and prepare for their examinations. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MPC-01 COGNITIVE PSYCHOLOGY, LEARNING AND MEMORY Notes.... Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations... In this book, Detailed Explanatory Answers have been provided for the questions for Better Understanding of the Candidates. Hope you Like... & Best of Luck for your Examination. Published by MeetCoogle

**MCS-023: Introduction to Database Management Systems** - Dr. DK Sukhani

This book is useful for IGNOU BCA & MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-023: Introduction to Database Management Systems Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. Overview of DBMS, Basic DBMS terminology, data base system v/s file system, data independence. Architecture of a DBMS. Introduction to data models: entity relationship model, hierarchical model: from network to hierarchical, relational model, comparison of network, hierarchical and relational models. Data modeling using the Entity Relationship Model: ER model concepts, notation for ER diagram, mapping constraints, keys, Concepts of Super Key, candidate key, primary key, Generalization, aggregation, reduction of an ER diagrams to tables, extended ER model, relationships of higher degree. Relational model: storage organizations for relations, relational algebra, relational calculus. Normalization:

Functional dependencies, normal forms, first, second, third normal forms, BCNF, inclusion dependencies, loss less join decompositions, normalization using FD, MVD, and JDs, alternative approaches to database design. Introduction to SQL: Characteristics of SQL, Advantages of SQL, SQL data types and literals, Types of SQL commands, SQL operators and their procedure, Tables, views and indexes, Queries and sub queries, Aggregate functions, insert, update and delete operations, Joins, Unions, Intersection, Minus in SQL. Published by MeetCoogle

**The Pearson Guide to MCA Entrance Examinations** - Thorpe

**GGSIU - Rph Editorial Board 2020-10**

The present book is specially published for the aspirants of 'Bachelor of Business Administration (BBA)' Common Entrance Test (CET) organised by the Guru Gobind Singh Indraprastha University, Delhi. Based on the current exam pattern, the book comprises Solved Previous Years' Papers for aspirants to make them familiar with the exam pattern and the type of questions asked, and their answers. Detailed Explanation have also been provided for Selected Questions. The book contains ample amount of Study and Practice Material comprising numerous solved MCQs on all the subjects & topics important from the point of view of the exam. All the Practice questions have been solved by respective subject-experts with due diligence. To an earnest reader the book will definitely prove very useful for study, self-practice, and during the precious moments before the exam for reference and revision. The book is highly recommended for the aspirants to Sharpen their Problem Solving Skills with intensive practice of actual exam-style questions and numerous practice questions provided in the book, and prepare themselves to face the exam with Confidence, Successfully. While the specialized study and practice material of this book Paves the Way for your Success, your own intelligent study and intensive practice with this will definitely ensure you a Well-deserved Entry into the Prestigious Institution leading you to a Successful Career.

**Political Thought in Modern India** - Thomas Pantham 1986-06-07

The twenty stimulating and original essays in this volume provide a comprehensive analysis of the main strands of modern Indian political thought. The thinkers discussed are Rammohun Roy, Dayananda Saraswati, Bankimchandra Chattopadhyay, Ranade, Phule, Tilak, B R Ambedkar, Tagore, Sri Aurobindo, M N Roy, Jawaharlal Nehru and Gandhi. Separate essays are devoted to the Hindu and Muslim traditions in Indian political thought, Hindu nationalism, and the ideologies of the Communist and Sarvodaya movements. A significant feature of these essays is that they study each thinker or movement in the relevant socio-historical context as also examine the consequences and impact of modern Indian political theories, These are analysed from a world-historical and, to some extent, a political economy perspective. The essays in this collection highlight two major streams in modern Indian political thought—one which favoured the adoption or adaptation of western political traditions and the other which sought to evolve indigenous or alternative formulations. The overall conclusion that emerges from this volume is that in order to formulate an adequate political philosophy for the modern age, both the western and Indian traditions have to be taken into account. In this context, some of the essays highlight the contemporary global relevance of Gandhi's socio-political ideas. This book is a major contribution to modern political philosophy. It will be of great value to students and teacher of political science.

**Professional Ethics and Human Values** - A. Alavudeen 2008-05

**The Concept of Social Justice** - Christopher Wolfe 2019  
 "Social justice" is a term heard a great deal today, but what does it mean? It does not appear in pre-nineteenth century classic texts on justice. Is it a social agenda inspired by compassion? Is it a particular set of institutional arrangements to achieve justice? What the term means, and - in some quarters - whether it is even a term worth using, is a matter of controversy. The inspiration for this book comes from the fact that current discussions of "social justice" often deal overwhelmingly with programs that aim to advance certain specific and controversial policies to deal with various social problems. In the process, important theoretical questions about social justice are not even confronted, much less resolved. For example, what does the word "social" add to "justice"? Isn't all justice "social"? What is the relation between "social justice" and more classical Aristotelian terms such as "distributive justice," "commutative justice," and "legal justice"? With respect to its current usage, is the term "social justice" applicable only to special policies or programs (e.g., government or nonprofit social welfare programs)? Does it apply only to the provision of material goods and services? Does it play a role in the ordinary everyday world of business and work? The papers in this book aim, not at identifying some particular set of public policies that allegedly constitute the right content of "social justice," but at reflection on the meaning of social justice. It is not an exhortation to pursue policies that are "understood," without discussion, to be the right way to pursue social justice. It is not aimed at stimulating activism, mobilizing people to go out and achieve social justice now. Rather, it aims at building the foundation upon which people can identify general principles of justice, and make reasonable prudential judgments about how to pursue social justice. This theoretical orientation means that it is neither "right-wing" nor "left-wing." The Concept of Social Justice provides a range of insightful essays on the term and on its various uses and abuses. The authors of these papers are committed to something like "social justice" - they don't believe that it is spurious notion that should be rejected. They may very well disagree about exactly how to pursue social justice. But their primary concern here is to ask, simply, "what is social justice?" Jean Bethke Elshtain and Michael Novak show various ways in which the term has been misunderstood or narrowed or abused for ideological reasons. Nicholas Wolterstorff's essay makes careful distinctions necessary to identify the implications of adding "social" to "justice" and fleshes out a valuable notion of the concept. John Finnis locates the origins of social justice in an historical misreading of Thomas Aquinas' discussion of justice, which narrowed his "general justice" in a way that required a new notion of "social justice." Joseph Koterski, S.J., Robert Kennedy, and J. Brian Benestad each elaborate some of the ways in which "social justice" has been used in the Catholic social teaching since Rerum Novarum and in international theological and U.S. episcopal documents. Readers will come away from this book with a deeper understanding of the origins of social justice, a sensitivity to the frequent abuses of the term, and a recognition of the forms in which it can be a valuable part of today's political discourse.  
**MPC-005: RESEARCH METHODS IN PSYCHOLOGY** - BK SAHNI 2017-05-31

This book is useful for IGNOU MA PSYCHOLOGY first year groups of students. It contains previous years important solved answers that enable students learn about the subject and prepare for their examinations. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MPC-005 RESEARCH METHODS IN PSYCHOLOGY Notes... Students are advised to

refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations...In this book, Detailed Explanatory Answers have been provided for the questions for Better Understanding of the Candidates. Hope you Liked...& Best of Luck for your Examination. Published by MeetCoogle  
**Mcs-015 Communication Skills** -

**Artificial Intelligence and Knowledge Management** - Akira Hanako 2016-05-24

Artificial intelligence and knowledge management have transformed the process of knowledge circulation and database management in different business enterprises and corporate organizations. Some of the significant topics discussed in the chapters of this book are AI planning strategies and tools, AI tools for information processing, data mining, knowledge-based systems, etc. It explores the innovative concepts and advancements in these emerging fields. The book is an invaluable source of knowledge for students and researchers involved in this field at various levels.

**Computer Organization** - V. Carl Hamacher 1990

**Delhi University M.A. Political Science Entrance Exam Guide** - Rph Editorial Board 2020-10

This comprehensive book is specially developed for the M.A. Political Science candidates of Delhi University for Entrance Test. This book includes Study Material, Previous Paper (Solved) for the purpose of practice of questions based on the latest pattern of the examination. Detailed Explanatory Answers have also been provided for the selected questions for Better Understanding of the Candidates.

**MCSE-003: Artificial Intelligence and Knowledge Management** - Dr. DK Sukhani

This book is useful for IGNOU MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCSE-003: Artificial Intelligence and Knowledge Management Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Concept of intelligence, Artificial intelligence, definition turning test, areas of application. Search techniques, state space, Production rules, problem characteristics, production system characteristic, depth first, breadth first search methods and their analysis, Heuristic search method, generate and test, hill climbing, best first method, graph search, AND OR search methods, constraint satisfaction, backtracking. Introduction to list and string processing and dynamic databases concept of knowledge, characteristics and representation schemes, Logic, prepositional and predicate calculus, resolution, semantics nets, frames, conceptual dependency, scripts Monotonic reasoning, logical reasoning induction, natural deduction. Nonmonotonic reasoning – default reasoning minimalist reasoning, statistical reasoning –Baye's theorem, certainty factors, Dempster Shafer theory, Fuzzy logic. Concept of expert system, need for an expert system, Component and categories of an expert system, need for an expert system, Stages in the development of an expert system. Published by MeetCoogle

**MPCE-023: INTERVENTIONS IN COUNSELLING** - BK SAHNI 2017-05-26

This book is useful for IGNOU MA PSYCHOLOGY second year counselling groups of students. It contains previous years solved papers that enable students learn about the subject and prepare for their examinations. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MPCE-023 INTERVENTIONS IN COUNSELLING PREVIOUS YEARS' PAPERS (SOLVED) ... Students are advised to refer these

solutions in conjunction with their reference books. It will help you to improve your exam preparations...In this book, Detailed Explanatory Answers have been provided for the questions for Better Understanding of the Candidates. Hope you liked...& Best of Luck for your Examination.

**MCA Solved Papers** - Amit M. Agarwal 2020-09-18

1.The book 'MCA Entrances Solved Papers' is a complete practice package 2.Carries last 9 years questions to get acquainted with the paper pattern 3.Various other institutes papers are also given 4.Well detailed answers are given for every question Master in Computer

Application is a 3-year master's degree course for the students who wants to explore more in the field of computer application development, with the help of many latest and updated programming languages. To get into the good college this new edition of "MCA Entrances Solved Papers 2019-2011" is a complete practice package that aims to provide a great number of questions.

Providing with the most updated practice material, this book carries the last 9 years of questions with detailed explanations that help in regenerating the knowledge in a single shot. Students can also find different levels of questions with different entrance examination papers ease in the preparation for MCA Entrances. This result-oriented book enhances the level of understanding and will help you to qualify for the upcoming MCA Entrances.

TABLE OF CONTENT NIMCET Solved Paper [2019-2011], IIT JAM MCA (2012 & 2012), JNU MCA Solved Paper 2019, JNU MCA Solved Paper 2018, JNU MCA Solved Paper 2016, JNU MCA Solved Paper 2015, JNU MCA Solved Paper 2013, PUNE MCA (2017 & 2007), BHU MCA 2019, BHU MCA 2018, BHU MCA 2016, BHU MCA 2015, BHU MCA 2012, BHU MCA 2011, KIITEE MCA (2012-2011), Other Regional MCA Entrances: MP MCA (2014), HCU MCA (2015 & 2013), AMU MCA (2011).

**Discrete Mathematical Structures for Computer Science** - Bernard Kolman 1987

This text has been designed as a complete introduction to discrete mathematics, primarily for computer science majors in either a one or two semester course. The topics addressed are of genuine use in computer science, and are presented in a logically coherent fashion. The material has been organized and interrelated to minimize the mass of definitions and the abstraction of some of the theory. For example, relations and directed graphs are treated as two aspects of the same mathematical idea. Whenever possible each new idea uses previously encountered material, and then developed in such a way that it simplifies the more complex ideas that follow.

**Democracy and Development in India** - Atul Kohli 2010-07-08

The essays in this volume are organized thematically in three sections-political change; political economy; and politics and development in select states. The introductory essay acts as an 'umbrella' to these essays and represents twenty-five years of scholarly research by distinguished political scientist Atul Kohli.

**BPC-001 General Psychology** - Gullybaba Com Panel 2016-02-05

**BCS-062: E-Commerce** - Dr. DK Sukhani

This book is useful for IGNOU BCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU BCS-062: E-Commerce Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Introduction, Definition, Objectives, Advantages and disadvantages, Forces driving E-Commerce, Traditional commerce Vs. E-Commerce, E-Commerce opportunities for Industries, Growth of E-Commerce. E-Commerce Models: Business to consumer, Business to Business, Consumer to Consumer, other models – Brokerage Model, Aggregator Model, Info-mediary Model, Community Model and value

chain Model. Electronic Payment Systems: Special features required in payment systems, Types of E-payment systems, E-Cash, E-cheque, credit card, Smart Card, Electronic Purses. E- Marketing, E-Customer Relationship Management, E-Supply Chain Management. Security Issues in E-Commerce: Security risk of E-Commerce, Types of threats, Security tools and risk management.

**MCS-024: Object Oriented Technologies and Java Programming** - Dr. DK Sukhani 2018-11-19

This book is useful for IGNOU BCA & MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-024: Introduction to Database Management Systems Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. It comprises of details about: • Introduction to object oriented software engineering • Advanced Structured Modeling • Object Oriented Concepts and Project Management • Object oriented design and testing • Advanced topic in S/W engineering • Multiple Choice Questions

**MCS-011: Problem Solving and Programming** - Dr. DK Sukhani

This book is useful for IGNOU BCA & MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-011: Problem Solving and Programming Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Problem Solving with Computers: Algorithms, and Flowcharts. Data types, constants, variables, operators, data input and output, assignment statements, conditional statements, string and character handling, data validation examples. Iteration, arrays, strings processing, defining function, types of functions, function prototype, passing parameters, recursion. Storage class specifiers, pre-processor, header files and standard functions. Pointers: Definition and uses of pointers, pointer arithmetic, pointers and array, pointers and functions, pointer to pointer. Structures, union, pointers to structures, user-defined data types, enumeration. Data files: Opening, closing, creating, processing and unformatted data files. Introduction to Dynamic Memory Allocation, command line arguments, systems calls. Published by MeetCoogole

**Tancet MCA** -

**LSE-01 Cell Biology** - Gullybaba Com Panel 2018-09-11

**MCS-031: Design and Analysis of Algorithms** - Dr. DK Sukhani 2017-10-29

This book is useful for IGNOU MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-031: Design and Analysis of Algorithm Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Algorithm definition and specification – Design of Algorithms, and Complexity of Algorithms, Asymptotic Notations, Growth of function, Recurrences, Performance analysis – Elementary Data structures:- stacks and queues – trees – dictionaries – priority queues –sets and disjoint set union – graphs – basic traversal and search techniques. Divide – and – conquer:- General method – binary search – merge sort – Quick sort. The Greedy method:-General method – knapsack problem – minimum cost spanning tree – single source shortest path. Dynamic Programming – general method – multistage graphs – all pair shortest path – optimal binary search trees – 0/1 Knapsack – traveling salesman problem – flow shop scheduling. Backtracking:- general

method – 8-Queens problem – sum of subsets – graph coloring – Hamiltonian cycles – knapsack problem – Branch and bound:- The Method – 0/1 Knapsack problem – traveling salesperson. Parallel models:-Basic concepts, performance Measures, Parallel Algorithms: Parallel complexity, Analysis of Parallel Addition, Parallel Multiplication and division, parallel. Evaluation of General Arithmetic Expressions, First-Order Linear recurrence. Published by MeetCoogle  
*BCOE-108 Company Law - Gullybaba Com Panel 2017-02-09*

**MCS-021: Data and File structures** - Dr. DK Sukhani  
This book is useful for IGNOU BCA & MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-021-Data and File Structures Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Basic data structures such as arrays, stack and queues and their applications, linked and sequential representation. Linked list, representation of linked list, multi linked structures. Trees: definitions and basic concepts, linked tree representation, representations in contiguous storage, binary trees, binary tree traversal, searching insertion and deletion in binary trees, heap tree and heap sort algorithm, AVL trees. Graphs and their application, sequential and linked representation of graph – adjacency matrix, operations on graph, traversing a graph, Dijkstra's algorithm for shortest distance, DFS and BFS, Hashing. Searching and sorting, use of various data structures for searching and sorting, Linear and Binary search, Insertion sort, Selection sort, Merge sort, Radix sort, Bubble sort, Quick sort, Heap Sort. Published by MeetCoogle

**Object-oriented Programming with Java** - Barry J. Holmes 2001

Object-Oriented Programming With Java Was Developed For Students In The Science, Engineering, And Business Fields Where Knowledge Of Programming Is Thought To Be Essential. This Text, On Modern Software Development, Contains Material That Is Typically Covered In A CS1 Course. In Addition To Traditional Introductory Programming Concepts, Object-Oriented Concepts And Techniques Such As Inheritance And Polymorphism Are Presented In A Student-Friendly Manner. Java-Related Topics Such As Exception Handling And The Java I/O Models Are Carefully Treated, And An Entire Chapter Is Devoted To Java Applets.

**MPC-001: COGNITIVE PSYCHOLOGY, LEARNING AND MEMORY** - BK SAHNI 2017-05-28

This book is useful for IGNOU MA PSYCHOLOGY first year groups of students. It contains previous years important solved answers that enable students learn about the subject and prepare for their examinations. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOUMPC-01 COGNITIVE PSYCHOLOGY, LEARNING AND MEMORY Notes.... Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations...In this book, Detailed Explanatory Answers have been provided for the questions for Better Understanding of the Candidates. Hope you Like...& Best of Luck for your Examination. Published by MeetCoogle  
**MCAT Practice Test** - Aamc 2003-09

A real printed MCAT exam for practice test-taking.

**MPCE-011: PSYCHOPATHOLOGY** - BK SAHNI 2017-05-31

This book is useful for IGNOU MA PSYCHOLOGY second year clinical groups of students. It contains previous years important solved answers that enable students learn about the subject and prepare for their examinations. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MPCE-011: PSYCHOPATHOLOGY Notes.... Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations...In this book, Detailed Explanatory Answers have been provided for the questions for Better Understanding of the Candidates. Hope you Like ...& Best of Luck for your Examination. Published by MeetCoogle

**MCS-034: Software Engineering** - Dr. DK Sukhani

This book is useful for IGNOU BCA & MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-034: Software Engineering Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Software Process Models, Project Management, Software Requirements Analysis, Requirement Engineering Process, Software System Specifications, Software Metrics and Measures, Application Systems and Design Issues, Software Development Methods and Reuse, Verification and Validation, Software Testing and Cost Estimation, Quality Management, Process Improvement and Measurement. Published by MeetCoogle
