Arbiters of Patriotism - John Person 2020-06-30

In the 1930s and 1940s Marxist academics and others interested in liberal political reform often faced virulent accusations of treason from nationalist critics. In *Arbiters of Patriotism*, John Person explores the

lives of two of the most notorious right-wing intellectuals responsible for leading such attacks in prewar and wartime Japan: Minoda Muneki (1894-1946) and Mitsui Kōshi (1883-1953) of the Genri Nippon (Japan Principle) Society. As fervent proponents of Japanism, the ethno-nationalist ideology of Imperial Japan, Minoda and Mitsui appointed themselves judges of correct nationalist expression. They built careers out of publishing polemics condemning Marxist and progressive academics and writers, thereby ruining dozens of livelihoods. Person traces Japanism's rise to literary and philosophical developments in the late-Meiji (1868-1912) and Taisho (1912-1926) eras, when vitalist theories championed emotion and volition over reason. Founding their ideas of nationalism on the amorphous regions of the human psyche, Japanists labeled liberalism and Marxism as misunderstandings of the national particularities of human experience. For more than a decade, government agents and politicians used Minoda's and Mitsui's publications to remove their political enemies and advance their own agendas. But in time they came to regard both men and other nationalist intellectuals as potential thought criminals. Whether collaborating with the government to crush the voices of class struggle or becoming the targets of police surveillance themselves, Minoda and Mitsui came to embody the paradoxically hegemonic yet arbitrary nature of nationalist ideology in Imperial Japan. In this thorough examination of the Genri Nippon Society and its members, *Arbiters of Patriotism* provides a tightly argued and compelling account of the cosmopolitan roots and unstable networks of Japanese ethno-nationalism, as well as its self-destructive trajectory.

John J. Robinette - George D. Finlayson 2003-09-01
John J. Robinette, Canada's greatest trial lawyer, was admired and respected by the bench and his fellow lawyers alike. A quiet, unassuming man outside the courtroom, he was a consummate performer when appearing before a judge and jury. Robinette became a household name as the defender of Evelyn Dick, who was charged with killing her husband and infant son in Hamilton in 1946, and of Steven Suchan, a member of the infamous Boyd Gang. He was Canada's pre-eminent lawyer from the 1930s to the 1980s, showing unparalleled versatility and virtuosity whether acting as counsel in criminal, civil, or constitutional cases, at both the trial and appeal levels. This is the story of a great man, of the maturing of the legal profession in Canada, and of Canada in the twentieth century.

Hammers on Bone - Cassandra Khaw 2016-10-11

Cassandra Khaw bursts onto the scene with *Hammers on Bone*, a hard-boiled horror show that Charles Stross calls "possibly the most promising horror debut of 2016." A finalist for the British Fantasy award and the Locus Award for Best Novella! John Persons is a private investigator with a distasteful job from an unlikely client. He's been hired by a ten-year-old to kill the kid's stepdad, McKinsey. The man in question is abusive, abrasive, and abominable. He's also a monster, which makes Persons the perfect thing to hunt him. Over the course of his ancient, arcane existence, he's hunted gods and demons, and broken them in his teeth. As Persons investigates the horrible McKinsey, he realizes that he carries something far darker. He's infected with an alien presence, and he's spreading that monstrosity far and wide. Luckily Persons is no stranger to the occult, being an ancient and magical intelligence himself. The question is whether the private dick can take down the abusive stepdad without releasing the

Literary Community-Making - Roger D. Sell 2012-06-12

The writing and reading of so-called literary texts can be seen as processes which are genuinely communicational. They lead, that is to say, to the growth of communities within which individuals acknowledge not only each other's similarities but differences as well. In this new book, Roger D. Sell and his colleagues apply the communicational perspective to the past four centuries of literary activity in English. Paying detailed attention to texts - both canonical and non-canonical - by Amelia Lanyer, Thomas Coryate, John Boys, Pope, Coleridge, Arnold, Kipling, William Plomer, Auden, Walter Macken, Robert Kroetsch, Rudy Wiebe and Lyn Hejinian, the book shows how the communicational issues of addressivity, commonality, dialogicality and ethics have arisen in widely different historical contexts. At a metascholarly level, it suggests that the communicational criticism of literary texts has significant cultural, social and political roles to play in the post-postmodern era of rampant globalization.

Developing the Virtues - Julia Annas 2016-08-15

Ethicists and psychologists have become increasingly interested in the development of virtue in recent years, approaching the topic from the perspectives of virtue ethics and developmental psychology respectively. Such interest in virtue development has spread beyond academia, as teachers and parents have increasingly striven to cultivate virtue as part of education and child-rearing. Looking at these parallel trends in the study and practice of virtue development, the essays in this volume explore such questions as: How can philosophical

work on virtue development inform psychological work on it, and vice versa? How should we understand virtue as a dimension of human personality? What is the developmental foundation of virtue? What are the evolutionary aspects of virtue and its development? How is virtue fostered? How is virtue exemplified in behavior and action? How is our conception of virtue influenced by context and by developmental and social experiences? What are the tensions, impediments and prospects for an integrative field of virtue study? Rather than centering on each discipline, the essays in this volume are organized around themes and engage each other in a broader dialogue. The volume begins with an introductory essay from the editors that explains the full range of philosophical and empirical issues that have surrounded the notion of virtue in recent years. *Sainthood and Authority in Early Islam: Al-Ḥakīm al-Tirmidhī's Theory of wilāya and the Reenvisioning of the Sunnī Caliphate* - Aiyub Palmer 2019-12-09

Person Schemas and Maladaptive Interpersonal Patterns - Mardi Jon Horowitz 1991

This fresh exploration of the utility of person schemas for understanding

interpersonal behavior and intrapsychic conflict brings together psychoanalytic researchers, social learning theorists, and cognitive scientists. The contributors show that a fuller conceptualization of person schemas can begin to close the gap between psychodynamic and cognitive science research, providing new methods for understanding disorders of personality. There are many strengths in this volume beyond the clear presentation of the person schema as a concept linking cognitive and psychodynamic perspectives. . . . Students will have an opportunity for comparison of perspectives while those working in the field will have an opportunity to follow the shift from concept to method to case application to theoretical context for understanding personality change.
