Crash Course - Paul Ingrassia

2011-01-11

“A definitive account . . . It’s hard to imagine anyone better than Paul Ingrassia to ‘ride shotgun’ on a journey through the sometimes triumphant, often turbulent, history of U.S. automaking. . . . [A] wealth of amusing, astonishing and enlightening nuggets.”—Pittsburgh Tribune-Review This is the epic saga of the American automobile industry’s rise and demise, a compelling story of hubris, missed opportunities, and self-inflicted wounds that culminates with the president of the United States ushering two of Detroit’s Big Three car companies—once proud symbols of prosperity—through bankruptcy. With unprecedented access, Pulitzer Prize winner Paul Ingrassia takes us from factory floors to small-town dealerships to Detroit’s boardrooms to the White House. Ingrassia answers the big questions: Was Detroit’s self-destruction inevitable? Why did Japanese automakers manage American workers better than the

American companies themselves did? Complete with a new Afterword providing fresh insights into the continuing upheaval in the auto industry—the travails of Toyota, the revolving-door management and IPO at General Motors, the unexpected progress at Chrysler, and the Obama administration’s stake in Detroit’s recovery—Crash Course addresses a critical question: America bailed out GM, but who will bail out America? With an updated Afterword by the author Praise for Crash Course “In order to understand just how much of a mess it was—not to mention how it got that way and how, if at all, it can be cleaned up—you really need to read Crash Course.”—The Washinton Post “Ingrassia tells Detroit’s story with economy, vigour and restrained fury.”—The Economist “A delightful mix of history and first-person reporting . . . Employing superb storytelling skills, Ingrassia explains in head-shaking detail the

elements of a wholly avoidable collision.”—Kirkus Reviews (starred review)

Overhaul - Steven Rattner
2010-09-13

A uniquely informed investigative account of one of the biggest financial crises of President Obama’s early administration. During his first year in office, President Obama faced the possibility of more than a million lost jobs as GM and Chrysler headed for financial ruin. He joined forces with Treasury Secretary Tim Geithner and economic advisor Larry Summers in a historic government intervention to keep these two auto-industry giants afloat, working against a ticking clock and fielding vocal opposition from free market champions along the way. It’s from this vantage point that former New York Times financial journalist Steven Rattner witnesses a new administration’s grace under pressure in the face of gross corporate mismanagement—a scenario rich in hard-earned lessons for managers and executives in any industry.

Just Two for the Road - Eugene Perticone 2001-01-21

As a small boy, Gene Perticone dreamed of having his own motorcycle. He knew it would be a means by which he could enjoy traveling by himself to the places he longed to explore, at first close to home and then in the wider world

around him. From his first dilapidated mootercycle obtained during his tgeens to the sleek and efficient cruisers of adulthood,he has used the "mechanical ponies" for recreation, relief from monotony and stress, and simple and direct enjoyment that could be available at the twist of a throttle. Just Two for the Road is about a child and then a man who learns to broaden his appreciation of the world by moving through it physically and mentally in a way that other forms of locomotion could never match.

Kick Back - Kallyn Jones
2022-03-31

“I need extraordinary, and I
won’t settle.” I feel like a new
woman. An open book. It’s
more than the encouraging test
results, proving my body is on
the mend. This sensation lives
in every cell, every emotion,
every new wish. My late
husband is peacefully laid to
rest in my heart, and I’m
moving forward. Thomas and I
agree to take things slow
despite my heart’s veto of the
decree. It wants—no
demands—more magical nights
with my new delicious younger
man. Except we both have
responsibilities competing for
our attention and interrupting
our alone time. Then there’s
the harassment of my
coffeehouse and my family.
After a festive night out nearly
turns tragic, Thomas’s care and

vow of protection keep me from falling backward. I never dared to dream of a second chance at love, though it looks like one found me. Still, his stubborn refusal to open up challenges the limits of my swoony affections. My professor better come clean soon because I'm close to figuring out his big secret, anyway.
