Lying in Weight - Trisha Gura,
PhD 2009-10-13

A girl with an eating disorder grows up. And then what? In this groundbreaking book, science journalist Trisha Gura explodes the myth that those who suffer from eating

disorders, including anorexia nervosa and bulimia nervosa, are primarily teenage girls. In truth, twenty-five to thirty million American women twenty-five and older suffer from serious food issues, from obsessions with calorie counting to

compulsions to starve then overeat. These diseases often linger from adolescence or emerge anew in the lives of adult women in ways that we are only now starting to recognize. Drawing on her own experience with anorexia, as well as the most up-to-date research and extensive interviews with clinicians and sufferers, Gura presents a startling, timely, and imperative investigation of eating disorders "all grown up," and offers hope through understanding.

The Holy Vote - Ray Suarez
2009-10-13

Not since the Civil War has the

United States been so polarized, politically and ideologically. At the heart of this fracture is a fascinating, paradoxical marriage between our country's politics and religions. In *The Holy Vote*, Ray Suarez explores the advent of this polarization and how it is profoundly changing the way we live our lives. With hands-on reporting, Suarez explores the attitudes and beliefs of the people behind the voting numbers and how the political divide is manifesting itself across the country. The reader will come to a greater understanding of what Americans believe, and how this belief structure fuels the

debates that dominate the issues on our evening news broadcasts.

The Big Book of Juices - Natalie Savona 2010-10-01

Nutritional health expert Natalie Savona improves on her 500,000-copy selling **Big Book of Juices & Smoothies**, with this even bigger book of recipes guaranteed to boost your health and vitality – a comprehensive introduction to juicing. **The Big Book of Juices** is a new edition of Natalie Savona's classic title, now with even more juices and smoothies and more than 250 photographs. It is founded on two basic principles. First, that juicing is easy if we simply adopt the habit of it; and

second, that juicing every day is a delicious way to get healthy and stay healthy. Following a comprehensive introduction to juicing, 405 different juice and smoothie blends are divided up into three central chapters: **Making Juices**; **Making Smoothies**; and **Making Quenchers** (juices with a little added something, such as soda water, herbs or spices). Every blend is given an at-a-glance nutrient profile (listing vitamins, minerals and phytonutrients), and a star rating on its merits as an energy- and immune-booster, a detoxer, and a tonic for the skin. The recipes can be sourced in several ways: by fruit or vegetable of choice (the

chapters are organized by main ingredient); by health benefit (an alphabetical chart lists approximately 50 common ailments or disorders, and cross-references them to the juices that will help overcome them); and by nutrient (a list is given of all the major vitamin and mineral nutrients, each with cross-references to the relevant recipes in the book). The last chapter – a juicing reference section – includes the nutrient and ailment charts as well as suggested juice courses for detoxing and immunity boosting, making this the most practical and comprehensive juice book on the market.

Love for Imperfect Things -

Haemin Sunim 2020-02-04

Susan Cain, New York Times

bestselling author of Quiet: "The

world could surely use a little

more love, a little more

compassion, and a little more

wisdom. In Love for Imperfect

Things, Haemin Sunim shows

us how to cultivate all three,

and to find beauty in the most

imperfect of things--including

your very own self." A #1

internationally bestselling book

of spiritual wisdom about

learning to love ourselves, with

all our imperfections, by the

Buddhist author of The Things

You Can See Only When You

Slow Down Hearing the words

"be good to yourself first, then

to others" was like being struck

by lightning. Many of us respond to the pressures of life by turning inward and ignoring problems, sometimes resulting in anxiety or depression. Others react by working harder at the office, at school, or at home, hoping that this will make ourselves and the people we love happier. But what if being yourself is enough? Just as we are advised on airplanes to take our own oxygen first before helping others, we must first be at peace with ourselves before we can be at peace with the world around us. In this beautiful follow-up to his international bestseller *The Things You Can See Only When You Slow Down*, Zen

Buddhist monk Haemin Sunim turns his trademark wisdom to the art of self-care, arguing that only by accepting yourself--and the flaws that make you who you are--can you have compassionate and fulfilling relationships with your partner, your family, and your friends. With more than thirty-five full-color illustrations, *Love for Imperfect Things* will appeal to both your eyes and your heart, and help you learn to love yourself, your life, and everyone in it. When you care for yourself first, the world begins to find you worthy of care.

Science Is Culture - Adam Bly

2010-10-12

Seed magazine brings together a unique gathering of prominent scientists, artists, novelists, philosophers and other thinkers who are tearing down the wall between science and culture.

We are on the cusp of a twenty-first-century scientific renaissance. Science is driving our culture and conversation unlike ever before, transforming the social, political, economic, aesthetic, and intellectual landscape of our time. Today, science is culture. As global issues—like energy and health—become increasingly interconnected, and as our curiosities—like how the mind

works or why the universe is expanding—become more complex, we need a new way of looking at the world that blurs the lines between scientific disciplines and the borders between the sciences and the arts and humanities. In this spirit, the award-winning science magazine Seed has paired scientists with nonscientists to explore ideas of common interest to us all. This book is the result of these illuminating Seed Salon conversations, edited and with an introduction by Seed founder and editor in chief Adam Bly. Science Is Culture includes: E. O. Wilson + Daniel C. Dennet Steven Pinker + Rebecca

Goldstein Noam Chomsky + Robert Trivers David Byrne + Daniel Levitin Jonathan Lethem + Janna Levin Benoit Mandelbrot + Paola Antonelli Lisa Randall + Chuck Hoberman Michel Gondry + Robert Stickgold Alan Lightman + Richard Colton Laurie David + Stephen Schneider Tom Wolfe + Michael Gazzaniga Marc Hauser + Errol Morris

The Art of Winnie-the-Pooh -

James Campbell 2018-05-08

Foreword by Minette Shepard

The enchanting story of some of the most beloved characters

in English children's literature—Winnie-the-Pooh and his friends from the Hundred Acre Wood, Piglet, Eeyore, Tigger, Kanga, Roo, Christopher Robin, and more—and the remarkable partnership between a writer and an illustrator that brought them to life, told for the first time in this beautiful volume illustrated with more than 125 full-color images from the Pooh series, never-before-seen sketches, artwork, family photographs, and memorabilia. Winnie-the-Pooh and his friends have enthralled generations of children and have become some of the world's most beloved characters. But before

their adventures were captured in many millions of books published in nearly fifty languages, they started life in the 1920s as the product of a unique collaboration between author A. A. Milne and illustrator E. H. Shepard. They wove images and text together in a way that was utterly original for the time. It was a process that Shepard relished; he continued to create artwork for new editions until his death in 1976 at the age of ninety-six. This lovingly designed, full-color volume, which includes a foreword from Shepard's granddaughter, tells the story behind this remarkable partnership, and traces the

evolution of Shepard's work, from his first tentative sketches to the illustrations we know and love, including the characters' later incarnations by the artists at Walt Disney Studios. A stunning and rare collection, filled with some never-before-published sketches and the first illustration of Pooh, *The Art of Winnie-the-Pooh* is a treasure trove of early art and an exclusive behind-the-scenes peek at the creation of Pooh bear and Hundred Acre Wood—direct from the artist's estate—that is sure to become a cherished keepsake for devoted fans and readers who grew up with these timeless characters. *Prayers for a Thousand Years* -

Organized around eternal themes—such as creating communities of peace, reflections on politics, economics, and morality, and

Opdyke 2009-10-06 Your Guide to Managing the Real Dollars—and the Real Emotions—of Your Relationship Too often with money, couples

face two choices: fight and risk making the situation worse, or keep quiet and risk making the situation worse. Financially Ever After offers a third option: family financial fluency—the insight, knowledge, and vocabulary every couple needs to communicate effectively about money. Jeff D. Opdyke, previously The Wall Street Journal's syndicated "Love & Money" columnist, covers any and all financial issues that couples face, including budgeting, deciding on whether to have joint or individual accounts, dividing up family financial chores, confronting debt, making major purchases, as well as handling mortgages,

employment, children, and even engagement rings. He offers dozens of real-life scenarios between couples, with scripts and suggestions for how to broach delicate money-related subjects with your significant other, whether he or she has a shaky credit history or is feeling left out of family financial decision-making. The book also provides helpful tools to organize your financial life, such as a budgeting chart, a "scorecard" to track spending, and an "affordability calculator" to help you figure out how much buying a house will cost you. A must-read for any couple starting out, Financially Ever After lays the groundwork for

building a healthy and thriving financial life together.
