This important book brings together renowned scholars from a variety of disciplines, including psychology, sociology, education, and medicine, to present the latest research findings on the impact of contexts on adolescent development. Only recently has systematic research begun on commonalities and differences in developmental processes across contexts. For this work, studies were located that investigate processes and outcomes across contexts, such as cultural belief systems or groups characterized by different family structures, and within interacting contexts, such as the link between school and the part-time work of adolescents. An in-depth and cross-cultural approach is taken and comparative perspectives within national contexts and across cultures are well represented. This book will inform both students and researchers in a variety of disciplines about the most recent

developments and empirical results in adolescent development within contexts.

PENDIDIKAN DAN PRAKTIK PEKERJAAN SOSIAL DI INDONESIA & MALAYSIA - Edi Suharto 2011-12-31

Pekerjaan sosial adalah profesi setua umur manusia, karena permasalahan sosial juga muncul bersamaan dengan hadirnya manusia di muka bumi. Karena itu, tugas sebagai pekerja sosial sangat luhur, terkait dengan kehormatan dan martabat kemanusiaan. Segenap kendala yang membatasi manusia untuk memenuhi kebutuhan dasar dan hak asasinya, maka hal itu menjadi perhatian pekerja sosial. Baik itu yang menyangkut hak anak, remaja, manusia dewasa, hingga kaum lanjut usia. Sesuai Undang-undang Kesejahteraan Sosial nomor 11 tahun 2009, tugas Kementerian Sosial sangat luas, dapat diibaratkan mengurus manusia 'mulai dari kandungan sampai dimakamkan di liang lahad'. Program Keluarga Harapan (PKH) merupakan program unggulan Kementerian Sosial yang ditujukan kepada ibu rumah tangga sangat miskin (RTSM) yang memiliki bayi atau anak yang masih sekolah sampai tingkat SMP (sekolah menengah pertama). Selain itu, Kementerian Sosial bertanggung jawab memberi santunan kepada para perintis kemerdekaan dan janda pahlawan, bahkan memproses pemberian gelar dan tanda jasa kepada mereka yang berkontribusi besar bagi bangsa sampai akhir hayatnya. Isu yang dibahas dalam studi pekerjaan sosial sangat beragam sebagaimana kompleksnya kehidupan manusia. Untuk keperluan metodologi ilmiah perlu kajian yang spesifik dan obyektif. Kerangka studi yang obyektif dirumuskan di negara-negara Barat yang lebih maju, meskipun praktik Pekerjaan Sosial sudah berkembang lama di Indonesia dan negara-negara sedang berkembang lainnya. Secara ontologis (substansi pengetahuan) dan epistemologis (metode pengkajian), studi pekerjaan sosial memang bersifat universal. Namun,

dari sudut aksiologis (manfaat dan implementasi praktis), pekerjaan sosial harus disesuaikan dengan nilai-nilai yang mengakar di masing-masing negara. Bahkan, dalam konteks Indonesia sebagai bangsa yang majemuk, landasan nilai tersebut dapat bersumber dari local wisdom yang sangat berbeda di tiap daerah. Tuntutan indigenisasi (pribumisasi) studi dan praktik pekerjaan sosial sangat penting seperti dibahas dalam Bab XXVII di buku, di samping juga kesadaran untuk memperluas wawasan dan menguji kompetensi di ranah global. Buku ini, Pendidikan dan Praktik Pekerjaan Sosial di Indonesia dan Malaysia mencerminkan upaya untuk menyeimbangkan pengaruh global dan kebutuhan nasional/lokal. Buku ini merupakan penyempurnaan dari buku sebelumnya, Pekerjaan Sosial di Indonesia: Sejarah dan Dinamika Perkembangan, yang sangat layak jadi referensi bagi akademisi, praktisi dan penentu kebijakan di bidang kesejahteraan sosial. Buku ini memiliki kelebihan yang patut diapresiasi karena berhasil mengumpulkan dan menata gagasan dan pengalaman dari khalayak akademisi dan praktisi dari kedua negara. Semoga di lain kesempatan dapat diterbitkan buku serupa yang menyajikan lebih banyak wacana dari negara maju dan berkembang. Dari pertukaran ide dan praktik niscaya akan ditemukan konsep yang lebih mantap untuk mendukung kebijakan sosial di tiap negara. Sebagai contoh, program bantuan tunai langsung bersyarat (conditional cash transfer) telah sukses diterapkan di negara-negara Amerika Latin (seperti Brazil) untuk menurunkan angka kemiskinan. Di Indonesia, program serupa dikenal sebagai PKH yang mulai diluncurkan tahun 2007 dan akan memasuki masa evaluasi tahun 2013. PKH di Brazil dikenal dengan nama Bolsa Familia (family grant) yang diberikan kepada sedikitnya 10 juta keluarga miskin. Program itu dinilai efektif menurunkan angka kemiskinan dari 22 persen (2002) menjadi 8 persen (2009), tentu saja dengan dukungan program pemberdayaan lain. Intinya, basis data penerima hibah keluarga miskin menjadi rujukan bagi seluruh program pengentasan kemiskinan. Semua program dirancang secara terpadu. Sementara itu, PKH di Indonesia tahun 2011 baru mencapai 1,1 juta RTSM dan hingga tahun 2014 ditargetkan meliputi 3 juta RTSM. PKH diterapkan sejalan dengan peningkatan kualitas

pendidikan (Bantuan Operasional Sekolah/BOS dan beasiswa bagi pelajar miskin) serta perlindungan kesehatan (Jaminan Kesehatan Masyarakat/Jamkesmas dan peningkatan gizi bayi dan balita serta ibu yang melahirkan). Dengan keterpaduan program tersebut, diharapkan dampaknya lebih signifikan untuk menekan angka kemiskinan dan meningkatkan taraf hidup masyarakat. Terlebih lagi, saat ini telah disahkan Undang-undang Penanganan Fakir Miskin oleh Dewan Perwakilan Rakyat dan tinggal menunggu pengesahan Presiden RI agar dimasukkan dalam Lembaran Negara. Dalam undang-undang tersebut ditetapkan Kementerian Sosial selaku leading sector (lembaga pengarah) untuk seluruh program pengentasan kemiskinan yang selama ini ditangani 19 Kementerian/Lembaga. Ini merupakan amanat yang berat sekaligus tantangan besar kepada seluruh jajaran Kementerian Sosial agar bekerja lebih profesional dan akuntabel serta fleksibel berkoordinasi dengan sesama instansi pemerintah. Di samping itu, juga perlu digalang partisipasi lembaga swadaya masyarakat, organisasi sosial, perguruan tinggi, dan dunia usaha karena penanggulangan kemiskinan memerlukan sumberdaya yang besar dari aspek manusiawi dan finansial. Buku ini sangat tepat sebagai pegangan bagi para pekerja sosial untuk meningkatkan kompetensinya yang bersifat dasariah, maupun spesialisasi di berbagai bidang. Buku ini juga sangat penting karena menyajikan perbandingan kurikulum pendidikan kesejahteraan sosial di dua negara untuk peringkat sarjana dan pasca sarjana. Kerjasama pendidikan antara Indonesia dan Malaysia sudah berlangsung lama, dan saat ini sedang dirintis rencana kerjasama antara Menteri Sosial kedua negara. Apalagi, pada Oktober 2011 Indonesia menggelar Social Welfare Conference yang mengundang para pakar, praktisi dan penentu kebijakan dari berbagai negara, terutama di kawasan Asia Tenggara. Forum ini menjadi wadah munculnya ide brilian dan pengalaman terobosan untuk memajukan pembangunan sosial di Indonesia. Kita tidak hanya berorientasi domestik, melainkan juga memperluas kontribusi di kancah internasional, terlebih lagi dengan posisi Indonesia sebagai Ketua Asosiasi Negara-negara di Kawasan Asia Tenggara (ASEAN). Indonesia telah berpartisipasi aktif dalam

penanggulangan bencana di berbagai negara, bahkan mampu mengembangkan platform nasional dan lokal untuk mereduksi korban bencana. Berkat upaya serius dan intensif tersebut, Presiden Susilo Bambang Yudhoyono mendapat penghargaan Global Champion on Disaster Risk Reduction dari Perserikatan Bangsa-bangsa. Indonesia juga dituntut agar ikut menyelesaikan konflik yang terjadi di wilayah Asia Tenggara, karena pengalamannya yang sudah teruji dalam menangani konflik domestik. Masih banyak isu lain yang membutuhkan kompetensi tinggi dan kolaborasi dengan banyak pihak. Penerbitan buku ini menandai bahwa khalayak pekerja sosial di Tanah Air siap untuk mengemban amanat yang lebih besar. Mari kita wujudkan visi 'Kesejahteraan Sosial yang Paripurna untuk Semua Warga' (welfare for all) dengan kerja keras, kerja cerdas, kerja ikhlas, dan kerja mawas.*

Assessment and Teaching of 21st Century Skills - Patrick Griffin
2014-10-21

This second volume of papers from the ATC21STM project deals with the development of an assessment and teaching system of 21st century skills. Readers are guided through a detailed description of the methods used in this process. The first volume was published by Springer in 2012 (Griffin, P., McGaw, B. & Care, E., Eds., *Assessment and Teaching of 21st Century Skills*, Dordrecht: Springer). The major elements of this new volume are the identification and description of two 21st century skills that are amenable to teaching and learning: collaborative problem solving, and learning in digital networks. Features of the skills that need to be mirrored in their assessment are identified so that they can be reflected in assessment tasks. The tasks are formulated so that reporting of student performance can guide implementation in the classroom for use in teaching and learning. How simple tasks can act as platforms for development of 21st century skills is demonstrated, with the concurrent technical infrastructure required for its support. How countries with different languages and cultures participated and contributed to the

development process is described. The psychometric qualities of the online tasks developed are reported, in the context of the robustness of the automated scoring processes. Finally, technical and educational issues to be resolved in global projects of this nature are outlined.

Adolescents at Risk - Joy G. Dryfoos 1991-08-29

Seven million youngsters--one in four adolescents--have only limited potential for becoming productive adults because they are at high risk for encountering serious problems at home, in school, or in their communities. This is one of the disturbing findings in this unique overview of what is known about young people aged 10 to 17 growing up in the United States today. The book explores four problem areas that are the subject of a great deal of public interest and social concern: delinquency, substance abuse, teen pregnancy, and school failure. In examining these problem areas, Dryfoos has three objectives: to present a more cogent picture of adolescents who are at risk of problem behaviors and where they fit in society; to synthesize the experience of programs that have been successful in changing various aspects of these behaviors; and to propose strategies for using this knowledge base to implement more effective approaches to helping youngsters succeed. Among the key concepts emerging from this study are the importance of intense individual attention, social skills training, exposure to the world of work, and packaging components in broad, community-wide interventions. Schools are recognized as the focal institution in prevention, not only in regard to helping children achieve academically, but in giving young people access to social support and health programs. The author also proposes comprehensive youth development initiatives at the local, state and national level, based on programs shown to be

effective in real practice. This landmark, state-of-the-art study represents an indispensable resource for anyone interested in the welfare and current problems of youth, including psychologists, sociologists, school administrators, state and federal officials, policymakers, and concerned parents.

Lost Rights - James Bovard 2016-01-05

From Justice Department officials seizing people's homes based on mere rumors to the IRS and its master plan to prohibit the nation's self-employed from working for themselves to the perpetrators of the Waco siege, government officials are tearing the Bill of Rights to pieces. Today's citizen is now more likely than ever to violate some unknown law or regulation and be placed at the mercy of an administrator or politician hungering for publicity. Unfortunately, the only way many government agencies can measure their "public service" is by the number of citizens they harass, hinder, restrain, or jail. James Bovard's *Lost Rights* provides a highly entertaining analysis of the bloated excess of government and the plight of contemporary Americans beaten into submission by a horrible parody of the Founding Fathers' dream.

Perang Arab Israel: Selagi Belum Kiamat - Sabarudin Hussein 2012

Palestine bukan milikku, bukan milik bangsa Turki tetapi milik bangsa

Arab. Baitul Maqdis pula bukan milik bangsa Arab tetapi milik umat Islam seluruhnya. Aku tidak akan sesekali menyerahkan bumi Palestine walaupun sejenak setelah bangsaku berjihad bermati-matian mempertahankan dan menyuburkan tanahnya dengan darah-darah mereka. Simpanlah wang kamu yang berjuta ringgit itu kerana sekiranya suatu hari nanti Khilafah Islamiyah ini tumbang, kamu boleh mengambilnya tanpa sebarang wang tukaran. Adapun, sekiranya aku masih hidup, aku lebih rela diriku dicincang daripada melihat bumi Palestine dikeluarkan dari Daulah Islamiyah dan perkara itu selamanya tidak akan berlaku. Adakah kami akan membenarkan diri (Wilayah-wilayah takluk Kerajaan Turki Uthmaniyah) kami ini semua dipisah-pisahkan sedangkan kami masih hidup?!" (Sultan Abdul Hamid II pada tahun 1901 ketika ditawarkan oleh Theodore Hertzl (Ketua Pertubuhan Zionis Antarabangsa dan antara pemimpin tertinggi freemasonry). Dipetik daripada kitab Kaifa Saqat al-Khilafah al-Islamiyah, halaman 26) Selepas Turki Uthmaniyah kalah dalam Perang Dunia Pertama (1914-1918), British yang menguasai tanah jajahan Turki Uthmaniyah (termasuk Palestine) mengisytiharkan Perisytiharan Balfour pada tahun 1917 dengan mengiktiraf negara Israel tanpa menafikan hak-hak sivil dan agama masyarakat bukan Yahudi di Palestin. Sejak dari itu, seramai 85,000 orang Yahudi sudah pun bermastautin di Palestin. Pada tahun 1947, UN Partition Resolution (GA 181) membahagikan tanah Palestine dengan 4,700 batu kepada 1.35 juta penduduk Arab Palestine manakala 5,300 batu kepada 630 ribu pendatang Yahudi. Pembahagian yang jelas berat sebelah mencetus Perang Arab-Israel 1947 dan Perang Arab-Israel 1948. Buku ini mendedahkan: Faktor kekuatan tentera Israel yang memenangi Perang Arab-Israel 1947-1948, Perang Suez 1956, dan Perang Enam Hari 1967, Perang Yom Kippur 1973 Faktor kelemahan tentera gabungan Arab yang mendorong kekalahan kepada Israel. Strategi yang digunakan oleh kedua-dua pihak. Perjanjian Camp David: Sebab dan kesan ke atas Palestine dan Negara-Negara Arab di sekitarnya. Konflik Israel-Lubnan (1978-2006): Harapan buat Negara-Negara Islam? Palestine: Kesengsaraan, bantuan Luar dan harapan masa depan. Sabaruddin Hussein adalah penulis, penterjemah dan pengkaji

sejarah dan konspirasi berkaitan dengan agenda Yahudi. Beliau menulis buku Agenda Yahudi Menakluk Dunia dan Konspirasi Yahudi: Perang & Penaklukan.

The Lawful and the Prohibited in Islam - Yusuf al-Qaradawi

2013-10-11

Since its first publication in 1960, this famous work by Yusuf al-Qaradawi has enjoyed a huge readership in the Muslim world, and has been translated into many languages. It dispels the ambiguities surrounding the Sharī'ah to fulfil the essential needs of the Muslims in this age. It clarifies the ḥalāl (lawful) and why it is ḥalāl, and the ḥarām (prohibited) and why it is ḥarām, referring to the Qur'an and the Sunnah of the Prophet. It answers questions which may face the Muslims today, and refutes the ambiguities and lies about Islam. Dr al-Qaradawi delves into the authentic references in Islamic jurisprudence, extracting judgements of interest to contemporary Muslims in the areas of worship, business dealings, family life, food and drink, dress and ornaments, patterns of behaviour, individual and group relations, family and social ethics, habits and social customs.

Encyclopedia of Addictions - Kathryn H. Hollen 2008-12-20

This book covers all type of addictions, from substance abuses and eating disorders to gambling, pornography, and shopping. This two volume set contains frank and factual information about symptoms, causes, effects, prevention, and treatment of substance abuse - alcohol, nicotine, and drugs - and of 'behavioural addictions' such as eating disorders, pathological gambling, and compulsive sexual activity. Including the most up-to-date research, entries trace the history of the debate over whether addiction is a choice or a disease, and explain how genetic and biological findings support the disease concept while lifestyle choices affect the course of the disease. Graphics and discussions of the brain structures that support this self-reinforcing mechanism illustrate why treatments that obstruct the pathway are showing such promise. The volumes offer an historical perspective including biographical information on pioneers in addictions research and treatment. Some material is presented in 'fact boxes' and other graphically pleasing formats. This single-source reference includes lists of support groups,

organizations devoted to addictions research and treatment, and suggestions for obtaining further information. Entries include alcohol; alternative treatment; anorexia; antidepressants; betablockers; blended model of addiction; brain chemistry; cigarettes; denial; disease model of addiction; exercise addiction; Food and Drug Administration; gambling addiction; Jung, Carl G.; methadone; neurotransmitters; overdose; pornography; recreational drugs; relapse; serenity prayer; shopping addiction; Temazepam; vicodin; withdrawal; and, Women's Christian Temperance Union and more.
