BSAVA Manual of Exotic Pet and Wildlife Nursing - Molly Varga 2012-12-17

The number of exotic and wildlife cases presented at the veterinary practice has increased significantly in the past 10 years, with increasing expectations regarding level of care. The nursing requirements of these less familiar species are significantly different from those of dogs and cats. This Manual provides veterinary nurses with a greater understanding of these requirements, enabling them to modify and apply their skills to these cases. Written by veterinary nurses and veterinary surgeons with expertise in this field, this Manual is practical and user-friendly, enabling the easy and direct application of theory to practice. Patient care is discussed in a logical sequence, from the initial telephone call through to consultation, admittance, hospitalization and intervention. A variety of useful tools,

including husbandry questionnaires, anaesthesia record forms and a collection of client handouts are also included. An ideal resource for student and qualified veterinary nurses, as well as other members of the veterinary healthcare team.

The Kama Sutra - Vatsyayana 2015-05-11

The Kama Sutra The Standard Work on Human Sexual Behavior By Vatsyayana Translated from the Sanscrit In Seven Parts, with Preface, Introduction and Concluding Remarks. New Edition The Kama Sutra is an ancient Indian Hindu text widely considered to be the standard work on human sexual behavior in Sanskrit literature written by Vaatsyayana. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kama" which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and "sutra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism (or line, rule, formula), or a collection of such aphorisms in the form of a manual.

Contrary to popular perception, especially in the western world, Kama sutra is not exclusively a sex manual; it presents itself as a guide to a virtuous and gracious living that discusses the nature of love, family life and other aspects pertaining to pleasure oriented faculties of human life. The Kama Sutra is the oldest and most notable of a group of texts known generically as Kama Shastra (Sanskrit: Kama Sastra). Historians attribute Kamasutra to be composed between 400 BCE and 200 CE. John Keay says that the Kama Sutra is a compendium that was collected into its present form in the 2nd century CE.

As teenagers today navigate increasingly fluid identities and choices, there is a demand for an accessible, interactive tool to help share knowledge about sex and sexual health; one that demystifies the facts and speaks frankly about experiences whose lessons often fall into the grey areas. Since 2008, Miller and Bley have held an open call for young people to create comics that address a variety of topics involved with sex education. We have since produced several issues of a sex-ed comic called Not Your Mother's Meatloaf. The work is chosen from a vastly varied group of submissions and attempts to challenge hetero and gender normative practices in sex education. The comics address topics like body image, safer sex, consent, and relationships, from positions that have historically been left out of sex education. These graphically illustrated personal narratives address different themes, such as "Firsts," "Bodies," "Health," "Age," and "Endings." The book will bring together the best of the material from the Not Your Mother's Meatloaf comics, along with new graphic stories and writing by the editors providing personal and sociological background.

Lal Kitab - Rādhākṛṣṇa Śrīmālī 2021-04-10

Who is not in distress in the present era' Some are anguished mentally some physically some by children some by spouse. There is no harmony in the family as before. Everybody wants to cook one's meal separately. The tradition of the joint family has already been shattered. One who is in trouble primarily wants freedom from it be it only a minor wound. His first priority remains to get relief from the pain whatsoever it may cost. The author of Lal Kitab had understood this principle much earlier and created trials or remedies imbibing good conduct righteousness and fundamental code of social and universal conduct along with the interweave of astrology so that the person might secure relief from the pain as well as remain connected with the societal customs. Most of the people in India are very well acquainted with the name of 'Lal Kitab' Originally this book was written by Shri. Girdhari Lal Sharma in Urdu language. Subsequently it was translated into Hindi language. Some adulteration is quite natural in the translated version of the original text. Primarily our rishi-maharshis godmen astrologers fortune-tellers like Narad Parashar Kalidas Varahmihir Jaimini Bhrigu etc. and the contemporary saints had prescribed yajna hawan worship chanting God's name rituals and donations to mitigate the bad effect of planets. Later on acknowledging the paucity of money and time Shri Girdhari Lal Sharma the author of the original Lal Kitab proposed remedies that were simple and required least expense of money. These easy remedies became very popular in India. Keeping in mind a code of conduct dharma practical aspects good conduct and the basic principles of life and the need for proper discipline in society the author had suggested the remedies which were accepted by the common men by heart. For example respect of elders service to parents offering grass to cow offering bread to dog feeding monkeys with gram and jaggery etc. are such remedies that can easily be done by everybody. The principality of twelve signs and nine planets of Indian astrology has also been accepted by Lal Kitab. The mere difference is that

whereas in the prevalent astrology the ascendant is determined by the time of birth Lal Kitab always keeps it between Aries and Pisces.

Mayamatam (2 Volumes) - Bruno Dagens 2010-01-01

The Matamata is a Vastusastra, i.e. a treatise on dwelling, and as such, it deals with all the facets of gods' and men's dwellings, from the choice of the site to the iconography of the temple walls. It contains numerous and precise descriptions of villages and towns as well as of the temples, houses, mansions and palaces. It

gives indications for the selection of proper orientation, right dimensions, and appropriate materials. It intends to be a manual for the architect and a guidebook for the layman. Well thought of by traditional architects (sthapati-s) of South India, the treatise is of great interest at a time when technical traditions, in all fields, are being scrutinized for their possible modern application. The present bilingual edition prepared by Dr Bruno Dagens contains critically edited Sanskrit text which is an improvement over the earlier edition by the same scholar and published as No.40 of Publications de L'Institut Francaisd' Indologie, Pondicherry. The English translation, also published earlier, has now been revised with copious notes. The usefulness of the edition has been further enhanced by adding an analytical table of contents and a comprehensive glossary. In the series of Kalamulasastra early texts on music, namely, Matralaksanam, Dattilam and Brhaddest, have been published. The medieval texts on music, especially, the Sribastamuktavali (No.3 in the series) and the Nartananirnaya (No.17 in the series), bring us up to the 15th and 16th centuries. In the case of architecture, despite the IGNCA's endeavour to publish portions of the Brhatsamhita, the Agni Purana and the Visnudharmottara-Purana, first, this has not been possible. Instead, our scholars were able to complete work first on a late but important text, namely, Silparatnakosa. We hope that the sections on architecture in the Brhatsamhita, the Agni Purana and the Visnudharmottara-Purana which predate the medieval texts, will be published soon, along with revised and re-edited texts of Manasollasa and Aparajitaprccha. The Mayamatam is the fourteenth and fifteenth volumes in the Kalamulasastra series of the Indira Gandhi National Centre for the Arts (IGNCA).
