The Impact of Motivation on the Performance of Employees - Mohammad

Faysal Sarker 2017-10-04
Research Paper

(postgraduate) from the year 2016 in the subject Business economics -

Personnel and

Organisation, grade:

Merit, , course: MA in

Human Resource

Management, language:

English, abstract: For

many years, motivation

has been a key indicator

of productive employee

performance within an

organisation, so it has

been an area of major

concern for the

organisation and human

resource managers. There

are wide ranges of

factors related to

management, employees,

organisation and the

workplace which make it a complex and challenging job to

motivate employees in an organisation. Therefore,

different strategies and methods should be used

by the organisation and human resource managers

to motivate employees.

There are different

needs and expectations

for an employee to join

any organisation.

Monetary and non-

monetary factors are

used by human resource

managers to achieve

different employee and

organisation related

objectives. The present

research works

investigates the impact

of motivation on the

performance of employees

in Ramchandrapur High

School. Descriptive

method and

questionnaires embedded

with Likert scale was

used as main instruments

for collecting necessary

data to carry out this

research work. Data is

collected from the sample size of 50 where faculty members, employee assistants, office helpers, and employees in training and security personnel were included. The critical review of the literature and the quantitative analysis of the survey data pointed that both extrinsic and intrinsic motivational factors play an important role in motivating employees. The study revealed that salary is the most effective motivational factor among various extrinsic and intrinsic motivational factors like job security, advancement in career, the good relationship among co-workers, achievement sense, training and development and sense of recognition. The study further reveals that level of motivation among the employees of

Ramchandrapur High School is low as compared to the expectation of employees. Although both extrinsic and intrinsic factors are responsible for motivating employees in an organisation, this study reveals that employees of Ramchandrapur High School are motivated more by extrinsic factors than by intrinsic ones. The management of the school should focus more towards satisfying the extrinsic need of employees to hold the employees for long which subsequently helps to increase the quality of the output produced by it.

DREAM Model to Start a Small Business is a conceptual model that can help you start a small business in five steps: • Dreaming • Researching • Expressing

This book includes a step-by-step process, easy-to-understand and ready-to-use templates as well as practical advices that an entrepreneur can use to materialize from start to finish the dream to own a successful business. Managing Human Resource And Industrial Relations - Tapomoy Deb 2009

The World - Felipe Fernández-Armesto
2010-12

The World: A History interweaves two stories: the story of our

interactions with nature and the story of our interactions with each other. The environment-centered story is about humans distancing themselves from the rest of nature and searching for a relationship that strikes a balance between constructive and destructive exploitation. The culture-centered story is about how human cultures have become mutually influential and yet mutually differentiating. Both stories have been going on for thousands of years. Conveniently portable and highly readable, with engaging typefaces and interior designs.

Community Psychology - James H. Dalton 2007
In this book the authors present additional personal and community narratives and extended examples to enliven their writing. They have

also expanded their coverage of social policy research and advocacy, interdisciplinary perspectives on communities (e.g. the concept of social capital), and interventions to enhance neighborhood and community life. They portray community psychology as now more international, more attentive to human diversity, and more attuned to the nuances of social and cultural contexts than ever before. They provide narratives illustrating how ordinary citizens working together have transformed their communities and engaged in social change.

Traumatic Dental Injuries - Jens O. Andreasen 2011-10-07
TRAUMATIC DENTAL

INJURIES: A MANUAL The third edition of Traumatic Dental Injuries: A Manual builds on the widespread success of the previous two editions. The ultimate guide to dental trauma, the manual preserves its uniquely usable and reader-friendly format, demonstrating step-by-step treatment protocols for commonly occurring traumatic injuries. Several new sections have been added to expand the number of clinical scenarios, describing soft tissue injuries associated with dental trauma, showing how decoronation of ankylosed anterior teeth in adolescents can preserve the alveolar process for later implant placement, and identifying predictors for pulpal and periodontal ligament healing complications as well as for tooth loss.

A unique feature of the new edition is the accompanying DVD which presents computer animations of all trauma scenarios, as well as links to the internet-based interactive Dental Trauma Guide to predict healing complications for individual trauma scenarios. **KEY FEATURES** Written by international authorities on dental trauma Demonstrates treatment protocols in a clear step-by-step format Illustrated throughout with high-quality color images and diagrams Includes more sections to expand number of clinical scenarios Accompanied by a new DVD of trauma scenario animations **REVIEWS OF PREVIOUS EDITIONS** The text is clear and well written and well referenced ... The chapters on diagnosis of periodontal and pulpal complications are particularly helpful

as this is a difficult area for many clinicians. The manual will serve as an excellent reference for practitioners and dental students who have a good working knowledge of dental traumatology. Journal of Orthodontics Overall, this book is excellent and I believe would be an essential member of a dentist's library. It is the sort of book that can be quickly read, and information and guidance can be located easily when the need arises. The price makes the book very affordable and I wholeheartedly recommend it as an essential reference source for the general dentist and dental student. Steen/Noe Fifth Canadian Edition has been written to make HR more accessible to students, more reflective of their situation, and more about them. Today, every

manager is "in HR", and every employee is actively engaged in the process of HRM, regardless of whether they aspire to be a manager or an HR professional. Students will experience HRM every day of their working lives, from how they are perceived by recruiters to completing a performance appraisal, to being promoted or fired. This easy to read and relevant 11 chapter human resource management text is ideal for a one-semester course. Steen/Noe balances theory with practical application and rich examples that support the need for foundational HRM, thought leadership and

Strategic Execution - Kenneth J. Carrig 2019-09-17

CEOs regularly identify strategic execution as their biggest challenge, and the top priority facing today's business leaders. Based on their research with senior executives across a variety of industries—and including firms like Marriott, Microsoft, SunTrust, UPS, and Vail Resorts—Kenneth J. Carrig and Scott A. Snell have distilled the elements that are most critical for execution. This book addresses the challenges of execution, why it matters, and why the approach remains elusive. It introduces

an integrated framework for understanding four priorities underlying execution excellence. Ultimately, it all comes down to alignment, agility, ability, and architecture. The authors lay out a process for applying the framework, helping business leaders to diagnose their challenges and to determine their path toward breakthrough performance.

Cost-Benefit Analysis for Development - Asian Development Bank 2013-01-01

The Asian Development Bank (ADB) has been continuously undertaking measures to enhance the effectiveness of its operations. To improve projects both at the preparation and

implementation stages, ADB issued the Guidelines for Economic Analysis of Projects in 1997 as a means to enhancing project quality at entry. The conduct of proper economic analysis helps ensure the efficient use of development funds and public resources and thereby increase aid effectiveness. This practical guide is a supplement to the Guidelines for the Economic Analysis of Projects. It provides an overview of recent methodological developments in cost-benefit analysis as well as suggested improvements in the economic analysis of projects in selected sectors through case studies. These case studies illustrate the application of suggested methodologies, taking into account sector-specific needs, as well

as difficulties faced by practitioners in terms of data and time constraints during project processing. It also aims to contribute to ADB's capacity building initiatives as this will be the main reference material for conduct of economic analysis.

HR Governance - Boris Kaehler 2018-07-04
Human resource (HR) governance is a relatively new construct that has recently begun attracting more and more attention in both research and practice. As a part of corporate governance, it represents the internal and external normative framework of human resource management and its supervision in organizations. This book theoretically integrates

HR governance with the related domains of corporate governance, general management, HR management, and leadership. By doing so, it provides scholars and practitioners in the field with a precisely delineated system of theoretical concepts for their work and helps to translate these concepts into concrete research questions and practical guidelines. By interpreting the new ISO 30408 norm on human governance and taking into account recent developments, the book helps to comply with and anticipate current and future HR regulations.

A Framework for Post-phylogenetic Systematics
- Richard H. Zander 2013

The Framework for Post-Phylogenetic Systematics reframes biological systematics to reconcile classical and cladistic schools. It combines scientific intuition and statistical inference in a new form of total evidence analysis developing a joint macroevolutionary process-based causal theory. Discrepancies between classical results and morphological and molecular cladograms are explained through heterophyletic inference of deep ancestral taxa, coarse priors leading to Bayesian Solution of total evidence, self-nesting ladders that can reverse branching order,

and a superoptimization protocol that aids in distinguishing pseudoextinction from budding evolution. It determines direction of transformative evolution through Dollo evaluation at the taxon level. The genus as a basic, practical unit of evolution is postulated for taxa with dissilient evolution. Scientific intuition is defended as highly developed heuristics based on physical principles. The geometric mean and Fibonacci series in powers of the golden ratio explain distributions of measurements of the form $(a-b)(c-d)$ when close to zero. This series is basic both to S. J. Gould's speciation reformulation of macroevolution and to psychologically salient numbers. The effect of molecular systematics on conservation and

biodiversity research is shown to be of immediate concern. The value of cladistic study for serial macroevolutionary reconstruction is reduced to-in morphological studies, evaluation of relatively primitive or advanced taxa, and distinction of taxa by autapomorphies, and-in molecular studies, identification of deep ancestors via heterophyly or unreasonable patristic distance not explainable by extinct or unsampled extended paraphyly. Evolutionary paraphyly is common in cladistics and is to be avoided; phylogenetic paraphyly, however, can be informative.

Leadership Lives... - Matt Hess 2023-01-12

The stage on which leadership performs is dynamic, robust and in flux, and then in a moment's notice, the demand for simplicity, generality and stillness are called to center stage and the leader must rewrite the script on the fly. There are infinite potentialities

for every leadership opportunity, but the magic happens when we know and choose the correct approach.
