Pembangunan Pertanian - Triwibowo Yuwono 2019-05-10

Pembangunan pertanian menjadi salah satu isu sangat penting dewasa ini. Pembangunan pertanian bukan semata-mata menyediakan pangan yang cukup bagi semua warga suatu bangsa. Persoalan jati diri, kehormatan dan martabat bangsa, bahkan kedaulatan bangsa merupakan bagian tak terpisahkan dari semua konsep pembangunan suatu bangsa. Oleh karena itu kedaulatan pangan akhirnya menjadi suatu isu yang mengemuka bersamaan dengan munculnya persoalan-persoalan penyediaan pangan.? Buku ini merupakan gagasan para Guru Besar di Fakultas Pertanian, Universitas Gadjah Mada yang mencoba memotret persoalan pembangunan pertanian dari beberapa sisi. Memang, pembangunan pertanian terlalu kompleks untuk dibahas dalam sebuah buku, namun setidaknya-tidaknya buku ini diharapkan dapat memberikan wawasan yang seharusnya dipahami oleh mereka yang bekerja di dalam ranah pembangunan pertanian. Buku ini ditulis untuk memberikan pemahaman yang semestinya mengenai konsep-konsep pembangunan pertanian dan kedaulatan pangan. Oleh karena itu, buku ini sangat sesuai dibaca oleh para mahasiswa, dosen, para pegiat swadaya masyarakat, bahkan para birokrat yang bekerja di lembaga-lembaga pertanian dan pangan.

The Airline Profit Cycle - Eva-Maria Cronrath 2017-07-06

The air transport industry has high economic impact; it supports more than 60 million jobs worldwide. Since the early years of commercial air travel, passenger numbers have grown tremendously. However, for decades airlines' financial results have been swinging between profits and losses. The airline industry's aggregate net average profit between 1970 and 2010 was close to zero, which implies bankruptcies and layoffs in downturns. The profit cycle's amplitude has been rising over time, which means that problems have become increasingly severe and also shows that the industry may not have learned from the past. More stable financial results could not only facilitate airline management decisions and improve investors' confidence but also preserve employment. This book offers a thorough understanding of the airline profit cycle's causes and drivers, and it presents measures to achieve a higher and more stable profitability level. This is the first in-depth examination of the

airline profit cycle. The airline industry is modelled as a complex dynamic system, which is used for quantitative simulations of 'what if' scenarios. These experiments reveal that the general economic environment, such as GDP or fuel price developments, influence the airline industry's profitability pattern as well as certain regulations or aircraft manufactures' policies. Yet despite all circumstances, simulations show that airlines' own management decisions are sufficient to generate higher and more stable profits in the industry. This book is useful for aviation industry decision makers, investors, policy makers, and researchers because it explains why the airline industry earns or loses money. This knowledge will advance forecasting and market intelligence. Furthermore, the book offers practitioners different suggestions to sustainably improve the airline industry's profitability. The book is also recommended as a case study for system analysis as well as industry cyclicity at graduate or postgraduate level for courses such as engineering, economics, or management.

Kunci Surveyor Membidik Perkembangan Industri Domestik - Ir. Abdul Jabar Yoesoef, MM 2013-12-02

""Penerapan sistem self assessment yang dilakukan oleh Direktorat Jenderal Pajak dan model pengawasan Departemen ESDM terhadap industri dan pertambangan sebagai Wajib Pajak, sesungguhnya merupakan kunci kelemahan terbesar negara Indonesia ini. Padahal negara ini memiliki peluang untuk meraih optimalisasi pendapatan pajak dan royalti atas eksploitasi kekayaan alam. Dengan pertumbuhan bermacam industri manufaktur relokasi yang datang dari berbagai negara, serta eksploitasi kekayaan alam terus bertumbuh. Akan tetapi, pada kenyataannya pendapatan negara tidak sebesar kesempatan yang dibuka. Padahal Jumlah Wajib Pajak (Badan Usaha) kini sudah mencapai 2,85 juta. Apa yang keliru? Hal ini disebabkan, dominasi Pelaku Usaha adalah perusahaan yang mayoritas dalam genggamannya asing dan nonpribumi. Karakteristik pertumbuhan industri di Indonesia berdasarkan kedatangan industri relokasi dari negara lain termasuk peluang yang dibuka lebar untuk eksploitasi kekayaan alam. Artinya pertumbuhan industri nusantara, bukan berbasis dari kebangkitan industri yang digerakkan oleh pengusaha domestik atau BUMN. Mayoritas industri dimiliki dan dikuasai oleh investor asing serta warga nonpribumi.""

Managerial Economics (GBTU) - D.N. Dwivedi

This book provides a complete and comprehensive coverage of the managerial economics syllabus of Gautam Buddha Technical University. It includes both, the basic microeconomics theories and some important aspects of macroeconomics including inflation, growth and business cycles. The subject matter is presented in a precise and lucid manner. Economic laws and theories have been explained and illustrated by applying graphical and algebraic tools of analysis and also illustrated with appropriate real life examples. Review questions have been provided at the end of each chapter for students to test their own understanding of managerial economics.

Learning Basic Calculus - Alexander Hahn 1998

This introductory calculus text was developed by the author through his teaching of an honors calculus course at Notre Dame. The book develops calculus, as well as the necessary trigonometry and analytic geometry, from within the relevant historical context, and yet it is not a textbook in the history of mathematics as such. The notation is modern, and the material is selected to cover the basics of the subject. Special emphasis is placed on pedagogy throughout. While emphasizing the broad applications of the subject, emphasis is placed on the mathematical content of the subject.
