Principles of Microeconomics - N. Gregory Mankiw 2001

In writing this textbook, Mankiw has tried to put himself in the position of someone seeing economics for the first time. The author's conversational writing style is superb for presenting the politics and science of economic theories to tomorrow's decision-makers. Because Mankiw wrote it for the students, the book stands out among all other principle texts by intriguing students to apply an economic way of thinking in their daily lives.

Receiving such praise as "perhaps the best ever" textbook in economic principles, it's no wonder Mankiw's prize project has quickly become one of the most successful books ever to be published in the college marketplace.

Why Are Some Countries Richer Than Others? - Jesus Felipe

2008-10-01

Provides evidence of a problem with the influential testing and assessment of Solow's (1956) growth model proposed by Mankiw et al. (1992) and a series of papers evaluating the latter. First, the assumption of a common rate of technical progress maintained by Mankiw et al. (1992) is relaxed. Solow's model is extended to include the different levels and rates of technical progress of each country. This increases the explanatory power of the cross-country variation in income/capital of the OECD countries to over 80%. The estimates of the parameters are statistically significant and take the expected values and signs. Second, the estimates merely reflect a statistical artifact. This has serious implications for the possibility of actually testing Solow's growth model. Illus.
