Ela é uma menina normal, que estuda, que tem uma amiga confidente, um pretenso namorado de nível muito superior ao seu e, desgraçadamente, é engravidada pelo padrinho e acaba casando-se com um alferes da polícia.

História e Colapso da Civilização - Mourthé, Arnaldo 2014-06-25

A história é a obra-prima da humanidade, grandiosa e interessante. Este livro mostra isso. Ele foi concebido como um projeto de estudo da história, com enfoque na busca de ensinamentos. Especialmente daqueles que possam esclarecer-nos sobre questões atuais que nos inquietam. Como foi possível manipular a informação e o conhecimento, para usá-los como instrumentos de dominação, espoliação, opressão e violência? Como foi possível conseguir a aceitação da opinião pública à negação de princípios morais e éticos, e da sua própria cultura? O que foi o século XX? Seu retrato está aqui, com tudo o que conta para nosso bem ou nosso mal. As conquistas do saber e dos cidadãos, mas também as guerras, as crises, os genocídios; a violência de um lado e a passividade submissa de outro; a aceitação da fome, da ignorância, das doenças e das catástrofes, como naturais e banais. Tudo isso, e mais a síntese da história da humanidade, com suas conquistas e derrotas, são tratados aqui com acuidade e informações preciosas. E não apenas isso! Aqui você encontra exemplos que nos indicam caminhos para superarmos nossas dificuldades e avançarmos nas nossas conquistas. Depois de lê-lo, você poderá mais facilmente vencer sua perplexidade diante de tantos desmandos e calamidades, que condicionam nossas vidas. Este livro é um mapa da mina do conhecimento.

Ensaíes - Ralph Waldo Emerson 1966

Fundador do transcendentalismo americano, de tendência panteísta, pregou o desprezo das riquezas materiais e um amor a Deus fundamentado na alegria. Este livro constitui a expressão mais característica de tudo o que produziu literariamente. Não é um tratado, mas uma série de reflexões e meditações. Este volume reúne uma seleção dos seus mais importantes ensaios.

Wealth and Poverty in Contemporary Brazilian Capitalism - Gustavo Moura de Cavalcanti Mello 2021-10-21

This book analyses contemporary capitalism from Brazil and from the Marxian critique of political economy, particularly; the co-dependency of wealth and poverty and of civilization and barbarism; the current

tendency towards capital over-accumulation and the specific form assumed by the capitalist crisis in recent decades; the financialisation process of capital accumulation, its effects on the world of labour; and the place that the state assumes in this broad process. Current trends toward increasing social inequality, impoverishment of large sections of the population, precariousness of labour and rising unemployment, environmental destruction, the spread of austerity policies and the suppression of social policies, the rise of the far right (together with the strengthening of racism, misogyny, xenophobia, political and religious fanaticism and all manner of intolerance, etc.), low economic growth, the primacy of the financial dimension of capital accumulation, all need to be understood in their multiple and complex articulations, as fundamental and inherent elements of contemporary capitalism, associating empirical analysis with conceptual construction. Because they are strictly contradictory processes, a dialectical approach is required that reclaims the Marxian legacy, and aims to contribute to updating it, seeking to bring new and relevant elements to the Marxist debate, based on a specific interpretation of Marx's work, and as an immediate empirical basis the Brazilian reality.

Secularization in the UN Reform - Jahyr Jesus Brito 2017-10-02

Interdependence in the contemporary world is an undeniable fact, and globalization is but one side of this multifaceted and extremely complex process. The outset of the integration of individuals dates back to the origin of human existence on Earth, as human beings and civilizations have always sought expansion for a number of reasons. Specifically, after World War II, there was a considerable change in several societies across the planet. Technological development caused changes that had never been experienced before.

Into the Amazon: The Life of Cândido Rondon, Trailblazing Explorer, Scientist, Statesman, and Conservationist - Larry Rohter 2023-05-30

A thrilling biography of the Indigenous Brazilian explorer, scientist, statesman, and conservationist who guided Theodore Roosevelt on his journey down the River of Doubt. Cândido Rondon is by any measure the greatest tropical explorer in history. Between 1890 and 1930, he navigated scores of previously unmapped rivers, traversed untrodden mountain ranges, and hacked his way through jungles so inhospitable that even native peoples had avoided them—and led Theodore Roosevelt and his son, Kermit, on their celebrated “River of Doubt” journey in 1913–14. Upon leaving the Brazilian Army in 1930 with the rank of a two-star general, Rondon, himself of indigenous descent, devoted the remainder of his life to not only writing about the region’s flora and fauna, but also advocating for the peoples who inhabited the rainforest and lobbying for the creation of a system of national parks. Despite his many achievements—which include laying down a 1,200-mile telegraph line through the heart of the Amazon and three nominations for the Nobel Peace Prize—Rondon has never received his due. Originally published in Brazil, *Into the Amazon* is the first comprehensive biography of his life and remarkable career.

Partisan Publics - Ann Mische 2009-07-26

During the 1980s and 1990s, Brazil struggled to rebuild its democracy after twenty years of military dictatorship, experiencing financial crises, corruption scandals, political protest, and intense electoral contention. In the midst of this turmoil, Ann Mische argues in this remarkable book, youth activists of various stripes played a vital and unrecognized role, contributing new forms of political talk and action to Brazil's emerging democracy. Drawing upon extensive and rich ethnography as well as formal network analysis, Mische tracks the lives of young activists through intersecting political networks, including student movements, church-based activism, political parties, nongovernmental organizations, and business and professional organizations. She probes the problems and possibilities they encountered in combining partisan activism with other kinds of civic involvement. In documenting activists' struggles to develop cross-partisan publics of various kinds, Mische explores the distinct styles of communication and leadership that emerged across organizations and among individuals. Drawing on the ideas of Habermas, Gramsci, Dewey, and Machiavelli, *Partisan Publics* highlights political communication styles and the forms of mediation and leadership they give rise to—for democratic politics in Brazil and elsewhere. Insightful in its discussion of culture, methodology, and theory, *Partisan Publics* argues that partisanship can play a significant role in civic life, helping to build relations and institutions in an emerging democracy.

Dos delitos e das penas - Cesare Beccaria 2007

Beccaria foi a primeira voz a levantar-se, em nome da humanidade e da razão, contra a tradição jurídica e a legislação penal de seu tempo, denunciando os julgamentos secretos, as torturas empregadas como meio de se obter a prova do crime, a prática de confiscar os bens do condenado. Uma de suas teses é a igualdade, perante a lei, dos criminosos que cometem o mesmo delito. Suas idéias se difundiram rapidamente todo o mundo civilizado, sendo aplaudidas por Voltaire, Diderot e Hume, entre outros, e sua obra exerceu influência decisiva na reformulação decisiva da legislação vigente da época, estabelecendo os conceitos que se sucederam.

Sustainability - Marcílio de Freitas and Marilene Corrêa da Silva Freitas 2013-12-20

The reinvention and the emergency of the capitalism with new worldwide contours, having ecology as the paradigm of modernity, have introduced a set of new problems. The integration of the world economy with environmental questions, the control on the ecological future of the planet, the reinventions of new ethical utopias for the humanity, the universality of the participative democracy, and the construction of the new natural and social contracts on a worldwide scale, are questions that pressure the current systems of thoughts. The fast social depreciation and ecological destruction, putting the future existence of the humanity at risk, constitute a contradiction of the processes of globalization. Mankind has been confronted with this new historical perspective: to construct and incorporate socio-economical enterprises to the notion of sustainable development. This book has the pretension to introduce new elements in this dialogue, reaffirming the importance of the Amazonia in this worldwide political enterprise.

Freud por ele mesmo - SIGMUND FREUD 1994

O pensamento de Freud é um marco histórico. Suas idéias moldaram e revolucionaram a cultura moderna. Genial decifrador de enigmas humanos, sua teoria se propôs a desvendar os mistérios da mente. Mas poucas obras foram objeto de mais estudos e rejeição neste século que a de Freud. Freud autodefiniu-se como um conquistador do mundo. Estas páginas revelam que a mais dramática dessas conquistas foi, embora incompleta, a conquista de si mesmo. Este livro-antologia enfoca pontos essenciais de sua obra e de sua vida.

Slavery Unseen - Lamonte Aidoo 2018-04-06

In *Slavery Unseen*, Lamonte Aidoo upends the narrative of Brazil as a racial democracy, showing how the myth of racial democracy elides the history of sexual violence, patriarchal terror, and exploitation of slaves. Drawing on sources ranging from inquisition trial documents to travel accounts and literature, Aidoo demonstrates how interracial and same-sex sexual violence operated as a key mechanism of the production and perpetuation of slavery as well as racial and gender inequality. The myth of racial democracy, Aidoo contends, does not stem from or reflect racial progress; rather, it is an antiblack apparatus that upholds and protects the heteronormative white patriarchy throughout Brazil's past and on into the present.

Mandarin Brazil - Ana Paulina Lee 2018-07-17

In *Mandarin Brazil*, Ana Paulina Lee explores the centrality of Chinese exclusion to the Brazilian nation-building project, tracing the role of cultural representation in producing racialized national categories. Lee considers depictions of Chineseness in Brazilian popular music, literature, and visual culture, as well as archival documents and Brazilian and Qing dynasty diplomatic correspondence about opening trade and immigration routes between Brazil and China. In so doing, she reveals how Asian racialization helped to shape Brazil's image as a racial democracy. *Mandarin Brazil* begins during the second half of the nineteenth century, during the transitional period when enslaved labor became unfree labor—an era when black slavery shifted to "yellow labor" and racial anxieties surged. Lee asks how colonial paradigms of racial labor became a part of Brazil's nation-building project, which prioritized "whitening," a fundamentally white supremacist ideology that intertwined the colonial racial caste system with new immigration labor schemes. By considering why Chinese laborers were excluded from Brazilian nation-building efforts while Japanese migrants were welcomed, Lee interrogates how Chinese and Japanese imperial ambitions and Asian ethnic supremacy reinforced Brazil's whitening project. *Mandarin Brazil* contributes to a new conversation in Latin American and Asian American cultural studies, one that considers Asian diasporic histories and racial formation across the Americas.

Automated Organizations - Nelio Oliveira 2011-08-30

The book is based on the approach of organizational structure and on Henry Mintzberg's work on organizational configurations. As a matter of fact, it attempts to supplement and update Mintzberg's organizational taxonomy, taking into account changes in the structure and work organization of business firms. The book is written for all people whose work is related to organizations and who are interested in the subjects it deals with.

Embodying Modernity - Daniel F. Silva 2022-04-05

Embodying Modernity examines the current boom of fitness culture in Brazil in the context of the white patriarchal notions of race, gender, and sexuality through which fitness practice, commodities, and cultural products traffic. The book traces the imperial meanings and orders of power conveyed through "fit" bodies and their different configurations of muscularity, beauty, strength, and health within mainstream visual media and national and global public spheres. Drawing from a wide range of Brazilian visual media sources including fitness magazines, television programs, film, and social media, Daniel F. Silva theorizes concepts and renderings of modern corporality, its racialized and gendered underpinnings, and its complex relationship to white patriarchal power and capital. This study works to define the ubiquitous parameters of fitness culture and argues that its growth is part of a longer collective nationalist project of modernity tied to whiteness, capitalist ideals, and historical exceptionalism.

Backlands - Euclides da Cunha 2010-05-25

An important new translation of a fundamental work of Brazilian literature
Written by a former army lieutenant, civil engineer, and journalist,

Backlands is Euclides da Cunha's vivid and poignant portrayal of Brazil's infamous War of Canudos. The deadliest civil war in Brazilian history, the conflict during the 1890s was between the government and the village of Canudos in the northeastern state of Bahia, which had been settled by 30,000 followers of the religious zealot Antonio Conselheiro. Far from just an objective retelling, da Cunha's story shows both the significance of this event and the complexities of Brazilian society. Published here in a new translation by Elizabeth Lowe, and featuring an introduction by one of the foremost scholars of Latin America, this is sure to remain one of the best chronicles of war ever penned.
